

AGRICULTURE.

LARGE PUMPKINS.

Having had good success the past season in raising fine large pumpkins, I will give you my plan and experiment. The ground planted was a warm, clayey loam, descending to the south. I planted the 20th of May, with corn and one and two pumpkin seeds in a hill; used about one tablespoonful of plaster, as gypsum to the hill. The field was a clover sod, ploughed once and harrowed three times. When the vines commenced to run, say one foot in length, I gave them a careful hoeing. After the fruit was well set, as some was six to eight inches in diameter, I covered the stem, and a small portion of the vine joining the stem, with moist, loose soil; the result was, that roots directly from the stem of the pumpkin were formed, and the fruit derived sustenance, and plenty of it, judging from the size and weight, which was eighty to ninety pounds.

FLOUGH-BOY.

SHEEPSKINS FOR DOOR MATS.

Take two long woolled white sheepskin, and make up a strong lather of soap—the sign of proper strength is when the lather feels slippery between the fingers. When the lather is cold wash the skins carefully in it, squeezing them between the hands so as to take all the dirt out of the wool. When this is accomplished, lift out the skins and wash them well in cold water ready, to which some alum and salt (about half a pound) which have been dissolved in a small quantity of hot water, are added and the skins left to steep all night. They are taken out in the morning and hung over a pole to drip. When all the alum water has dripped off they are spread out on a board to dry, and are carefully stretched, with the hand, from time to time. Before they are thoroughly dry, a composition of two tablespoonful of alum, and the same of saltpetre ground to a powder, in a mortar or otherwise, and sprinkled carefully on the fleshy side of each skin. They are then placed the one on the top of the other, leaving the wool outside, and hung upon a rack of slate, in a barn, shed, or dry, airy place, for about three days, or until they are dry—they should be turned every day. After this they are taken down and the fleshy side is scraped with a blunt knife, and each trimmed for a mat. The flesh side may then be rubbed over with pipe-clay, beat with a switch, and will then be found supple, of a beautiful white color, and fit for a door mat for a mechanic or a priest.

LIME AS MANURE.

Mr. Wright had supplied lime to two fields, to three acres of very strong clay soil when in green crop it was troublesome to work, he applied of slacked lime to it, eighty bushels to the acre, when it was in green crop, sowed the land with lime and had more wheat from that piece than ever before from the same ground: since then it had been mowed, and instead of a ton or a ton and a half to the acre, he had cut two and a half tons in it every year. On the other field, land that had been wrought he applied forty loads of barnyard manure, and eighty bushels of lime to the acre. His crops had been good, particularly the clover. He thought it would pay to apply lime to undrained clay land; it would pay on grain but more on grass. Lime at a York shilling a bushel was the cheapest manure we could apply, as its effect was as lasting, not like plaster which was only beneficial for one or at most two years, whereas he thought lime was beneficial to the land for many years; to have his lime air slacked he bought it in the fall and kept it in a dry shed all winter.

Mr. John Wade thought one bushel of Plaster would do as much good to the acre as ten pounds worth of lime. Professor Johnston said that the cause of so much rust in wheat was the want of lime in the soil, and that the lime was an antidote of rust—but he found it was no such thing. Some years ago he burnt seven kilns full of lime and applied it to his fallow land after the first plowing fifty bushels to the acre and saw no benefit from it. One bushel of plaster would produce as much as eighty bushels of lime.—*Agriculturist.*

GARDENS.

"It is beyond mortal endurance to be told, as we are continually told, by certain sapient economists, that they do not care for a garden, and do not possess one, because they find it cheaper to buy their fruits and vegetables. Who doubts it? The pleasures of gardening depend not upon economic considerations. The fascination is in the very growing of your own fruits and flowers. There is no pleasure in tending flowers, and watching their opening blossoms—in nursing the sickly and rejoicing over the strong—in cutting a well chosen bouquet? Is there no pleasure in being able to send well-ripened grapes or peaches to a sick neighbor who has them not—in bestowing a capful of rosy cheeked apples on a rosy cheeked boy—in inviting the children of the village to partake of your gooseberries—in sending, at the close of a severe winter a hundred cauliflower plants to the minister of the parish? Is there no pleasure in exchanging rare flowers—in getting and giving floral gifts? Does your heart not leap up when the first snow-drop—bold child of lingering winter, and venturesome invader of his icy reign—shows its welcome face on he green?

Is there no transport when the seedling holyhook bursts on your astonished vision in unexpected beauty? Thousands there are who are doomed by dire necessity never to have a garden of their own; but those who can and ought, and yet have not, for the sake of cheapness and from motives of a mean economy, ought to be banished to some desert wilderness, where the green earth and nature's flowers may not waste their sweetness on them."

HOLLOWAY'S PILLS.

EXTRAORDINARY CURE OF LOSS OF HEALTH, DISORDERED STOMACH, INDIGESTION AND DETERMINATION OF BLOOD TO THE HEAD.

Copy of a Letter from Mr John Lloyd, Esq., near Harlech, Merionethshire.

To Professor HOLLOWAY.

Sir.—I avail myself of the first opportunity of informing you, that for a very long period I was afflicted with a dangerous giddiness and frequent swimings in the head, attended by loss of appetite, disordered stomach, and generally impaired health. Every means had failed to give me any permanent relief, and at length it became so alarming that I was really afraid of going about without an attendant. In this melancholy condition I waited personally upon Mr Hughes, Chemist, Harlech, for the purpose of consulting him as to what I had better do; he kindly recommended your Pills, I tried them without delay, and after taking them for a short time I am happy to bear testimony to their wonderful efficacy. I am now restored to perfect health, and enabled to resume my usual duties. You are at liberty to publish this letter in any way you may think proper. I am Sir, your obedient Servant.

MIRACULOUS CURE OF DROPSY.

Extract of a Letter from Edward Rowley, Esq., of India Walk, Tobago, dated April 8, 1852.

To Professor HOLLOWAY,

Dear Sir.—I deem it a duty I owe to you and the public at large to inform you of a most miraculous recovery from that dreadful disease, Dropsy, and which, under God, was effected by your invaluable Pills. I was tapped five times within eight months, and skillfully treated by two medical practitioners, but could not get cured, until I had recourse to your remedy, and notwithstanding all I had undergone, this miraculous medicine cured me in the course of six weeks.

INFALLIBLE CURE OF A STOMACH COMPLAINT, WITH INDIGESTION AND VIOLENT HEAD-ACHES.

Extract of a Letter from Mr S. Gowen, Chemist, of Clifton, near Bristol, dated July 14th 1852.

To Professor HOLLOWAY,

Dear Sir.—I am requested by a Lady named Thomas, just arrived from the West Indies, to acquaint you that for a period of eight years herself and family suffered from continual bad health, arising from disorders of the Liver and Stomach, Indigestion, loss of Appetite, violent Head-aches, pains in the side, weakness and general debility, for which she consulted the most eminent men in the colony, but without any beneficial result; at last, she had recourse to your invaluable Pills, which in a very short time effected so great a change for the better, that she continued them, and the whole family were restored to health and strength. Further she desires me to say, that she has witnessed their extraordinary virtues in those incidental to children, particularly in cases of Measles and Scarlatina, having effected positive cures of these diseases with no other remedy.

A DANGEROUS LIVER COMPLAINT, AND SPASMS IN THE STOMACH EFFECTUALLY CURED.

Copy of a Letter from Mr Bostock, Druggist of Ashton, under Lyne, dated July 31, 1852.

To Professor HOLLOWAY,

Dear Sir.—I have much pleasure in handing to you a testimonial of the efficacy of your Medicines. A person in this neighbourhood with whom I am well acquainted, was afflicted for a long time with violent spasmodic pains in the stomach and liver, arising from frequent colds, smells of paint, and the effects of a stooping position which he had obliged to assume in his business. The spasms were of an alarming character, and frequently left him in a week and debilitated condition. At length he heard of the salutary effects of your invaluable Pills, and was induced to give them a trial. The first dozen gave him considerable relief, and by following them up in accordance with your directions, they have acted so wonderfully in cleansing the liver and stomach, and strengthening the digestive organs that he has been restored to the enjoyment of good health. I am, dear Sir, yours faithfully,

(Signed) WILLIAM BOSTOCK.

AZOR'S

Oriental Turkish Wine.

The great remedy for General Debility, Weakness, Loss of Appetite, Dyspepsia, Bilious Diseases, a certain preventive of Fevers, &c., &c. This WINE is the most pleasant and effective Remedy for any of the above complaints, and for many others not mentioned, that has ever discovered. It is so agreeable to the taste that any one taking it soon prefers it to any Wine; while its action on the stomach and bowels is prompt and efficient, cleansing them thoroughly, and thus, by keeping the organs in which the basis of the blood is formed, in a healthy and pure state, necessarily keeps the blood pure and healthful. It is a stimulant without reaction, unlike the alcoholic preparations, which leave the partaker in a state of prostration. THIS WINE sends a gentle and agreeable feeling through every nerve, and its tonic properties are such that it will restore the weak and debilitated to their natural STRENGTH and VIGOR. It is composed of the Pure Wine of many of the most tonic and rare Plants in the Materia Medica, the recipe for which was obtained from a celebrated Turkish "Dokim"—Physician, and one bottle is equal to ten of any Sarsaparilla or Blood Purifier ever before known. Then give this Oriental Wine a trial: it will speak for itself better than any recommendation or certificate; and he who tries it once will never be without it, nothing can equal it as a Diet Drink in hot climates, or on Shipboard, and no traveller should be without it. Caution—Find the name of Comstock & Brother, and the Stamp of the Turkish Flag, on the label and cork of each bottle, WITHOUT this it cannot be genuine.

All orders should be addressed to COMSTOCK & BROTHER, No. 2 St. Peter's Place, New York.

DEAFNESS.

Use Dr. LAZETTE'S ACUSTIC OIL, for the cure of Deafness. Also all those disagreeable noises, like the buzzing of insects, falling of water, whizzing of steam, which are symptoms of approaching Deafness. Persons who have been deaf for twenty years, and were subject to sea sickness, have after using one bottle, been made well.

Caution—All the above named articles are sold only by Comstock & Brother, 2 St. Peter's Place, directly in rear of the Astor House, between Barclay and Vesey sts., one door from Barclay and one block from Broadway, New York, to whom all orders must be directed, also by Wm. Forbes and Wm. Muirhead, Chatham, Wm. Masson & Co., Geo. Watt, and M. Sargeant, Newcastle. Park & Alexander, Douglastown. And by our Agents in every town in New Brunswick.

HAMPDEN, Feb. 21, 1846.

Messrs. J. Curtis, Jr. & Co.—Gentlemen,

I have a word to say to you, in favor of HUNTER'S COUGH SYRUP. I have used the last year used in my practice two dozen bottles of it, which I had of you, and every bottle has done good. For eight years past I have been in the practice of medicine, and I have never found anything so well calculated to operate so favourably in all diseases of the lungs as this. I have known a hard, distressing cough, cured in forty-eight hours, by using (in broken doses) one bottle of it. One case here in particular, of a man who was thought to have a seated consumption, troubled with a hard, distressing cough, I let him have one bottle, and he had two more of your agent, Mr. Whitmore. After using the three bottles, he has become well, and now labours every day. He told me lately, that Hunter's Cough Syrup was the means and only means of his cure. I have given it to infants, to children, to adults, and have the pleasure to inform you that it has done good in every case.

You need not hesitate to recommend it for a cough, and also all diseases of the lungs. I shall do all in my power to recommend it in the cases above named, not wholly for your benefit, but for the benefit of suffering humanity.

Yours truly,

BENJAMIN L. POMROY.
