

## The Renowned Remedy,

## HOLLOWAY'S OINTMENT.

A MOST ASTONISHING CURE OF SCROFULOUS ULCERS. A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

To PROFESSOR HOLLOWAY,

Dear Sir,—Mrs SARAH DIXON of Lignorpond Street, has this day deposited before me that for a considerable period she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body: and although the first medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicine for a short time longer, according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the best of health.

I remain, Dear Sir, yours truly

AN EXTRAORDINARY AND RAPID CURE OF ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAD FAILED.

Copy of a Letter from Mrs Elizabeth Yeates, of the Post Office, Aldwick Road, near Bognor, Sussex, Dated January 12th 1853.

To PROFESSOR HOLLOWAY,

Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg and restored me to the enjoyment of perfect health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighbourhood similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful servant,

A DREADFUL DISEASED ANGLE CURED AFTER BEING GIVEN UP BY THE FACULTY AT MALTA AND PORTSMOUTH HOSPITALS.

The following important communication has been forwarded to Professor Holloway for publication, by Mr B Dixon, Chemist, King Street, Norwich.

Copy of a Letter from Captain Smith, of Great Yarmouth, dated January 19, 1853.

To Mr Dixon,

Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's invaluable medicines.—Mr JOHN WALTON, late in Her Majesty's Service, in the British fleet at Malta, had a very bad ulcerated angle, and after having been in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months, there, as at Malta, refusing to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months, but his angle became so much worse that all hope was lost. At this period, by my advice, he tried Holloway's Ointment and Pills, which by unremitted application, healed all the ulcers, and restored him to perfect health and strength.

I remain, Dear Sir, yours very truly,

SURPRISING CURE OF A BAD BREAST. NERVOUS DEBILITY, AND GENERAL ILL HEALTH.

Copy of a Letter from Mr T. F. Ker, Chemist, &c., Lower M ss-lane, Manchester, dated Feb. 12, 1853.

To PROFESSOR HOLLOWAY,

Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad breast, effected solely by the use of your celebrated Ointment and Pills. Mrs MARTHA BELL, of Pitt Street, in this Town, had been for a considerable time labouring under nervous debility, loss of appetite, and general ill health, occasioned by ulcerated wounds in the breast. She had had much experience in the use of all the known remedies for the cure of ulcers, but without any beneficial result, in fact she had nearly lost all faith and hope of a cure being effected. In this distressing and painful condition of body and mind, she was persuaded to have recourse to your invaluable Ointment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonishing; her appetite was speedily improved, the sores and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed. I remain, Dear Sir, yours faithfully,

(Signed)

## Oriental Turkish Wine.

The great remedy for General Debility, Weakness, Loss of Appetite, Dyspepsia, Billious Diseases, a certain preventive of Fevers, &c., &c. This WINE is the most pleasant and effectual Remedy for any of the above complaints, and for many others not mentioned, that has ever discovered. It is so agreeable to the taste that any one taking it soon prefers it to any Wine; while its action on the stomach and bowels is prompt and efficient, cleansing them thoroughly, and thus, by keeping the organ in which the basis of the blood is formed, in a healthy and pure state, necessarily keeps the blood pure and healthful. It is a stimulant without reaction, unlike the alcoholic preparations, which leave the patient in a state of prostration. THIS WINE sends a gentle and agreeable feeling through every nerve, and its tonic properties are such that it will restore the weak and debilitated to their natural STRENGTH and VIGOR. It is composed of the Pure Wine of many of the most tonic and rare Plants in the Materia Medica, the recipe for which was obtained from a celebrated Turkish "Hakim,"—Physician,—and one bottle is equal to ten of any Sarsaparilla or Blood Purifier ever before known. Then give this Oriental Wine a trial: it will speak for itself better than any recommendation or certificate; and he who tries it once will never be without it, in thing can equal it as a Diet Drink in hot climates, or on Shipboard, and no traveller should be without it.

Caution.—Find the name of Comstock & Brother, and the Stamp of the Turkish Flag, on the label and cork of each bottle, WITHOUT this it cannot be genuine.

## Positive Proof—Sceptics Read

HAMPDEN, Feb. 24, 1846.

Messrs. J. Curtis, Jr. & Co.—Gentlemen, I have a word to say to you, in favor of HUNTER'S COUGH SYRUP. I have the last year used in my practice two dozen bottles of it which I had of you, and every bottle has done good. For eight years past I have been in the practice of medicine, and I have never found anything so well calculated to operate so favorably in all diseases of the lungs as that is. I have known a hard distressing cough, cured in forty-eight hours, by using (in Broken doses) one bottle of it. One case here in particular, of a man who was supposed to have a seated consumption, troubled with a hard, distressing cough. I let him have one bottle, and he had two more of your agent, Mr Whitmore. After using the three Bottles, he has become well, and now labours every day. He told me lately, that Hunter's Cough Syrup was the means and only means of his cure. I have given it to infants, to children, to adults and have the pleasure to inform you that it has done good in every case.

You need not hesitate to recommend it for a cough, and also all diseases of the lungs. I shall do all in my power to recommend it in the cases above named, not wholly for your benefit, but for the benefit of suffering humanity.

Yours truly,

BENJAMIN L. POMROY.

## Philosophy of Marriage and the Secret Infirmities of Youth and Maturity.

WITH FIFTY COLOURED ENGRAVINGS ON STEEL. In a Sealed Envelope, price 2s. 6d., sterling.

SELF-PRESERVATION: an Analytical Investigation of the Physiology and Functions of Marriage, in all the bearings in which the important subject affects the health and happiness of man, with its various qualifications, and immoderate, tracing their origin to the effects of juvenile solitary habits, youthful excess, tropical climates, or close study; followed by practical remarks, founded on twenty years experience in the treatment of impotence, nervous debility, local weakness, spermatorrhoea, syphilis, and all diseases of the urinary and generative system. Illustrated by Fifty Coloured Engravings on the anatomy of the reproductive organs and their relative conditions in health and disease. By SAMUEL LA MERT, M. D., No. 37, Bedford-square, London. Doctor of Medicine, Articled Member of the University of Edinburgh, Honorary Member of the London Hospital Medical Society, Licentiate of Apothecaries' Hall, London, &c.

The essential object of this treatise is to point out the fatal consequences resulting from certain habits, irregularities, and excesses, which have produced more misery in youth, degradation in manhood, and premature decay at all stages of life, then perhaps, any other class of diseases known to modern pathologists. Its perusal is particularly recommended to persons entertaining secret doubts of their physical condition, and who are conscious of having hazarded the health, happiness and privileges to which every human being is entitled. The contents embrace the origin, effects, prevention and treatment of the deplorable catalogue of maladies connected with nervous debility, exhaustion of the vital energies, prostration of mental and physical capacity, local and general weakness, acute and chronic spermatorrhoea, and their endless modifications. The treatment adopted is founded on experience gained in the most celebrated schools of medicine, and by the most eminent practitioners, both in Great Britain and Continental Europe. Every peculiarity relating to physiology, pathology, and general treatment of the diseases incidental to the generative system is clearly explained, and the means of immediate relief and ultimate cure described in detail. The professional reputation of Dr. La Mert, who has taken the most distinguished medical and academic honours, at home and abroad, is in itself a sufficient guarantee that those who may place themselves under his care will, in every instance, meet with that delicate consideration and inviolable secrecy which are so requisite in the treatment of these cases.

CAUTION.—In consequence of the extensive sale of this work, which has now attained its sixteenth edition, several spurious and imperfect copies are in circulation.
