AGRICULTURE.

BARNS.

In that part of Pennsylvania through which we passed the barns are generally built of stone. They consist of two stories the lower of which is divided into apartments for horses and cattle, and the upper is appropriated to the storage of hav, grain, &c. The walls are usually very thick—not lest than two feet—and being well laid in mortar are nearly imprevious to moisture and air. Windows are placed in the walls at proper places for ventilation. The large doors are on the side, and teams with loads reach the floor of the second story by means of a bank or wharf made for the purpose. Stationary horse-powers, mostly on the lever principle, requiring from five to six horses for threshing grain, are generally placed in the tasement, or in an adjoining building. In some instances these powers are being displaced by the endlesschain powers which occupy much less space and are worked by one or two horses. The stalls are very warm-or can be made so -and in winter afford excellent quarters for the animals. In warm weather they may be cool but in some instances there appeared to be insufficient ventilation. The fodder is thrown from the upper story through scuttels or holes in the floor, and is then distributed to the various animals.

The practice of putching hay from the load by horse-power, prevails on many farms in Bucks county. The apparatus for this operation consists of a strong fork to which is attached a rope passing over a pulley fastened to the ridgepole of the barn, and thence over another pulley attached to the barn floor. A horse is attached to the lower end of the rope and when the fork is plunged into the hay he raises it by pulling. The balance of the fork when loaded is preserved by a small rope, strached to the end of the handle, and held by a man on the floor, who by slacking the hold of the rope premits the fork to discharge itself when it has reached its destined place. By this contrivances the hay is readly raised to the higest parts of the barn. A man with a boy to lead the horse, can pitch six tons of hay an hour, -raising it filteen to twenty feet.

LABOR AND ITS PAY.

The New England Farmer gives a good example of the sucsessful management of an orchard. When the trees were an inch in diameter manure was applied, and they were kept dug around, the circle thus cultivated being yearly increased in size as the roots extended in length This circle has now become twelve feet in diameter. Chip manure bones ashes and other fertl izing substances, are often applied. result of this labor is that the owner obtaine yearly large crops of beautiful and excellent fruit, and obtains more money from his orchard than many farmers do from all sources although this does not consti-tute his main business.

SUBSOIL PLOWING.

The condition of the ground, as to moisture, greatly affect the results of this operation. If the subsoil is tenacious, it shouldbe in so dry a state when the implement passes through it, that it will be pulverised and left in a loose state; if it is worked when wet, the effect is only to pack the earth more closely together. The various opinions in regard to the utility of subsoil plowing, arise in a great measure from these circumstances. It should be remem-bered, moreover that on tenacious soils, through drainage is essential to the development of the advantages of subsoiling.

MARKET GARDENING ABOUT

LONDON. J. Cuthill states in Hovey's Magzine that the number of acres under cultivation to supply the various London Markets, is about 12,000 acres occupied by vegetables, and about 5,000 by fruit trees. Some 35,-000 people are employed in their cultivation. Besides these, occasional supplies are sent by the more distant counties; and hundreds of acres in Cornwall and Devonshire are employed in growing early pota-toes, broccoli, peas, &c. which reach London by rail.

WINTER, THE TIME TO THINK. Winter is the time for farmers to think -spring, summer, and fall, to work; and latter season's labor will be to little profit if the time of the first shall have ments, all designs for new operations; all ease, either personant, dear Sir, sidered and prepared for; so that when the time for work arrives he will have nothing to do but to "go ahead." Then he has no time to think; but it he hes been wise during winter he will have no need of it. It is a pitiful sight to look at in the spring, when all nature is in an ec-stacy of delight, to see a farmer flying about "like a hen with her head cut off," trying to do a thousand things at once, not knowing which to do first, running here and there in search of his rusty implements, some of which require repairs, some con't be found; the plowing season passing away, the planting season rapidly advancing, and he not prepared for anything. Oh! it is pitiful.

WINTERING TEA ROSES. The following mode is reported by the editor of the Horticulturist, as having been cinech broughout the cvilized world,—Price entirely successful the past severe winter. of eaan Pot or B x are 1, 5d. 3s 91, 6s 31, 15, One foot of tan bark, applied to the ovul bed late in autumn, nearly cover all the stems, the tallest being bent down. This lar a sizes. ian bark was kept perfectly dry by means of three bundles of of three bundles of circular radiating thatch, gathered to a point at the centre - forming what a farm of all kinds for sale at this and Retail. er would call a cap. Keeping the tan dry is the greatest requisite.

Never Failing Remedy!

HOLLOWAY'S OINTMENT.

A CRIPPLE SETS ASIDE HIS CRUTCH-ES AFTER TEN YEARS SUFFER-ING.

Copy of a Letter from Mr. Thompson, Chemist. Liverpool, dated August 20th, 185.3
To Professor Holloway,
Dear Sit—I am enabled to fornish you with a most extraordinary cure effected by your invaluable Ontment and Pills, which so astonished every person acquainted with the sufferer. About ten years ago, Mr. W. Cummins, of Saltney Street, in this town was thrown from his horse, whereby he received every serious injuries; he had the best medical advice at the time, and was afterwards an inmate of different infirmatics, yet he grew inmate of different infirmaties, yet he grew worse, and at length a malignant running ulcer settled in his hip, which so completely crippled him, that he could not move without crutches for nearly 10 years; recently he began to use your Ointment and Pills, which have now healed the wound, strengthened his limb, and enabled him to discover the strengthened his limb, and enabled him to discover the strengthened his limb, and enabled him to discover the strengthened his limb, and enabled him to discover the strengthened his limb, and enabled him to discover the strengthened his limb, and enabled him to discover the strengthened his limb, and enabled him to discover the strengthened his limb. ened his limb, and enabled him to dispense with his crutches, so that he can walk with the greatest ease, and with renewed health

> (Signed) J THOMPSON

A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE WHEN ALL MEDICAL AID HAD FAILED.

Copy of a letter from Mr Hird, Draper, of Keady, near Gainsbro', dated March 1st, 1853.

Ready, near Gainsbro', dated March 1st, 1805.
To Professor Hollewax,
Sir—Some time since, one of my children children was afflicted with dreadful eruptions over the body and limbs. I obtained the advice of several eminent Surgeons and Physician broad at whom the case was considerable to the case was consi cians, by all of whom the case was considered hopeless. At length I tried your Oint-ment and Pills, and without exaggeration the

ment and Pills, and without exaggeration the effect was miraculous, for by persevering in use, all the eruptions quickly disappeared and the child was restored to perfect health.

I previously lost a child from a similar complaint and I firmly believe had I in her case adopted your medicines she would have been saved also. I shall be happy to testify the truth of this to any enquirer.

(Signed)

J. Hird, Draper.

ANOTHER SURPRISING CURE OF A ULCERATED BAD LEG. DEBILITY AND GENERAL ILL HEALTH.

Copy of a letter from Mr J. M. Clennell, of Newcastle-on-Tyne, dated September 20th 1852.

To Professor Hollowr.

Dear Sir, -I am authorised by Mrs Gibbon of 31, Bailey Street, in this town, to inform you that for a considerable period she had you that for a considerable period she had been a sufferer from debility, and general ill health, accompanied with a disordered stomach, and greet derangement of the system. In addition to this she was te ribly afflicted with ulceratedwounds, or running sores, in both her legs, so that she was totally incapable of doing her usual work. In this distressing condition she adopted the use of your Pills and Ointment, and she states, that in a wonderful short time, they flected a perfect wonderful short time, they ffected a perfect cure of her legs and restored her constitution to health and strength : and that she is now able to walk about with ease and comfort. Several other persons in this noighbourhood have also received extraordinary benefit from the use of your invaluable medicines.

I remain, Dear Sir, yours faithfully, (Signed) JOHN MORTON CLENNELL

CERTAIN REMEDY FOR SCORBUTIC HUMOURS—AND AN ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE.

Copy of a Letter from Messrs Walker and Co, Chemists Bath.

To Professor HOLLOWAY,

Dear Sir-Among the numerous cures effected by the use of your valuable medicines fected by the use of your valuable mentions in this neighbourhood, we may mention that of an old lady living in the Village of Preston about five miles from this city. She had ulcerated in her leg for many years, and latterly they increased to such an alarming extent as to defy all the usual remedies; her health rapidly giving way under the suffering she endured. In this distressing condition shd had recourse to your Ointment and Pills, and by the assistance of her friends was enablea to persevere in their use, until she received a perfect cur. We have ourselves been greatly astonished at the effect upon so old a perbeen misspent. All the plans of next sea-son's operations should be laid and well considered during winter. All improve-to the authenticity of this really wonderful ease, either personally or by letter. We re-

JOHN BEGNALL. Newength, 22nd October, 1852.

Azor's Turkish Balm,

THE ONLY CERTAIN REMEDY FOR BALDNESS. AND FOR PREVENTING AND STOPPING THE FALLING OUT OF THE HAIR.

As a Toilet Article, for Feautifying and keep ing the Hair Soft, Glossy, and in a Healthy Condition, it is unequalled. Its positive qualities are as follows:

1st—It frees the head from dandruff, strengthens the roots, imparts health and vigour to the circulation, and prevents the hair changing colour or getting gray.

2d—It causes the hair to curl beautifully when done up in it over night.

This Balm is made from the original receipt procured from the original Turkish Hakin (physician) of Constantinople, where it is uneversally used. The Turks have always been celebrated for their wonderful skill in compounding the richest perfumes and all other toilet articles. In Turkey the aromatic herbs, &c., of which this Balm is composed, are almost uneversally known and used for the hair. Hence a case of baldness ro than head of hair is entirely unknown in that consultry. We wish but one trul to be made of it; that will do more to convince you of its vircues than all the advertisements that can be published, and that all may be able to test its virtues, it is put up in Large Bottles at the low prize of 50 cents per pottle,

Remember the genuine has the signature of Comstock & Brether on the splendid wrapper.

Remember the genuine has the signature of Comstock & Brether on the splendid wrapper. TO OWNERS OF AND DEALERS IN HORSES.

CARLTON'S RING-BONE CURE.

For the cure of Ring-Bone, Blood Spavin,
Bone Spavin, Windgalls, and Splint—a certain

CARLTON'S CONDITION POWDERS FOR HORSES. AND CATTLE.

The change of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yollow Water, Heaves, Worms, Botts, &c. All of which will be prevented by giving one of these powders, and will at any time cure when any symptoms of disease appear, if used in time. They purify the blood, remove all inflamation and fever loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of takes powders is direct upon all the secretive glands, and therefore they have the same effect upon the Horse, the Ox, the Ass, and all Herbivorcus animals—all diseases arising from or producing a bad state of the blood, are speedily cured by them. (AUTON.—Remember and ask for Carlton's Cendition Powders, and take no other.

ake no other.
CARLTON'S articles for Horses and ca tle

CARLTON'S articles for Horses and ca tle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety nice cases out of one hundred any of the above complaints. They have been used by Farmers, liverymen stage p eprictors and others with the most marked and decided succes.

CAUTION.—None can be genuine, unless you find the name of J. Calton Comstock on the Wrapprr of each article. Remember this, as their articles bave been extensively counterfeited of late, look and find the proprietors name, J. Calton Comst ck, &c., never buy without.

Caution —All the above named articles are sold only by Comstock & Brother, 2 St. Peter's Place, directly in rear of the Astor House, between Barclay and Vesey sts., one door from Birclay and one block from Broadway, New York, to whom all orders must be directed, slso only by Wm. Forbes and Wm Muirhead, Chatham. Wm. Masson & Co., George Watt, and M. Sargeaat, Newcastle. Park & Alexander, Douglastown. And by Agents in eacry town in New Brunswick.

Old Rheumatic Affections

CAN BE CURED BY THE CRAMP AND PAIN KILLER.

CRAMP AND PAIN KILLER.
