

shows a frightful disorganisation. The affair at Milan has been suppressed, and blood has been made to flow.

We are ready to believe that the recent attempt at insurrection was made by foreigners proceeding from the Swiss frontiers, and we have already expressed our opinion that any movement not thoroughly considered by its promoters, and without a sufficient force to cope with the Austrians, was greatly to be deplored.

TRADE.—An increased confidence has been imparted to monetary matters during the week and the British funds and other securities have improved, which has acted with favourable effect on the general tone of our commercial market; a good consumptive demand exists, with prices well supported, and the internal trade of the country reported prosperous and satisfactory. No further advance in the rate of interest is now anticipated, although capitalists are looking to the receipts of bullion that are expected from Australia to supply the want, which is rather extensively experienced of a manufactured exchange with our gold producing colony.

LATEST NEWS.—Paris, February 18.—The whole of the forced sales of the Orleans property being now completed, it is found that very little more than the fortune of many a London shopkeeper remains to the family of Louis Philippe, who was by far the most wealthy monarch that ever sat upon the throne of France.

Many journals which have hitherto been distinguished by their moderation on all political points, and have studiously tried to steer clear of offence to the Imperial authorities have received their first warning, for copying comparatively unimportant paragraphs from each other; founded on fact, all or most of them are admitted to be, but, owing to the strict police surveillance exercised, some of the minor details have not been perfectly authentic.

Much speculation continues in relation to the private audience granted by the Emperor Napoleon to Gey. Ongaroff, aide de-camp to the Czar.

UNITED STATES.

Two Hundred and Fifty Thousand Dollars Lost.—The Hon. Alonzo Sabine, member of Congress from Massachusetts, has prepared a report on the fisheries, which occupies some four hundred pages, and is published as a part of the financial report of the United States' Treasurer. Mr Sabine is thoroughly informed on the subject. He has been on the fishing grounds and is familiar with the details of the business. In this report, he states that after careful investigation, he is led to the belief that the loss to American fishermen, occasioned by the 'armed force' on the fishery reserves, last year, is not less than a quarter of a million of dollars. To this add the expense to which the British government is subjected in sustaining that armed force, and some estimate may be formed of the disadvantage under which both nations labour in not entering into arrangements for mutual reciprocity.—Boston International Journal.

Statistical Reports.—Congress is abundantly supplied with statistical information regarding our international trade. The most full and complete report is that compiled by Isaac D. Andrews, Esq., which is now nearly ready for distribution. It makes a volume of 900 pages, and comprises every branch of trade in which the Colonies are interested, both with this country and Europe.

Mr Hathway's Bill regarding the 4th Section of the acts relating to the export of Lumber, was brought up, and the consideration fixed for Friday week. The object is said to be, to reduce the standard size of Logs. Mr McPhelim moved a resolution that no contingent Accounts be received by the House, unless the items and the names of the Parties to whom goods were furnished, were set forth; which was ordered to lie on the table; he also called for the Account of the Commissioners of Public Buildings, which was promised in good time. The Government Bills have not yet been introduced.

St. John, 4th March.

The Cambria arrived at Halifax, at 10 o'clock yesterday morning, with 56 passengers, and a full freight for Boston, the Baltic arrived at Liverpool from New York at midnight on the 15th.

ENGLAND.—In Parliament the Bishop of Exeter moved for the correspondence be-

tween the Colonial Office and Canada respecting the Clergy Reserve, which was ordered. A discussion arose on the state of the relations with France in the Commons on Friday night, by Mr D'Israeli, and elicited strong assurance of peaceable intentions.—The Navy Estimates were voted, amounting to £6,235,459 Stg. Sir Charles Wood, President of the Board of Control, reflected on the Emperor of the French, in his speech at Halifax, and Government have thought it necessary, through Lords John Russell and Aberdeen to apologize in Parliament. The affair has caused much talk.

Both Houses of the Church Convocation were in Session, with a full attendance of Prelates and Clergy, and an address to the Queen was presented and Ecclesiastical affairs discussed, principally Synodical Jurisdiction.

The Board of Trade returns for the year, show a surplus of exports for this year over last of £2,000,000 Stg., Metals show over £1,000,000 Stg. increase, and Cotton Manufactures show £150,000 decrease; other exports are all increased except Candles, Cordage, Cutlery, Dry Salteries, Salt, Refined Sugar and Woolen Yarn.

The Dublin Mail Steam Packet Company's Ship, Queen Victoria, Captain Church, from Liverpool, on Monday with 120 passengers and crew went ashore in a snow storm, at 3 o'clock on Tuesday morning, at the entrance of Dublin Bay; the ship was backed off the rock intending to run into the harbour but immediately sunk, one boat with seven-teen passengers reached the shore, eight got on the rock and a few more were taken off the masts, but sixty eight perished including several women and children.

New forgeries have been discovered, said to have been committed by A. H. Dedrickson, late Danish Consul at Dublin, engaged in the Lumber Trade.

Capt. Maynerid denies the authority of the address published by Kossuth to the Hungarians, and administers a sharp rebuke to the Times for its malignity to Kossuth.

The weather in Britain during the past week has been frosty, with heavy fall of snow.

FRANCE.—The Emperor and France alike wish for peace. Rheims has petitioned the Emperor to go there to be crowned. It is said, that while the Legislature will support the Government, they have determined to act more independantly in checking expenditure. Speculation exists concerning a private audience given by the Emperor to the Russian minister. The Emperor and Empress continue to appear in public. Sir Henry Bulwer was on board the Steamer that lately exploded on the Rhine, he escaped. The will of Napoleon the 1st, it is believed, will be given up by England to France. 30 ships are chartered by Parisian Merchants to bring ice from Sweden to French ports. Paris letters say that Foreign orders are beginning to arrive, and that some purchases have been made, which augur well for the Spring Trade. The United States are as usual among the early contributors to the Commercial life of Paris. Orders have already been received.

It is said that the Porte will accept the mediation of Austria, that Prince Dancel will accept the conditions offered by Turkey, and that hostilities are suspended. Ives, Protestant Bishop of North Carolina, embraced Catholicism at Rome, Sept. 26. He handed to the Pope, the Episcopal Ring and seal, saying, Holy Father, there are the signs of my rebellion, to which the Pope replied, it is our will, that these signs of your submission be suspended over the Tomb of St. Peter. From the United States and Brazil, at Lyons American orders arriving faster than they can be filled. From Denmark, Portugal, Belgium and Spain, the news is of no importance.

ITALY.—Milan is now reported quiet, but Theatres and Public Assemblies are prohibited. No outbreak has occurred in Tuscany or the Roman States, except some rioting at Orvite, where one man was stabbed and windows broken. At Sienna and Remino, cries of Vive la France and Vive Napoleon were uttered, for which the Town is fined heavily, and 50 blows each. At Monsea, 6 leagues from Milan, the insurgents held out for some hours bravely. The Times says they learned from sure resources, that the raising there was to be simultaneous with the assassination of Napoleon, but that plan having failed, has quite discomforted the Italian Revolt. No further movements have taken place in Montenegro.

Winds easterly and but few arrivals, grain and flour quotations with the market's less buoyant.

Manchester markets quiet during the week, owing to renewed probabilities of scarcity of raw material. Prices, however, have not given way, materially.

In London, great firmness in Colonial and Foreign produce Markets.

Corn Markets steady. Tea, rather more enquiry for common Congou. Sugar more active. No sales of molasses. Coffee in fair demand. Iron dull, 28s. 6d. to £3 10s.
