

The fire extended much faster and farther up the main street, from the place where it broke out, than it did downwards, only three houses below Dawson's, on the front street, being destroyed.

When the range of high houses at the upper end of Main street caught fire, the heat grew so intense, that the street was impassable. The houses on the opposite side were all blistered and scorched, and the windows all cracked, and soon after some of them burst into flames.

It was near 9 o'clock in the morning, when the fire, as if it had expended its fury, gradually died out, the last house destroyed being a valuable one of Mr Allingham's, near the Methodist chapel. This burned very slowly.

Serious Riot.—After we left the Flats yesterday, we understood that a serious riot occurred, growing out of those villainous feuds which one would really think in a new country might be allowed to die and be decently buried.

In the afternoon there were several fights about York Point, and one man, we are told, had his nose bitten off. Another man was set upon at York Point for no other reason than that he was a Marsh Road man, and if he had not fled into a shop would have been badly beaten.

The neighbourhood of York Point, last evening, was in a very excited state, and threats of vengeance on the Marsh Road people were freely uttered, and it is the general opinion that, unless some measures are taken to secure the peace, a serious affray may take place to-day.

The Circus, which was pitched a few days ago, was obliged to decamp suddenly, owing to the threats of the York Point Rowdies, and the races are likely to be put a stop to by the same desperate ruffians.

The Medicine of the Million. PHILOSOPHY AND FACT.

HOLLOWAY'S PILLS.

THE EXCITING CAUSE OF SICKNESS. The blood is the life-sustaining agent. It furnishes the components of flesh, bone, muscle, nerve and integument. The stomach is its manufactory, the veins its distributors, and the intestines the channel through which the waste matter rejected in its productions is expelled.

THE NATIONAL COMPLAINT. Dyspepsia is the most common disease among all classes in this country. It assumes a thousand shapes, and is the primary source of innumerable dangerous maladies; but whatever its type or symptoms, however obstinate its resistance to ordinary preparations, it yields readily and rapidly to this searching and unerring remedy.

BILIOUS AFFECTIONS. The quality and quantity of the bile are of vital importance to health. Upon the liver, the gland which secretes this fluid, these Pills operate specifically, infallibly rectifying its irregularities, and effectually curing Jaundice, Bilious Remittants, and all the varieties of disease generated by an unnatural condition of the organ.

BOWEL COMPLAINTS. Unless the bowels perform their functions properly, the whole body suffers. Tens of thousands die annually of Dysentery, Diarrhoea, Chronic Constipation, and other diseases of these waste pipes of the system. The effect of the Pills upon all intestinal disorders, whether casual or epidemic, is a phenomenon in medicine. By following the printed directions, the most alarming cases of bowel complaint are promptly controlled.

A WORD TO FEMALES. The local debility and irregularities which are the especial annoyances of the weaker sex, and which when neglected, always shorten life, are relieved for the time being, and prevented for the time to come, by a course of this mild but thorough alterative.

Holloway's Pills are the best remedy known in the world for the following diseases: Asthma, Debility, Inward Weakness, Bowel Complaint, Fever, and Ague, Lowness of Spirits, Coughs, Female Complaints, Piles, Colds, Headaches, Secondary Symptoms, Chest Diseases, Indigestion, Venereal Affections, Costiveness, Influenza, Inflammation, Dropsy, Liver Complaints, Stone and Gravel, Worms of all kinds.

Sold at the manufactory of Professor HOLLWAY, 89 Maiden Lane, New York, and 241 Strand, London, by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in boxes at 25 cents, 62 1/2 cents, and \$1 each.

There is a considerable saving by taking the larger sizes. N.B.—Directions for the guidance of patients in every disorder are affixed to each box.

CAUTION.—None are genuine unless the words "Holloway, New York and London," are discernible as a water-mark, in every leaf of the book of directions around each pot or box; the same may be seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines, or vending the same, knowing them to be spurious.

CHEAP LIGHT.

Every Public Building, Dwelling-House, Mill, Factory, Shop, Store and Office in this Province, May be brilliantly lighted at little cost!

For brilliancy and economy of its light, that of PARAFFINE LAMP OIL, manufactured by the New Brunswick Oil Works Company, is superior to that of coal gas, or any other oil or fluid.

At the same cost Paraffins Lamp Oil will give 7 times more light than Fluid; 5 " " " Sperm Oil; 4 " " " " Lard Oil; 3 " " " " Whale Oil; And twice as much light as Rape Seed Oil.

PARAFFINE LAMP OIL. Gives a brilliant light, is free from all danger of explosion, it does not ignite where a lighted match is placed directly in the oil; it does not waste on exposure to the air; and may be consumed in a lamp to the last drop within reach of the wick without depreciation in the quality of the light.

Leading chemists of London and New York, agree that Paraffine Oil is destined to supersede all other Oils or Burning Fluids as a source of artificial illumination, and is the most valuable material for that purpose, now known.

LAMPS for this Oil, 8s. 6d., to 30s. each. PARAFFINE LAMP OIL, 5s. per gallon. Liberal discount to Wholesale Dealers. For Oil and Lamps, apply to J. H. & J. HARDING, Newcastle, Miramichi. Sept. 19, 1857.

COALS.

60 Tons of Liverpool HOUSE COAL, for Sale low, by the Subscribers. J. H. & J. HARDING, Newcastle, Sept. 19, 1857.
