

## AGRICULTURE.

## PLOW SHOULD PULVERISE THE SOIL.

The pulverisation of the soil—or especially tenacious soil—is of great importance to the development of its capabilities for the support of a crop. Hence in ploughing, it becomes a matter of the highest consequence to obtain the implement which will most perfectly effect this object. In the trial of plows, before the New-York State Agricultural Society, in 1850, this was regarded as one of the most essential points, for stiff soil, and we are glad to see that it is receiving much attention in England. Mr Peter Love, an English farmer of a considerable distinction, has written letters to the Mark-Lane Express in which he makes some excellent remarks on the action of plows in reference to the purpose alluded to. He says:

"If it be the fact that the primary object of cultivation for the production of the various agricultural crops, is a pulverised soil and porous subsoil, then the farmers ought to draw out the ingenuity of our agricultural mechanics, by giving prizes for those plows that will invert without smothering and smearing, the under strata, and most effectually pulverize the greatest quantity of land a given depth with the least amount of power, instead, as the present practice is by all our agricultural societies awarding prizes to those plows that cut out a furrow with all three of its cut sides well smoothed and smeared up, and turned over in an unbroken state, as possible, so that it will shine from one to the other, like a well moulded piece of concrete and the bottom of the furrow well polished over by the friction of a broad soled land-side and wrest, thus rendering the under strata almost impervious to either air or water."

"If we could have a plow so made that it would in the act of inverting the furrow-slice, break it into pieces, and pass over the bottom of the furrow without the friction of any smooth surface of iron or other material being drawn over, closing up all the pores and fissures in the under strata, I think there is little doubt but such a plow's cultivation would approach (when performed at equal depths) for cultivation."

"There are a great many of the best farmers who are of opinion that it is a great advantage to have the furrows turned as completely over as possible. But the great evil is that when the plow is set to turn the furrow so, the solid furrows require so much harrowing to prepare the land for the dibble or the drill; but such would not be the case if we had plows that in the act of turning over the furrow would well crack, rent, and break it, and completely invert it, and cut it up from the under strata without smothering the bottom of the furrow, closing all the pores and fissures thereof."

## TURNIPS.

Turnips may remain in the field till late. They are far less injured by frost than many are inclined to believe. It is very often the case that turnips are frozen in the ground, and on the frosts breaking up again in the course of a few days, are removed as hard and crisp as before. The action of the soil neutralizes its effects, and sometimes a succession of several weeks of warm weather, after a freezing night, adds as much to the weight and value of the crop as they gained in twice the time before the severe cold. A low temperature is favorable rather than adverse to the development of all the species of the turnip tribe. Cabbages grow rapidly in cold weather; hence the practice so prevalent at present of allowing them to remain out till snow falls. In packing turnips of all kinds, care should be taken to secure them against the light and air. The more perfectly this is accomplished the greater will be the certainty of their keeping well, and the more wholesome and nutritive will they be found both for stock and for table use.

## ENGLISH HORSES.

Horses in England are deteriorating; as a race, they are growing more delicate. At the military encampment at Cobham, the horses are carefully housed; whereas in former times they could do very well in the open air. Modern English horses are also liable to have sore backs after a short march, and they are so weak in the legs that a number of such marches would soon produce lameness. The useful class of horses which formerly supplied the cavalry no longer prevail. Breeders confine themselves to raising through-breds for the turf, to cart-horses, harness-horses, and hunters.

## SPARE THE BIRDS.

The worst of them earn twenty times what they eat; and then, what exquisite pleasure to have your garden, yard, orchard or wood, alive and vocal with the music of merry birds. Plant trees for them build houses if necessary for them, and let no cat, dog, or boy ever molest them and they will teach you lessons of domestic bliss—preach you sermons—and warble you hymns. Be kind to your birds.

AN OIL FOR SPRAINS.—Take of olive oil, two ounces; of camphor, rubbed well with a little oil, and then added to the whole one drachm. Very little of this should be used at a time and to be rubbed gently on the parts before the fire.

TO SUBDUCE A CAPERING HORSE.—It is said in the "Ohio Cultivator," that a bucket or two of water given a horse to drink just before riding him, takes from him all disposition for capering, and renders him perfectly sedate.

## Never Failing Remedy

## HOLLOWAY'S OINTMENT.

A CRIPPLE SETS ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING.

Copy of a Letter from Mr. Thompson, Chemist, Liverpool, dated August 20th, 1853.

To Professor Holloway,  
Dear Sir—I am enabled to furnish you with a most extraordinary cure effected by your invaluable Ointment and Pills, which so astonished every person acquainted with the sufferer. About ten years ago, Mr. W. Cummins, of Salney Street, in this town was thrown from his horse, whereby he received every serious injury; he had the best medical advice at the time, and was afterwards an inmate of different infirmaries, yet he grew worse, and at length a malignant running ulcer settled in his hip, which so completely crippled him, that he could not move without crutches for nearly 10 years; recently he began to use your Ointment and Pills, which have now healed the wound, strengthened his limb, and enabled him to dispense with his crutches, so that he can walk with the greatest ease, and with renewed health and vigour.

(Signed) J. THOMPSON

A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE WHEN ALL MEDICAL AID HAD FAILED.

Copy of a letter from Mr. Hird, Draper, of Keady, near Gainsboro', dated March 1st, 1853.

To Professor Holloway,  
Sir—Some time since, one of my children children was afflicted with dreadful eruptions over the body and limbs. I obtained the advice of several eminent Surgeons and Physicians, by all of whom the case was considered hopeless. At length I tried your Ointment and Pills, and without exaggeration the effect was miraculous, for by persevering in use, all the eruptions quickly disappeared and the child was restored to perfect health.

I previously lost a child from a similar complaint and I firmly believe had I in her case adopted your medicines she would have been saved also. I shall be happy to testify the truth of this to any enquirer.

(Signed) J. HIRD, Draper.

ANOTHER SURPRISING CURE OF A ULCERATED BAD LEG, DEBILITY AND GENERAL ILL HEALTH.

Copy of a letter from Mr. J. M. Clennell, of Newcastle-on-Tyne, dated September 20th 1852.

To Professor Holloway,

Dear Sir—I am authorised by Mrs Gibbon of 31, Bailey Street, in this town, to inform you that for a considerable period she had been a sufferer from debility, and general ill health, accompanied with a disordered stomach, and great derangement of the system. In addition to this she was to be afflicted with ulcerated wounds, or running sores, in both her legs, so that she was totally incapable of doing her usual work. In this distressing condition she adopted the use of your Pills and Ointment, and she states, that in a wonderful short time, they effected a perfect cure of her legs and restored her constitution to health and strength; and that she is now able to walk about with ease and comfort. Several other persons in this neighbourhood have also received extraordinary benefit from the use of your invaluable medicines.

I remain, Dear Sir, yours faithfully,

(Signed) JOHN MORTON CLENNELL

CERTAIN REMEDY FOR SCORBUTIC HUMOURS—AND AN ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE.

Copy of a Letter from Messrs Walker and Co, Chemists Bath.

To Professor Holloway,

Dear Sir—Among the numerous cures effected by the use of your valuable medicines in this neighbourhood, we may mention that of an old lady living in the Village of Preston about five miles from this city. She had ulcerated in her leg for many years, and latterly they increased to such an alarming extent as to defy all the usual remedies; her health rapidly giving way under the suffering she endured. In this distressing condition she had recourse to your Ointment and Pills, and by the assistance of her friends was enabled to persevere in their use, until she received a perfect cure. We have ourselves been greatly astonished at the effect upon so old a person she being about seventy years of age. We shall be happy to satisfy any enquiries as to the authenticity of this really wonderful case, either personally or by letter. We remain, Dear Sir,

Yours faithfully,  
WALKER & CO.

The Pill should be used conjointly with the Ointment in most of the following cases:  
Bad Legs      Chilblains      Pustules  
Bad Breasts      Chapped hands      Gout  
Burns      Corns soft      Glandular  
Bunions      Carcers      Swellings  
Bites of Mos-      Contracte      Lumbago  
chetoe and      & stiff joints      Rheuma-  
Sand flies      Elephantiasis      tism  
Cocobay      Sore throats      Scalds  
Chicago-foot      Skin Diseases      sore nipples  
Scurvey      Sore heads      Tumours  
Ulcers      Wounds      Yaws

N. B. Directions for the guidance of Patients are affixed to each Box and Pot.

Sold at the establishment of Professor Holloway 24 Strand London, and by most respectable Druggists and Dealers in Medicine throughout the civilized world.—Price of each Pot or Box are 1s 6d 3s 9d, 6s 3d, 15s, 40s and 50s.

There is a considerable saving in taking the age.

## BLANKS

of all kinds for sale at this Office.

## Azor's Turkish Balm.

THE ONLY CERTAIN REMEDY FOR BALDNESS, AND FOR PREVENTING AND STOPPING THE FALLING OUT OF THE HAIR.

As a Toilet Article, for Beautifying and keeping the Hair Soft, Glossy, and in a Healthy Condition, it is unequalled. Its positive qualities are as follows:

1st.—It frees the head from dandruff, strengthens the roots, imparts health and vigour to the circulation, and prevents the hair changing colour or getting gray.

2d.—It causes the hair to curl beautifully when once up in it over night.

This Balm is made from the original receipt procured from the original Turkish Hakim (physician) of Constantinople, where it is universally used. The Turks have always been celebrated for their wonderful skill in compounding the richest perfumes and all other toilet articles. In Turkey the aromatic herbs, &c., of which this Balm is composed, are almost universally known and used for the hair. Hence a case of baldness or thin head of hair is entirely unknown in that country. We wish to mention to you of it; that will do more to convince you of its virtues than all the advertisements that can be published, and that all may be able to test its virtues, it is put up in Large Bottles at the low price of 50 cents per bottle.

Remember the genuine has the signature of Constock & Brother on the splendid wrapper. TO OWNERS OF AND DEALERS IN HORSES.

## CARLTON'S FOUNDER OINTMENT.

For the cure of Founder, Split Hoof, Hoof-bound Horses, and Contracted and Feverish Feet, Wounds, Bruises in the Flesh, Galled Backs, Cracked Heels, Scratches, Cuts, Kicks, &c. on horses.

## CARLTON'S RING-BONE CURE.

For the cure of Ring-Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE.

The change of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Botts, &c. All of which will be prevented by giving one of these powders, and will at any time cure when any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretory glands, and therefore they have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or produced by a bad state of the blood, are speedily cured by them. CAUTION.—Remember and ask for CARLTON'S CONDITION POWDERS, and take no other.

CARLTON'S articles for Horses and cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety-nine cases out of one hundred any of the above complaints. They have been used by Farmers, Veterinary men stage proprietors and others with the most marked and decided success.

CAUTION.—None can be genuine, unless you find the name of J. Carlton Constock on the Wrapper of each article. Remember this, as their articles have been extensively counterfeited of late, look and find the proprietors name, J. Carlton Constock, &c., never buy without.

CAUTION.—All the above named articles are sold only by Constock & Brother, 2 St. Peter's Place, directly in rear of the Astor House, between Barclay and Vesey sts., one door from Barclay and one block from Broadway, New York, to whom all orders must be directed, also only by Wm. Forbes and Wm. Muirhead, Chatham. Wm. Masson & Co, George Watt, and M. Sargeant, Newcastle. Park & Alexander, Douglastown. And by Agents in every town in New Brunswick.

## Old Rheumatic Affections

CAN BE CURED BY THE

## CRAMP AND PAIN KILLER.

Den. Henry Hunt was cured of NEURALGIA or SCIATIC RHEUMATISM, after having been under the care of a physician six months. The Cramp and Pain Killer was the first thing that afforded him any relief.

David Barker was cured of a RHEUMATIC PAIN IN THE KNEE, after three or four days and nights of intense suffering, by one bottle of the Cramp and Pain Killer.

T. H. Carman—suffering from Cramp in the Limbs, the cords of his legs knotting up in large bunches, was cured by the Cramp and Pain Killer, at another time a few applications entirely cured him of an exceedingly bad Rheumatic Affection in the Back.

A young lady, fifteen years of age, daughter of John W. Sherwood, was long afflicted with SPINAL COMPLAINT, after being reduced to the verge of the grave, was cured by the Cramp and Pain Killer.

John Buckman, after having suffered everything but death from Rheumatism, which seemed to pervade almost every part of the body, was cured by the Cramp and Pain Killer.

Mrs Davis was cured by it of Bilious Cholera. A man in Portland was cured by it of Bilious Cholera when his life was well nigh despaired of. Hundreds have been relieved by it of tooth ache, ague in the face, &c.

## MRS. WINSLOW.

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

## SOOTHING SYRUP.

FOR CHILDREN TEETHING.

For the Nervous Affections, Convulsions, Fever, Inflammation of the Bowels, &c., that attend this period of children, she recommends it as sure to produce the desired effect, giving Rest to the Mother, and Relief and Health to the infant. A child on Congress Street was cured by the Soothing Syrup, of Infantile Dysentery or Diarrhoea, after being given over by the attending Physician.

Mr Blackman, of Eddington says, it has never failed to Cure the Dysentery or Diarrhoea in children whenever used in the village. Lots of it is sold.

One parent informs me his child had suffered to an alarming extent with Flatulence or Wind Cholera. Lately they have used the Soothing Syrup, and it always effects a speedy cure. Hundreds of like instances might be enumerated. In every town where it has been sold Mothers try it.

## ALSO FOR SALE, THOSE PURE

## Wild Cherry Bitters.

For the cure of Bilious and Jaundice complaints, and general debility. They quicken the blood and give new life and energy to the whole system. Price only 37 cents in Pint Bottles.

## THE SCHOOLMASTER.

A NEW MONTHLY HALF-DOLLAR MAGAZINE, Devoted to Practical Education—For Fireside and Wayside.

The Schoolmaster, a new monthly magazine of USEFUL INFORMATION, is published on the first of each month, at No. 40 Ann Street, New York. It contains 16 quarto pages, printed on a superior quality of paper, at 50 cents per annum, in advance—11 copies for \$5.00; 23 copies \$9; 50 copies \$15; 100 copies \$25.

THE SCHOOLMASTER, will embrace in its MATTER and MECHANICAL EXECUTION several features, peculiarly its own. It has two-fold purpose—1st. To promote the interest of Universal Education, by encouraging and extending the system of Free Schools. 2nd. To supply the Fireside and Wayside reader with entertaining, instructive and useful reading, worthy of preservation, and which shall form a part of the mental furniture of its readers—to awaken a desire for the acquisition of science, and inspire a spirit for self-improvement, physically, mentally and morally, and to furnish when awakened, such "food for thought" as shall develop the whole man, refine and elevate him in the scale of being.

To accomplish this object the SCHOOLMASTER will contain a variety of original and carefully selected matter, on the principles, means and end of Education and educational institutions—its a-vantage and benefits to individuals and nations—the duty of enlightened legislation on the subject. It will also contain a department, in which practical and experienced educators will discuss the best method of imparting instruction in the school room or family circle. The SCHOOLMASTER will aid in shielding from merciless attacks all those institutions of learning which the "Father of his country" referred to in his farewell address to the American people, when he said—"Promote as an object of primary importance institutions for the general diffusion of useful knowledge." Great care will be taken that

"Not one immoral, one corrupt thought shall ever appear on its pages. It will be strictly an educational magazine—a physical, mental and moral educator for Universal Circulation—an encyclopedia of valuable information for all classes of Readers—matter gathered and garnered from intellectual storehouses.

Its patrons will find in its ample pages Scientific Items, Literary Gems, Curiosities of Art, Relics of the Past, Pearls, Diamonds and Gold Sands, Facts for the Curious, Curiosities from Antiquarian Cabinets, Biographical Sketches, showing that "the proper study of mankind is man;" Dew-drops of Wisdom, Rare Readings, Hints for the House Circle, and the events of the age, carefully collected, culled and collated from sources which from their expense, are not accessible, and are as "sealed fountains of living waters" to thousands of readers.

Believing as we do that a publication of the kind we propose to make the SCHOOLMASTER, is needed to counteract the influence of a vicious literature which too often blights and sear the souls of its too willing readers, we cheerfully send the SCHOOLMASTER abroad and anticipate that the friends of education will encourage the enterprise. And although

"'Tis not in mortals to command success,  
We'll do more—deserve it."

37—School-teachers, Editors, Clergymen, Students, School Officers, Post masters, and all friends of practical education are respectfully requested to aid us in extending the Circulation and usefulness of the SCHOOLMASTER.

37—Editors desiring an exchange, will always secure it by noticing or copying this prospectus, and addressing their papers to the Schoolmaster, New York.

N. B.—Travelling agents of good address capable of giving lectures on the subject of education, are wanted, with whom very liberal arrangements will be made—see terms.—Specimen Nos. furnished on application. Address SPAULDING & CO. 40 Ann Street, New York.

## NOTICE TO FARMERS, &amp;c.

Persons having Hides, Skins, Tallow and Butter, or either of those articles to dispose of, will find a ready sale for them, (for CASH,) at the Chatham Auction Room.

W. M. LETSON, Commission Agent and Auctioneer.

Chatham, August 12, 1852.

## NOTICE.

All Persons having just claims against the Estate of the late DAVID SWAYNE, Esq., Chatham, Deceased, late of H. M. Constock are requested to render the same to Jno. M. Johnson, Esq., within Three Months from this Date, duly Attested; and all those indebted to said Estate, are required to make immediate payment of the same to him.

AMELIA SWAYNE, Administratrix.  
Miramichi, October 29, 1853.

## ADVERTISEMENT.

Mr Pierce,  
Sir—It is very natural that Mr Hutchison, after adopting the extraordinary measures which he did, upon the death of the lamented Mr Wishart, without a pressing necessity, and without the shadow of law or usage, it is very natural that he should seek to justify himself in the eyes of the public. With this view, I suppose, he caused to be published in the last Gleaner, an extract of a letter alleged to have been received by him from Scotland. I will thank you Sir, to publish also the following extract of a letter received by me per the last British mail.

WILLIAM SMITH.

Newcastle, July 26, 1853.

Solway Bank, 28th June, 1853.  
My Dear Sir,  
I received your letter of the 4th June, and having lost no time in making necessary inquiries relating to the Wisharts that I desired of me. William lives at the Gulls b d on Eaglesfield, is married, and has a family. Bettie Wishart is married to one William Smith, and lives at Beyer Burnfoot, Cambovie, and has likewise a family. This William Smith desired me to write to you to say, that he hoped that you would see justice shown to all parties concerned in the matter. Yours truly  
THOMAS KERR.

THE GLEANER is Printed and Published every Wednesday and Saturday afternoon, by JAMES A. PIERCE, at his Office, in Chatham, Miramichi. Price 15s. in advance.  
Rates of Advertising.—Seven lines and under, 2s. 6d. first insertion, and 6d. every subsequent publication: from seven to fifteen lines, 6s. the first, and 1s. every insertion afterwards.
