

AGRICULTURE.

MANAGEMENT OF YOUNG CALVES.

Every one who has spent a single season in the country must be familiar with that peculiar rural music, the bellowing of a discontented young calf—a music not of the most agreeable sort, indicating, as it does, that the little fellow is “ill at ease” in some way or other. It is worth while to inquire into the cause of this discontent for a young animal cannot be expected to stand and bawl for two hours together, without wasting through such an amount of breath, noise, and effort, a considerable portion of flesh, to say nothing of the real physical suffering which must cause these incessant complaints. We cannot but think that calves generally are doomed to a position too much like that of young children,—that is they are regarded as too small and insignificant a race of animals to merit much attention from grown up persons with wise heads. For as children are not unfrequently kept in the nursery under the care of those who would not be entrusted with the care of monied concerns,—or sent to school, to have their new-born intellects moulded by “the cheap schoolmaster,” whom their parents would not suffer to have charge even of a favourite horse—so in like manner young calves are shut up or tied up in some comfortless out house, where they receive a few minutes attention in feeding twice, in the space of twenty-four hours. It may be usual to examine a little in detail the proper mode of treating them, as they are to constitute the future millions of the cattle of our country.

Nature points out most distinctly that the young animal must at first be allowed to thrive only on the rich nutriment furnished by the fresh milk of the cow. The practice of separating the two wholly and at once, is unnatural and severe. The best mode undoubtedly is to give new milk for at least two weeks, and some excellent managers prolong this period to a month, the calf sucking the cow at regular and stated times. When this period terminates and change of food, is about to be made, let his change in all cases be gradual, for sudden transition are always attended with more or less hazard or loss; for a single check in advancing growth, is like a check in the growth of a young apple tree, or transplanted tomato plant,—not quickly got over. As soon as the calf has learned to drink new milk, (which is done by drawing its mouth into the vessel while sucking the finger,) let a small portion of warmed skim-milk be added; this may be daily increased until in two or three weeks more the whole food becomes skimmed milk. It will not be long after this, that eating solid food may be commenced. This is sometimes taught by suspending within reach a piece of fine hay tied together with a string, which the calf begins upon by sucking, and afterwards by eating the small portions that become detached.

For the sake of economy, it becomes desirable to discontinue gradually the milk. At first flour porridge is one of the best things that can be given. The mode of preparing it, is not unlike that for painter's paste; that is, let a pint of flour be mixed with water, in such proportions as to form it into a consistency of thick cream. Then add gradually small portions of boiling water, stirring it to prevent the formation of lumps, until about two gallons have been added. Then apply heat enough to coagulate the whole mass into a thick nutritious porridge. When first given to the calf, it should be made by mixing with the considerable portions of skimmed milk which is afterwards gradually lessened in quantity till none is used. This mode of cooking the flour, instead of mixing it cold not only makes more agreeable food, but greatly increases its nutritive effects. After a short time, cornel or fine “middlings,” may be substituted for flour, over which they possess some advantages in the quantity of gluten or muscle-forming elements they contain, as well as in cheapness.—Bean meal has been proposed as the best means of restoring the case in the milk but we need experiments on its value.

As soon as fresh pasture is at hand, and milk is withheld, calves soon learn to feed upon grass; but he who expects to see fine, thriving vigorous, square bodied young animals, must continue also the artificial food just described for a long period; and especially the first winter must not be a season of neglect.

(To be continued.)

GOOD AND BAD FARMS.

A ten acre field, costing fifty dollars per acre, and ditched manured and improved a fifty dollars more so as to give double crops, is much more valuable and profitable than twenty acres unimproved costing the same money.

QUANTITY OF CATTLE FOOD.

It is found by experience that the food of healthy oxen, of whatever size, is nearly one fifth of their own weight of turneps daily or about one fifth of their weight of hay straw or other dried food. So says Finlay Dan, of Scotland, and he received a gold medal for his paper on this subject.

CORN IN CALIFORNIA.

A Sacramento correspondent of the Prairie Farmer says, that although vegetables, grain, &c., generally yield enormous crops, the Indian corn does not succeed well from the soil causing too great a growth—that he has seen it 23 feet high with but little grain. This appears to be a different result from that usually produced in the eastern states where corn will bear more mature than most crops.

Never Failing Remedy

HOLLOWAY'S OINTMENT.

A CRIPPLE SETS ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING.

Copy of a Letter from Mr. Thompson, Chemist, Liverpool, dated August 20th, 1853.
To Professor Holloway.
Dear Sir—I am enabled to furnish you with a most extraordinary cure effected by your invaluable Ointment and Pills, which so astonished every person acquainted with the sufferer. About ten years ago, Mr. W. Cummins, of Salford Street, in this town was thrown from his horse, whereby he received every serious injury; he had the best medical advice at the time, and was afterwards an inmate of different infirmaries, yet he grew worse, and at length a malignant running ulcer settled in his hip, which so completely crippled him, that he could not move without crutches for nearly 10 years; recently he began to use your Ointment and Pills, which have now healed the wound, strengthened his limb, and enabled him to dispense with his crutches, so that he can walk with the greatest ease, and with renewed health and vigour.

(Signed) J. THOMPSON

A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE WHEN ALL MEDICAL AID HAD FAILED.

Copy of a letter from Mr. Hird, Draper, of Keady, near Gainsboro', dated March 1st, 1853.
To Professor Holloway.
Sir—Some time since, one of my children children was afflicted with dreadful eruptions over the body and limbs. I obtained the advice of several eminent Surgeons and Physicians, by all of whom the case was considered hopeless. At length I tried your Ointment and Pills, and without exaggeration the effect was miraculous, for by persevering in use, all the eruptions quickly disappeared and the child was restored to perfect health.

I previously lost a child from a similar complaint and I firmly believe had I in her case adopted your medicines she would have been saved also. I shall be happy to testify the truth of this to any enquirer.

(Signed) J. HIRD, Draper.

ANOTHER SURPRISING CURE OF A ULCERATED BAD LEG, DEBILITY AND GENERAL ILL HEALTH.

Copy of a letter from Mr. J. M. Clennell, of Newcastle-on-Tyne, dated September 20th 1852.
To Professor Holloway.

Dear Sir—I am authorised by Mrs. Gibbon of 31, Bailey Street, in this town, to inform you that for a considerable period she had been a sufferer from debility, and general ill health, accompanied with a disordered stomach, and great derangement of the system. In addition to this she was severely afflicted with ulcerated wounds, or running sores, in both legs, so that she was totally incapable of doing her usual work. In this distressing condition she adopted the use of your Pills and Ointment, and she states, that in a wonderful short time, they effected a perfect cure of her legs and restored her constitution to health and strength; and that she is now able to walk about with ease and comfort. Several other persons in this neighbourhood have also received extraordinary benefit from the use of your invaluable medicines.

I remain, Dear Sir, yours faithfully,
(Signed) JOHN MORRISON CLENNELL

CERTAIN REMEDY FOR SCORBUTIC HUMOURS—AND AN ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE.

Copy of a Letter from Messrs Walker and Co, Chemists Bath.
To Professor Holloway.

Dear Sir—Among the numerous cures effected by the use of your valuable medicines in this neighbourhood, we may mention that of an old lady living in the Village of Preston about five miles from this city. She had ulcerated in her leg for many years, and lately they increased to such an alarming extent, as to defy all the usual remedies; her health rapidly giving way under the suffering she endured. In this distressing condition she had recourse to your Ointment and Pills, and by the assistance of her friends was enabled to persevere in their use, until she received a perfect cure. We have ourselves been greatly astonished at the effect upon so old a person she being about seventy years of age. We shall be happy to satisfy any enquiries as to the authenticity of this really wonderful case, either personally or by letter. We remain, dear Sir,

Yours faithfully,

WALKER & CO.

The Pill should be used conjointly with the Ointment in most of the following cases:
Bad Legs Chilblains Fistulas
Bad Breasts Chapped hands Gout
Burns Corns, soft Glauclular Swellings
Bunions Carcers Lumbago
Bite of Mosquitoes Contracted and stiff joints
Sand flies Elephantiasis Rheumatism
Cobweb Sore throats Scalds
Chicago-foot Skin Diseases sore nipples
Scurvy Sore heads Tumours
Ulcers Wounds Yaws

N. B. Directions for the guidance of Patients are directed to each Box and Pot. JOHN BEGNALL.

Newcastle, 22nd October, 1852.

Azor's Turkish Balm.

THE ONLY CERTAIN REMEDY FOR BALDNESS AND FOR PREVENTING AND STOPPING THE FALLING OUT OF THE HAIR.

As a Toilet Article, for Beautifying and keeping the Hair Soft, Glossy, and in a Healthy Condition, it is unequalled. Its positive qualities are as follows:

1st—It frees the head from dandruff, strengthens the roots, imparts health and vigour to the circulation, and prevents the hair changing colour or getting gray.

2d—It causes the hair to curl beautifully when done up in it over night.

This Balm is made from the original receipt procured from the original Turkish Hakim (physician) of Constantinople, where it is never really used. The Turks have always been celebrated for their wonderful skill in compounding the richest perfumes and all other toilet articles. In Turkey the aromatic herbs, &c., of which this Balm is composed, are almost universally known and used for the hair. Hence a case of baldness is not head of hair is entirely unknown in that country. We wish but one trial to be made of it; that will do more to convince you of its virtues than all the advertisements that can be published, and that all may be able to test its virtues, it is put up in Large Bottles at the low price of 50 cents per bottle.

Remember the genuine has the signature of Comstock & Brother on the splendid wrapper. TO OWNERS OF AND DEALERS IN HORSES.

CARLTON'S FOUNDER OINTMENT.

For the cure of Founder, Split Hoof, Hoof-bound Horses, and Contracted and Feverish Feet, Wounds, Bruises in the Flesh, Galled Backs, Cracked Heels, Scratches, Cuts, Kicks, &c. on horses.

CARLTON'S RING BONE CURE.

For the cure of Ring-Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE.

The change of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Bots, &c. All of which will be prevented by giving one of these powders, and will at any time cure when any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever from the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretive glands, and therefore they have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or produced by a bad state of the blood, are speedily cured by them. CAUTION—Remember and ask for CARLTON'S CONDITION POWDERS, and take no other.

CARLTON'S articles for Horses and cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety-nine cases out of one hundred any of the above complaints. They have been used by Farmers, Veterinary men, stage proprietors and others with the most marked and decided success.

CAUTION—None can be genuine, unless you find the name of J. Carlton Comstock on the Wrapper of each article. Remember this, as their articles have been extensively counterfeited of late, look and find the proprietors name, J. Carlton Comstock, &c., never buy without.

CAUTION—All the above named articles are sold only by Comstock & Brother, 2 St. Peter's Place, directly in rear of the Astor House, between Barclay and Vesey sts., one door from Barclay and one block from Broadway, New York, to whom all orders must be directed, also only by Wm. Forbes and Wm. Muirhead, Chatham. Wm. Masson & Co, George Watt, and M. Sargeant, Newcastle. Park & Alexander, Douglass, and by Agents in every town in New Brunswick.

Old Rheumatic Affections

CAN BE CURED BY THE

CRAMP AND PAIN KILLER.

Dea. Henry Hunt was cured of NEURALGIA or SCIATIC RHEUMATISM, after having been under the care of a physician six months. The Cramp and Pain Killer was the first thing that relieved him any relief.

David Barker was cured of a RHEUMATIC PAIN IN THE KNEE, after three or four days and nights of intense suffering, by one bottle of the Cramp and Pain Killer.

T. H. Canuar—suffering from Cramp in the Limbs, the cords of his legs knotting up in large bunches, was cured by the Cramp and Pain Killer, at another time a few applications entirely cured him of an exceedingly bad Rheumatic Affection in the Back.

A young lady, fifteen years of age, daughter of John W. Sherwood, was long afflicted with SPINAL COMPLAINT, after being reduced to the verge of the grave, was cured by the Cramp and Pain Killer.

John Buckman, after having suffered everything but death from Rheumatism, which seemed to pervade almost every part of the body, was cured by the Cramp and Pain Killer.

Mrs. Davis was cured by it of Bilious Cholera, a man in Portland was cured by it of Bilious Cholera when his life was well nigh despaired of. Hand axes have been relieved by it of tooth aches, &c. in the face, &c.

MRS. WINSTON.

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP.

FOR CHILDREN TEETHING.

For the Nervous Affections, Convulsions, Fever, inflammation of the Bowels, &c., that attend this period of children, she recommends it as sure to produce the desired effect, giving Rest to the Mother, and Relief and Health to the Infant. A child on Congress Street was cured by the Soothing Syrup, of Involuntary Dysentery or Diarrhoea, after being given over by the attending Physician.

Mr. Blackman, of Edlington says, it has never failed to Cure the Dysentery or Diarrhoea in children whenever used in the village.—Lots of it is sold.

One parent informs me his child had suffered to an alarming extent with Flatulency or Wind Cholera. Lately they have used the Soothing Syrup, and it always effects a speedy cure. Hundreds of like instances might be enumerated in every town where it has been sold. Mothers try it.

ALSO FOR SALE, THOSE PURE

Wild Cherry Bitters.

For the cure of Bilious and Jaundice complaints and general debility. They quicken the blood and give new life and energy to the whole system. Price only 37½ cents in Pint Bottles.

BOYD & PAUL, No. 40, Cortlandt Street, New York, wholesale agents for the above medicines.
For sale by W. Forbes and W. A. Letson, Chatham. Park & Alexander, Douglass, Wm. Sargeant, Newcastle. John McKenna, J. E. Obrien, and G. & A. Smith, Bathurst, and by Agents in almost every town in New Brunswick.

Chatham, 2nd July, 1853.

ADVERTISEMENT.

Mr. Pierce,
Sir—I is very natural that Mr. Hutchison, after adopting the extraordinary measures which he did, upon the death of the late Mr. W. Letson, without a pressing necessity, and without the shadow of law or usage, is very natural that he should seek to justify himself in the eyes of the public. With this view, I suppose, he caused to be published in the last Gleaner, an extract of a letter alleged to have been received by him from Scotland. I will thank you Sir, to publish also the following extract of a letter received by me, per the last British mail.

WILLIAM SMITH.

Newcastle, July 26, 1853.

Solway Bank, 28th June, 1853.

My Dear Sir,
I received your letter of the 4th June, and having lost no time in making necessary inquiries relating to the Wishes of a deceased friend, I am happy to inform you that I have ascertained that William Letson, at the time of his death, was married, and has a family. Bettie W. Letson is married to one William Smith, and lives at Bayre Burnfoot, Canobie, and has likewise a family, this William Smith desired me to write to you to say, that he hoped that you would see justice shown to all parties concerned in the matter. Yours truly

THOMAS KERR.
