Position of the Belligerents.—At the date of the last advices from the Crimea, a line of neutral ground had been traced between the allies and the Russian armies, in execution of the armistice.

The health of the English army continued excellent, and, in the previous week, there had been no deaths. There was a strong report of an approaching change in the supreme management of the medical department.

The winter had ceased, and the weather had become very pleasant. The White works at Sébastopol were blown up on the 28th of February.

Russian accounts from the Crimea state that their army is suffering dreadfully from typhus. The recruits and the militia corps were decimated by epidemic diseases.

Other accounts confirm the information previously received of the preparations being made by the Russian government in the event of hostilities being renewed in the spring.

The fleet at Cronstadt has been considerably increased, and the levies of sailors, recently made, have filled up the blanks made by the war at Sébastopol.

The Nightingale at Exter-Hall.—Most noble has been the offering of the Nightingale of Sweden to the holy cause championed by the Christian devotion and womanly enthusiasm of the Nightingale of England.

Of itself, the concert, being chiefly of a sacred character, was most admirably; and most admirably was it rendered.

NOVA SCOTIA.

The Liquor Bill Settled.—The Prohibitory Liquor Bill was again brought forward last evening to receive its quietus.

The Legislature is drawing to a close. The members look tired and home sick.

The Board of trade (Quebec) has petitioned the Provincial Legislature now in session at Toronto, urging the immediate construction of a Light House on Bird Rock.

OF ST. JOHN, NEW BRUNSWICK, SHIP BROKER.

Bags leave to offer his services to the Charterers and Deal Shippers of Miramichi, and would respectfully observe that as, in the natural course of business, Ships and Vessels in the various ports of the United States desire, prior to closing a Charter for the "North Shore," to know from him the going rates of Freight at this and the other Ports in the Bay of Fundy, he is an opportunity of securing Tonnage, and executing orders for such parties as may furnish him with particulars as to required size, &c., on favourable terms as such enquiring Vessels are transmittable to any approved Port in this Province.
