Medical Society, Licentiate of Apothecaries' Hal Londen, &c. &c.

The essential object of this treatise is to point out the fearful consequences resulting from certain babits, irregularities and excesses, which have produced more misery in Youth, degrecation in Manhood; and premature decay at all stages of Life, than, perhaps; any other class or disease known to modern philosophers. Its perusal is particularly recommended to persons entertaining secret doubts of their physical condition, and who are conscious of having hezarded the health, happiness, and privileges to which every human being is entitled.

It is absolutely necessary that all men should know that there are principles of personal management which cannot be violated without incurring grievous penalties, and when wisdom and regret, eucceed the beyday of inconsiderate self indulgence, how these penalties may be mitigated, how the sting of their bitterness may be removed, and how the evil and its consequences may be avoided, and, above all, that there is scarcely any degree of physical infirmity or functua, derangement to which then timely aid of science ca'nnot apply a cure.

This work may be had in St. John, N. B., of Messrs. H. Chubb & Co. Price 2s. sterling.
