

HEALTH OF HALIFAX.

It has been currently reported that the Cholera has made its appearance in Halifax. We see no mention made of this in the papers. From the latest Novascotian received, we clip the annexed paragraph.

"We can easily understand the cause of the excitement in our community, for no doubt there are many who still remember the havoc this awful scourge made, when it visited our city in 1834, and at the same time, the dreadful accounts received from time to time, during the past summer, of its mortality in some of the West India Islands. We have, however, much pleasure in assuring the inhabitants of this city, that every precaution has been taken both by the Civil Authorities and the Executive of the Province, to guard against a visitation of the epidemic. For weeks past there have been frequent meetings of the Board of Health, additional Health Inspectors have been appointed, the sewers have been washed with water from the tanks and lime placed in them; and in fact, we think the city at present, as regards general cleanliness, will bear comparison with any other."

TRADE OF ST. JOHN.

The Courier furnishes the following report of the value of the Goods for the last half year, imported into this port.

"Last week we published the value of Dry Goods and Haberdashery imported into this port from Great Britain during the half year ending the 5th July last, and we are now enabled to lay before our readers the total value in sterling, of all goods imported into this port from every country, during the same period, which is as follows, viz:—£881,765. This shows a great increase over the value of the imports of the corresponding half year of 1853, which was £613,631. The increase amounts to £268,134 sterling."

FREDERICTON MAIL.

The papers received from this city this morning, make no mention of Cholera being there.—The Montreal Herald, in announcing the cessation of Cholera in that City, makes the total number of deaths since the beginning of the epidemic, to have been 1,174.

ENTERTAINMENT.—Mr J. Flannery has given two Entertainments in the Hall of the Sons of Temperance, to highly amused and crowded houses. His feats of Legerdemain are really clever, and his Ventriloquism was a treat, the like of which we have not had for some time.

AT QUARANTINE.—Bark Uba, from Savannah. The Health Officer reports cases of Dysentery on board.

BY TELEGRAPH.—Deaths in city of St. John, yesterday—none; Portland 3. To day, City 4; Portland not heard from.

There appears to be no doubt that Sir Edmund Head is to succeed Lord Elgin as Governor General of Canada.
