

Head Quarters, after the necessary delay in removing the baggage, proceeded to Indian Town en route for Fredericton. There are four other companies still in Halifax, under orders to proceed here via Windsor, as soon as arrangements can be made for their transit. During their short stay, the excellent band of the regiment enlivened us with some spirited music which made us regret their quick departure. St. John Morning Courier.

**Distressing occurrence off Cape Tormentine, Westmorland.**—During the severe gale of Tuesday, the 1st inst., two lives were lost on their passage from P. E. Island to Cape Tormentine. It appears that a party of young people had crossed from Cape Tormentine to Cape Traverse, in a sailing boat, under the care of Mr Richard Trenholm, son of a respectable inhabitant of the latter place. Among the party was a young woman, the daughter of Mr George Dobson, who crossed merely for the benefit of the sea air. After having landed his passengers, Mr R. Trenholm attempted to return with Miss Dobson, without any other person to assist in the management of the boat. When a few miles from the shore, the wind commenced blowing from the Northwest with great violence, and the anxious spectators observed a heavy sea strike the boat, after which they could not again discover her. Until lately, however, hopes were entertained that she might have weathered the storm and reached some place of refuge; but the length of time that has elapsed has rendered the fate of these unfortunate persons but too probable.

Mr Trenholm had, about a year since, returned from California, and was noted for his bold and daring spirit. After having surmounted all the dangers of that country, and of the voyage, he has met his fate almost within sight of his own door. He was engaged, we hear, to a very respectable young lady in his own neighbourhood, and the wedding was to have taken place in a few days—a circumstance which renders his untimely death still more distressing.—St. John Courier.

NOVA SCOTIA.

**Sayings and doings about Pugwash.**—Our Correspondent writing under date of 7th instant says:—Last week a man was drowned in attempting to get on board a ship from a boat near Pugwash. Since then a Mr Mills, of Goose River, near this place, was accidentally killed by a loaded cart going over his body. Mr M. was an industrious man and a worthy inhabitant. He will be missed in the neighbourhood, and the loss will be very severe to his family. The third disaster occurred at Pugwash, on Monday last, when the town was visited by a violent storm of thunder, lightning, and rain. At about 9 o'clock A. M., the storm increased, the lightning became very vivid, when suddenly the alarm of fire was sounded through the town. It had its origin in a new barn belonging to Hon. H. G. Pineo, and which contained some 30 tons of hay. The building had been struck by the electric fluid, and the whole was speedily consumed. The conflagration was extremely brilliant, and in less than half an hour the barn was completely prostrated. A Mr McDonald, of the Gulf Shore, had an ox killed on the same morning by a shock from the liquid fire. While the foliage from the ornamental trees, and other portions of vegetation in many of the surrounding gardens, bear ample testimony to the ravages produced by the fire of heaven, beans, peas, and other vegetables, as well as many delicate branches from the floradistrict were totally destroyed.

The Sons of Temperance had a glorious day for their Pic Nic on Wednesday last. The Procession marched off from Temperance Hall at 10 o'clock, A. M., and headed by the fine band of the 76th Regt., passed through the principal streets of the city, playing the 'Lass of Gowrie,' &c. A large party embarked at Noble's wharf, soon after, and hid them to the scene of festivities, Schaffer's, head of Bedford Basin. John Shean marshaled the affair, which alone was sufficient to ensure its success. After a pleasant re-union the whole returned to the City at half-past eight o'clock, and marched to the Hall in the same order, the Band playing the popular air of 'Annie Laurie,' and it was not till the hours grew later that the gay party separated.

Our Halifax vessels have lately been making profitable voyages to the different ports in the West Indies. Success to the Merchants.—Nova Scotia.

CANADA.

**Disaster on Lake Ontario—Twelve Lives Lost**—Kingston, C. W., July 18, 1856.—The pro- veller Tinto was burned last night off Nine Mile Point, and is a total wreck. About twelve persons are lost—among them Captain Campbell and a Mr Henderson. The pur- sear and twelve of the crew are saved.

**The Crops in Upper Canada.**—Rarely, if ever, has there been promise of greater plenty than in the appearance of the coming harvest. From all parts of the country, as, indeed, we believe, from the Province generally, we have accounts of the most promising character. The Wheat bids fair, and although in many places it is thin, it will be more than an average crop. The dry, cool, and clear weather which we have had for some days past, must conduce to the maturing of our great staple. Late rains have done much to advance the Spring crops, all of which promise to be abundant. Oats and Bar- ley look particularly well and it is gratifying to notice that, not only potatoes, from their remarkably healthy appearance, give indication of a good yield, but that there has been a large increase in the quantity of land usually plan-

ted with this highly important article of food. The Hay crop will be decidedly over an average. The Clover portion has been already nearly saved, and is in excellent condition, while Timothy is rapidly getting ready, and should fair weather continue a short time more, the entire Hay crop will be stacked and in the mow in good time, when the wheat harvest claim the farmer's care.—Dundas' Warder.

**The Crops in the Eastern Townships.**—One of the Editors of this Journal (Montreal Gazette) who has just returned from a visit to the Eastern Townships, confirms the reports that have already been published in these columns of the very excellent condition of the crops. Hay will be very abundant and good; and one meets with here and there a field in which the scythe has been used already. We believe the same general good report will answer for the French Parishes. These heavy crops will con- duce to the general prosperity of the country.

Although the apprehension of a disturbance at St. Sylvester, on the 12th July, was so great that the Police Force stationed there was reinforced by a strong detachment from Montreal,—according to intelligence of Satur- day at noon, from that locality, complete tran- quility prevailed. The Orange Lodges in the County of Megantic had resolved upon a pro- ceSSION to celebrate the Battle of the Boyne, and this had given offence to the Ribbonmen, (ac- ting in obedience to the orders, it is said, of Mr O'Farrel, M.P.P.) who had determined that such a demonstration should not be allowed to pass off quietly. Forbearance was however, exercised, and no collision that we have heard of took place between the two parties.

The large steamship telegraphed as having passed River du Loup at 7 P. M. on Saturday proved to be the screw transport Taurus, (No 23.) Capt. Langlads, which arrived at noon yester- day, in fifteen days from England. She has on board heavy ordnance stores and ammuni- tion for Quebec and Halifax, and the wives and families of three officers, as passengers. The Vulcan is now fully due, and may be hourly ex- pected.—Quebec Morning Chronicle.

**Fire at Toronto.**—The Toronto Globe states that when the fire broke out there were 300 persons at work in the manufactory of Jacques & Hay, and the flames rushed through the pre- mises with such rapidity that seven persons were burned to death, and four others were se- riously injured in their attempt to escape. The dwelling of Mr Jacques, and the brewery of Messrs. Carley and Nash, were almost consum- ed. They were insured in the amount of \$5, 800. This does not cover much more than one- fifth part of their loss. It is a moderate esti- mate that they will suffer to the extent of 25, 000 by the event. The buildings and the ma- chinery were worth £20,000, the lumber £6000 or 7000, and the stock not less than £5000.

CALIFORNIA.

The Address of the Vigilance Committee of San Francisco is a document which ought to secure the very gravest consideration. There can be no doubt or demur as to the reality and fearful character of the abuses which called that Committee into existence. The electons of San Francisco, and measurably of other California cities, had degenerated into the grossest farces. The result was determined by votes corruptly placed in the ballot boxes, and even by the re- turns which had no basis even in fraudulent votes. Men had themselves chosen (or return- ed) judges or inspectors, of elections in order to make out of the position the most that any candidate or ticket would pay to be put through. Often the agents of these bully inspectors were negotiating with both parties at once, endeav- ouring to excite them to bid against each other, and ready to return whichever should finally be screwed up the highest notch. In at least one instance, a gambler and felon was declared chosen Alderman whom nobody had known to be a candidate. Of course, where imps thus boldly played both hands, the evil one was pretty certain to win. San Francisco be- came more and more disorderly, its Government more and more corrupt and inefficient for any good, until the best citizens were murdered in broad daylight by men who relied on their money and their influence with the wretches in office to screen them from the legal penalties of their crimes. Of course, all these crimes, requiring most shrewd and daring accomplices, cost money—hundreds of thousands if not mil- lions per annum—and the culprits who were the immediate beneficiaries were intent on plunder as well as power and impunity. The ballot-box stuffers and other agents must either be paid directly or enabled and emboldened to pay themselves. Hence Peculation ran a reck- less race with impunity in general crime; and while the honest, industrious thousands had security neither for life nor property, they were taxed thrice what an energetic, fearless, efficient Government should have cost.—New York Tribune.

MEXICO.

**Departure of the Spanish Fleet, and Confisca- tion of the Landed Property of the Church.**—New Orleans, July 12, 1856.—By the Steamer Texas we have Vera Cruz dates to July 8.—The Spanish Fleet had departed from that Port. President Comonfort had decided to sell all the land belonging to the Church and other religi- ous corporations. The new Constitution and Church Property Decree was generally applaud- ed. A new State is to be formed, under the Constitution, to be called the Valley of Mexico. Hostilities had been commenced by the States of Leon and Chihuahua against Tamaulipas. Advice from Mayaguez, P. R., of June 24th state that the produce of the Island was never

more prolific than this year. The yield of sugar and molasses was never known to exceed the present crop either in quantity or quality. The growing crops are promising under the most favorable weather, and the health of the island is very good.

It is in contemplation to run a line of fine arge screw steamships between the ports of New Orleans and Liverpool, which will com- mence operations very soon.

Mr Lyle who for many years was one of the Halifax pilots of the Cunard steamers was chief officer of the ill-fated steamer Pacific whenshe disappeared. He has left a family in Halifax.

Holloway's Ointment and Pills have again cured a case of Sore Legs of twelve years stand- ing.—Miss Emma Hartley, of Hamilton, Can- ada, was one of the most deplorable of objects, and the most unfortunate of sufferers with bad legs from a child, and frequently bitterly de- plored her fate; she had undergone many ope- rations, and spent a little fortune in obtaining medical advice, but she was not benefited.— Her friends persuaded her not to impoverish her purse any further, and her medical man candidly told her she could never be cured; her own good sense, however, made her have recourse to Holloway's Pills and Ointment, and by persevering with these remedies at a mere nominal expense for two months, her leg was completely cured; she now walks better than she ever did before in her life, and enjoys the best of health.

For further particulars apply to the subscriber on the premises. HUGH MORRISON. North Esk, July 22, 1856. 4w

Mount Allison Wesleyan ACADEMY.

REV. M. RICHEY, D. D., President of the Board of Trustees. REV. W. TEMPLE, Secretary. REV. E. EVANS, D. D., Governor and Chaplain. REV. H. PICKARD, A. M., Principal. CHAS. F. ALLISON, Esq., Treasurer. The first Term of the next Academical Year is to commence on THURSDAY, the 14th August, and the Second on the 20th November. The Institution will continue to be conducted up- on the same principle as heretofore. Every thing possible will be done to promote the safety, com- fort, and improvement of the Students. The exertions of the honored Founder, and of the Trustees and Officers, to extend the blessings of a sound Religious, but not Sectarian Education, have been, to a most encouraging extent, successful.— During the last Academic Year, not less than two hundred and fifty Students gathered from almost every Christian denomination, and from all the various parts of these Provinces, were connected with the two Branches of the Institution. Within the last twelve months, nearly two thousand pounds have been expended in still further improving the Buildings, and otherwise increasing the Educa- tional facilities afforded in the two establishments. The Boards of Instruction include twelve Profes- sors and Teachers, all suitably qualified for their respective departments. Notice is, therefore, respectfully but confidently given that a thorough Academic Training may be here obtained, by Youth of either sex, under the most favourable circumstances and upon the most advantageous terms. The Charge for Board &c., &c. and Tuition in the Primary Department, is £25 N. B. Cy., for the Academic Year—£8 Gs. 6d. being payable in ad- vance at the beginning of each Term. All communications respecting the Male Branch, should be addressed to the Principal; those con- cerning the Female Branch, to the Governor and Chaplain. July 23. (3w)

LOST.
