portions of the Province, and laying out to the names, descriptions, &c., of any of some of the best land and most eligible sites them." for settlement; or in sending a competent individual to lecture throughout Britain and Ireland, to make the people there better acquainted than they are at present, with the resources, extent, and the fine field this Province presents for Emigration. We hope the Coun oil will put its veto on the Grant.

The Journals contain a most admirable Despatch from the Lieutenant Governor to the Earl of Neweastle, relative to the present defective system of the Government, and the mode in which the Legislature prosecutes its functions. We have not room for it to-day. but shall publish it next week. We refer our readers to our Correspondent's Letter for a brief summary of the proceedings of the

EUROPEAN NEWS.

WE have encroached on the Literary portion of our sheet to make room for the highly important intelligence received by the papers by the last English mail steamer at Halifax. Under our Telegraph head will be found some later information received by way of New York. Every day the news is becoming more interesting. The time cannot be distant when the Allied forces will meet the Russians, then will commence "the tug of war." May God protect the right. Tuesday next is appointed as a General Fast throughout France, Great Britain, and Ireland. We hope the Governors throughout the British North American Colonies, will issue Proclamations requiring that day to be similarly observed in this portion of Her Majesty's dominions.

CANADA TIMBER TRADE.

WE copy the annexed interesting article. relative to the prospects of the Lumber Trade in Canada for the present year, from a late Quebec paper:

Quebec paper:

A Kingston correspondent of the Oswego Times and Journal who states that he has long been engaged in the business and derives all his facts either from personal observation or the most reliable authority, estimates the produce of sawed lumber that will be produced this year as follows:—From the northeastern portions of Michican, 100,000,000 feet, of which he thinks twenty millions of feet will be sent to tide water markets. Canada West will not produce the average supplies, partly on account of the foolish restrictions the Custom House authorities impose on this trade, partly from the deficiency of snow this winter which prevented the millers from getting in their full supply of logs, and partly from the money advances by the merchants to the lumberers not having been so liberal as formerly. He thinks that not over 75,006 000 feet will be made from the Canada side of Lake Erie, including the Grand River districts, and the neighbourhood of the Welland Canal, and of this only from trenty-five to thirty millions will be ferwarded to the North River. From the head of Lake Ontario and down the Lake to the head waters of the Bay of Quinte, twenty millions. From the Bay of Quinte twenty to thirty millions and from near Kingston ten millions.

This aggregate quantity if very considerably less than that furnished last year, and taking into account with this, the increased value of timber Iands, the high rates of freight and the prospect of war in Europe, he concludes that the proce of lumber for 1854 will be more than maintained.

SUPPORT TO SCHOOLS.

THE feeling that the Provincial allowance to Teachers is far below what it should be. has been growing every year, and in this County has engaged the serious attention of the people, more particularly those living in the rural districts. Last week a very extensively signed Petition was sent to the Legislature, praying that the present allowance be augmented 50 per cent., and expressing fears that if something be not done to increase the Teachers pay, that the rising generation will be destitute of the means of instruction. We have always advocated direct taxation as the best means to support our schools, but we are fearful, while the present high tariff remains on our statute book, this cannot be accomon our statute book, this cannot be accomplished. We should like the one per cent loan duty appropriated to this object, as the weak of the should be accomplished. We should like the one per cent morning. She sailed with 309 passengers, 35 died of cholera, and diarrhoe, 5 remains debt has been paid off. We hope the subject will receive from the Legislature the attention its importance demands.

ABANDONED SHIPS.

THE Cape Breton News says :-- " By Letter from Cape North, received during the early part of the week, information has been received of seven or eight vessels being enclosed North. Several of those Vessels have been boarded by parties from the shore, who re-'ve crews. We are without any particulars as they were landed.

THE SEASON.

THE Spring approaches but slowly. Our streets are now almost bare of snow, but the ice on the river continues firm, and the sleighing thereon is safe and good.

BOWSER'S HOTEL.

ARRIVALS DURING THE PAST WEEK.

April 13—Robert Nixon, Caraquet; Alexander Dickie. Restigouche.

CHOLERA AT ST. JOHN QUARANTINE.

in a weak state, having recovered from cholera. Vessel in Quarantine; Passengers to be landed on Partridge Island.

St. John, April 22.

The passengers were landed on the Island and 11 cases are now under the care of Dr. Harding, who reports that the patients are doing well. There is ample accommodation on the Island, and there is little apprehension entertained of the disease spreading. The in ice, some miles off from Aspy Bay, Cape vessel is still detained at the quarantine station. The ravages of the disease were confined chiefly to the Norwegian and German passengers, of whom there are a large numported them to be abandoned by their respect-

en the old Napan Road, adjoining the Land owned by Mr Cileb NaCalley. Grathering 2 Abras. WM.LETSON, Auctioneer. Chatham 20th April, 1854

Superior Farm at Bathurst, FOR SALE.

To be Sold at Public Auction, on THURSDAY, the 6th day of July, at the Court House, Bathurst.

That Valuable Farm,

That Valuable Farm,
owned, and formerly occupied by John Fraser, Esq.,
adjoining the Farm of Francis Ferguson, Esq., in
the immediate neighbourhood of the Village of Bathurst. The Land is estimated to contain 185 aeres,
54 aeres of which are under grass and fit for the
rlough, the remainder well wooded with Birch,
Cedar, Spruce, &c. It fronts on the Harbourof Bathurst, and the great road from Halifax to Restigouche intersee's it. There is a comfortable
DWELLING HOUSE, on the Premises, besides
Barns and Out Houses. Its close proximity to the
Village and to the Mercanile Establishments of
Bathurst, renders it available for pasture and
other useful purposes, and on the whole it is well
fitted for a purchaser who is desirous of settling on
a well cleared Farm, near a Market

If not sold in one Lot, it will be set up in Lots to
suit purchasers.
