

The Medicine of the Million. PHILOSOPHY AND FACT

HOLLOWAY'S PILLS.

THE EXCITING CAUSE OF SICKNESS.

The blood is the life-sustaining agent. It furnishes the components of flesh, bone, muscle, nerve and integument. The stomach is its manufactory, the veins its distributors, and the intestines the channel through which the waste matter rejected in its productions is expelled. Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the fluids, its regulating the excretions.

THE NATIONAL COMPLAINT.

Dyspepsia is the most common disease among all classes in this country. It assumes a thousand shapes, and is the primary source of innumerable dangerous maladies; but whatever its type or symptoms, however obstinate its resistance to ordinary operations, it yields readily and rapidly to this searching and unerring remedy.

BILIOUS AFFECTIONS.

The quality and quantity of the bile are of vital importance to health. Upon the liver, the gland which secretes this fluid, these Pills operate specifically, infallibly rectifying its irregularities, and effectually curing Jaundice, Bilious Remittants, and all the varieties of disease generated by an unnatural condition of the organ.

BOWEL COMPLAINTS.

Unless the bowels perform their functions properly, the whole body suffers. Tens of thousands die annually of Dysentery, Diarrhoea, Chronic Constipation, and other diseases of these waste pipes of the system. The effect of the Pills upon all intestinal disorders, whether casual or epidemic, is a phenomenon in medicine. By following the printed directions, the most alarming cases of bowel complaint are promptly controlled.

A WORD TO FEMALES.

The local debility and irregularities which are the especial annoyances of the weaker sex, and which when neglected, always shorten life, are relieved for the time being, and prevented for the time to come, by a course of this mild but thorough alterative.

Holloway's Pills are the best remedy known in the world for the following diseases;

- Asthma Debility Inward Weakness
Bowel Complaint Fever and Ague Lowness of Spirits
Coughs Female Complaints Piles
Colds Headaches Secondary Symptoms
Chest Diseases Indigestion Vomits
Constipation Influenza Venereal Affections
Dyspepsia Diarrhoea Inflammation and Gravel
Dropy Liver Complaints Stones and Worms of all kinds
