con inus on filendly terms with the English follows: For this service £18,500 was recommend- into operation on the 1st March, 1856. Progress The Secret Infirmities of Youth He was not a chief of much note or influence. We have not heard the cause of his death .-

We beleive that the British authorities have no fault to find with him. It is supposed by the Kaffirs that he has diel from the effacts of poison administered to him by his countrymen, in consequence of the accurate information which he gave to the anthorities during hast war. His son who succeeds him is a lad. - Cape Frontier Times.

The expectations of an immediate outburst have quite subsided, though mistrust of its being a permanent state of peace is the unanimous opinion of all-who have been frightened. We forbear to offer an opinion on the subject ; we would rather direct attention to the necessity of doing something towards improving the condition of our Kaffir brethren, and not leave them to grumble and brood over loss of territory and the dimunition of power. Here, depend upon it, has been one great error in our price) : we have punished them for indulgence in their predatory propensities as they richly deserved-but as a nation or a colony, we have been content to push them further from us each time, and there to leave them. There has been no systematic attempt at improving the Kaffirs, or endeavour to raise them to the standard of a civilised, not to say of a christian people. It is true the efforts of private bodies have been most meritorious in insolated situations and single handed operations amongst them, but these have not only wanted order and the sanction of au-thority, but have been neglected, and are viewed with jealousy by government. We do not mean to say that government must undertake missionary operations as it would bridge or road-making; but it must see that duty is faithfully and efficiently carried on by entrusting it to those who have the power and the will to undertke it. - Anglo Afri-Ban.

Washington, March 26 .- Our Gulf Squa-dron is to be immediately augmented, and if any Spanish vessel hereafter overhauls and fires into an American vessel, she will be

promptly chastised. New Orleans, March 26.—Burning of Steamers and Destruction of Life and Property.-The steamer Hunterville had been burnt wity 4000 hales of cotton; but we have no particulars.

The steamer Bulletin was destroyed by fire, Saturday, below Lake Providence, with 3500 bales of cotton.

Twenty three of her passengers and crew are lost and missing—among them J. B. Wil-liams, of New York. The lady presengers and, officers were all saved. The boat was a total loss. Insured for \$20,000. The Know Natbings carried the Charter Election in New Orleans, to-day, by trium-phast moionities

phant majorities.

NOVA SCOTIA.

Arrival of Recruits .- The bark America, arrived from Boston on Friday morning, with the first instalment of troops for the Foreign Legion, amounting to seventy, most of whom are Hungarians and Germans. They were landed at the Queen's wharf, and marched up to the Military hospital, followed by an immense throng of citizens, who were anxious to have a peep at them. They underwent an examination and two only were rejected. If their fate depended upon the judgment of the crowd, we are inclined to think a majority of them would have been sashiered. They are considered a fair sam-ple of recruits, and will soon tearn the "right about face." They are comfortably quartered at Melvin Island, care baving been taken to make them contented. The other instal-ments are expected daily. Erother Jonothan is making a great fuss about this Foreign Legion, and issuing all kinds of proclamations to proceen the abin

kinds of proclamations, to prevent the ship-ping of recruits, &c, threatening to arrest partics engaged. He is a very smart fellow, but bluenese is sometimes too smart for him. They would like to lay hands on Mr Howe, but he is so slippery they can't catch him. Upwards of 5.000 have been engaged -the number required will be 10,000 menof whom 5.000 will be sent to Canada; 2,000 to New Brunswick, and 3,000 to Nova Scotia There will be no difficulty in raising this of the case, and contended that to exclude members of the Assembly from holding these subordinate of-fices would be a direct and wijnstifiable interforence with the elective franchise. Mr Gray then moved for a re-consideration of the third section, in order that he might movy the insertion of the following addition thereto number. Torthe protection of persons instring them. Frederioton, March 29. Terderioton, March 29. Testerday at an early hour the House went into Committe of the whole in the Bill for the stabilish mean of a Board of Works. A long debste ensued mean of a Board of Works. A long debste ensued nearly every Hon member admitting that the prin-ipal of the Sill were good, and that there was an of Works, differing considerably as to the details. In reply to the question why the Bill provided the weatries of covernment, the hon. Attorney General sta-ted that it was intended to make the office of Post-mater General political, and that officer would have to travel over all parts of the Fouries, it struck him that it would be a very judicious course to com-neral with the Superintendeur of the Board of Works, and thus form the Board. The hon. Surveyor Gen-eral stated that there must be a Civil Engineer at-ted that the superintendeur of the Board of Works, and thus form the Board. The hon. Surveyor Gen-eral stated that there must be a Civil Engineer at-ted that the Superintendeur of the Board of Works, and thus form the Board. The hon. Surveyor Gen-eral stated that there must be a Civil Engineer at-ted that situation. Some hon, members complained the there was nothing in the Bill saying whether of Assembly, or whether he shall be a members of the Legislative Council. To this the hon members of Assembly, or whether he shall be a member of the dovernment replied that such a provision would be highly improper, and monestitutional; and that emergencies might arise when the Government of the Bay would the salary of the blact division. The Horse is getting through with Supply but slowly. This was the last day on which motions out the placed on the anyly book; there are about 120 grants to be got through with, which will probably corely the House a fortnight. Besides this isbour before them they have several important measures the deal with. The college question is one of the network they have beered in property — Mr Grey has two very important bills before the House, one of the other for the is nother warm debate upon the bill to enable the orporation of St. Jonn to sell cortain property — Mr Grey has two very important bills before the House, one of them to abolish imprisonment for the t, and the other for the hadit efficient office to be created, and probably a discussion to take place upon the Audit effice, so that there is planty of work abead.
The sevening the hem. Attorney General, in reply to a question put, sid the Government were preared to make the Postmaster General a political file, if the house should as rays utile the head to report a such the other for the Audit effice, if the house the Postmaster General a political file, if the house the Postmaster General a political file, if the house the read a raso ution, which he is don the table and expects to move, affirming the ordination.

London, &c., &c. The essential object of this treatise is to point est the fearful consequences resaling from certain babits, irregularities and crosses, which have pro-duced more misery in Youth, degredation in Man-hood, and premature decay st all stages of Lure, than, perhaps, any other class or disease knows for modern philosophers. Its perusal is particularly recommended to persons entertaining scoret doubles of their physical condition, and who are conscious of baving hazarded the health, happiness, and pri-vileges to which every human being is entitled. This absolutely necessary that all men should know that there are principles of personal measego-ment which cannot be violated without incurring grievous penalties, and when wisdom and regret how these penalties may be mitigated, how the sting of their bitterness may be removed, and how the evil and its consequences may be avoided, and, above all, that there is scarcely any degree of physi-citation of and store cannot to which the timely ald of science cannot apply a bur.
