The Renowned Remedy

HOLLOWAY'S OINTMENT

MOST ASTONISHING CURE OF SCROFULOUS ULCERS, A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Mayor of Rosten, Lincolashire.

Pre Opersor Holloway,
Dear Sir,—Mrs Sarah Dixon of Liquorpond Street, has this day deposed before me that for a considerable period she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body: and although the first medical advice was obtained, at the cost of a large sum of money, she obtained no abstement of suffering but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicine for a short time longer, according to the lifet, &c., she was perfectly oured, and now enjoys best of health.

I remain, Dear Sir, yours traly.

I remain, Dear Sir, yours truly.

AN EXTRAORDINARY AND RAPID CURE OF ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAD

Copy of a Letter from Mrs Elizabeth Yeates, of the Post Office, Aldwick Road, near Boggor, Sussex, Dated January 12th 1853.

Dated January 12th 1853.

To Professor Holloway,
Sir,—I suffered for a considerable period from a
severe attack of Erysipelas, which at length settled
in my leg, and resisted all medical treatment. My
sufferings were very great, and I quite despaired of
any permanent amendment, when I was advised to
have recourse to your Ointment and Pills. I did so
without delay, and an happy to say the result
was eminently succe sful, for they effected a radical
eure of my leg and restored me to the enjoyment of
perfect health. I shall ever speak with the utmost
confidence of your medicines, and have recommended
them tolothers in this neighbourhood similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful Servant,
(Signed) ELIZABETH YEATES.

DREADFUL DISEASED ANGLE CURED AFTER BEING GIVEN UP BY THE FACULTY AT MALTA AND PORTSMOUTH HOSPITALS.

AND PORTSMOUTH HOSPITALS.

The following important communication has been forwarded to Professor Holloway for publication, by Mr B Dixon, Chemist, King Street, Norwich, Copy of a Letter from Captain Smith, of Great Yarmouth, dated Jaauary 19, 1853.

To Mr Dixon,

Dear Sir,—I send you the particulars of a cire effected by Professor Holloway's invaluable medicines:—Mr Jchn Walton, late in Her Majesty's Service, in the British fiset at Malta, had a very bad ulcerated ands, and after having been in the Mal'a Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months, there, as at Malta, refusing to have the limb amputated, he was turned out incurable. He then came to Varmouth, and was under a medical gentleman for about three months, but his ancle became so much worse that all hope was lost. At this period, by my advice, he tried Holloway's Cintment and Pills, which by unremitted application, healed all the ulcers, and restored him to perfect health and strength.

I remain, Dear Sir, yours very truly, (Signed)

SURPRISING CURE OF A BAD

SURPRISING CURE OF A BAD BREAST, NERVOUS DEBILITY, AND GENERAL ILL HEALTH.

Copy of a Letter from Mr T. F. Ker, Chemist, &c. Lower Moss-lane, Manchester, dated Feb. 12, 1852 To Propressor Holloway,
Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinery cure of a bad breast, effected solely by the use of your celebrated Ointmeat and Pills. Mrs Markha Brl... of Pitt Street, in this Town, had been for a considerable time labouring under nervous debility, loss of appetite, and general ill health, occasioned by ulcerated wounds in the breast. She had had muc experience in he use of all the known remedies for the cure of ulcers, but without any beneficial result, in fact she had nearly lost all faith and hope of a cure cure of ulcers, but without any beneficial result, in fact she had nearly lost all faith and hope of a cure being effected. In this distressing and painful condition of body and mind, she was persuaded to have recourse to your invaluable Olatment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonshing; her appetite was speedily improved, the pores and ulcers in the broast gradually healed, and the nearous excitement of her system was wholly the nervous excitement of her system was wholly removed. can be and has been prevented in thousands of ca-es by this nature's own remedy.

JUDSONS CHEMICAL EXTRACT OF CHERRY AND LUNGWORTH. This medicine unlike most of the patent remedies of the day is the result of the careful study and experiments of a scientific and experienced Physician. The two principal ingredients have long been known and celebrated.

WILD CHERRY BARK.

When the strength of this is properly extracted it is the best medicine known for caring the worst Coughs and other Pulminary diseases, i lossess the chlegm, and enables the sufferer to expectorate easily, and alone will cure the worst cold or cough which if neglected always lead to Consumption.

LUNGWORTH.

This is a plant the virtues of which are known to but few, it has been said by the most learned men of all times. "that nature has provided a remedy for each and every disease," and the discoveries that are daily made, go to prove its truth. Lungworth is doubtless the remedy designed by nature for the summer ton.

Consumption.

These two articles combined with other purely vegetable ingredients, form a medicine that is certain to cure the worst cases of Consumption if taken before the sufferer is entirely prostrated. Do not be discouraged, a trial can do no harm, but will convince the most sceptical of its real worth.

THOUSANDS OF CONSUMPTIVE

parsons have been deceived repeatedly in buying madicines which were said to be infallible cures, but which have proved only palliatives, but this medicine is not only palliative but a cure for alcerated lungs. It contains no deliterious Drugs, and one trial will prove its astonishing efficacy better than any assertions or cert firstes in curing consumption and all diseases of the Lungs and Liver, such as spitting of blood, coughs, pain in the side and chest, night sweats, &c., &c.

Messrs. J. Curtis, Jr. & Co .- Gentlemen,

Hesses. J. Curtis, Jr. & Co.—Gentlemen,

I have a word to say to you, in favor of Hunter's Cough Tirkup. I have the last year used in my ara tice two dozen bottles of it which I had of you, and every bottle has done good. For eight years past I have been in the practice of medicine, and I have never found anything so well calculated to operate so favouribly in all diseases of the lungs as that is. I have known a hard, distressing cough cared in ferty-eight heurs, by using (in Broken doses) one bottle of it. One case here in particular, of a man who was supposed to have a seated consumption, troubled with a hard, distressing cough. I let him hav one bottle, and he had two more of your agent, Mr. Whitmore. After using the three Bottles, he has became well, and now labours every day. He told me lately, that Hunter's Cough Syrun was the means and only means of his cure. I have given it to infants, to children, to adults and have the pleasure to inform you that it has done good in every dase.

every case.

You need not hesitate to recommend it for a cough, and also all diseases of the langs. I shall do all in my power to recommend it in the cases above named, not wholly for your benefit, but for the benefit of suffering humanity.

BROCKLYN N. Y., Dec. 20. 1853.

For about eight years I have been severely afflicted with the Astuma; for the last two years I have suffered beyond all my powers of description; anonths at a time I have not been able to sleep is a bed, gotting what rest I could sitting in my chair. My diffice ty of breathing and my sufferings, were not set times, that for hours to ether my friend expected at times, that for hours to ether my friend expected acach hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief, at length had the good fortune to procure Dr Curtis's Hygeana or labaling Hygean Vapor and Cherry Strup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffecating for want of breath. In less than ten minutes from the time I applied the Ishaler to my stomach, and took a teaspoonful of the Cherry Syrup I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering to the suffering is,—TRY IT.

New York. Dec. 27th, 1853.

I came to New York in the ship Telegraph; my native place is St. John, New Brunswick; when I reached this city, my health was very poor; had a very bad cough, rai ed a good deal of matter, which was frequently mixed with blood; bad pain in my left side, and was very weak and emaciated. My left side, and was very weak and emaciated. My left side, and was very weak and emaciated. My left side, and was very weak and emaciated. My left side, and was very weak and emaciated. I accidently heard off Dr. Cur is's Hygrana, or Inhaling Hygran Vaper and C erry Syrup, and obtained a package, which i verily helieve was the means of saving my life. Soch after wearing the Inhaler, I found it relieved the pressure on my lungs, and after a while the disease made it's appearance upon the surface under the inhaler. I took the Cherry Syrup as directed, and communed to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured. I still wear the laheler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it.
