

ATLANTIC MONTHLY.—The June number of this excellent and superior Monthly has been received from the Publishers, Messrs. Phillips, Sampson & Co., of Boston. The Atlantic is fast becoming the most popular work of its kind in America, and this number is not behind its predecessors either in interest or general intelligence. The following are its contents:

"Chesuncook; La Cantatrice; Gottfried Wilhelm von Leibnitz; Loo Loo; Letter Writing; The Catacombs of Rome; Beatrice; Metempsychosis; Crawford and Sculpture; Asirvadam the Brahmin; What are we going to make; Shipwreck; The Autocrat of the Breakfast Table; The President's Prophecy of Peace; Literary Notices.

THE CANADIAN PRESS.

THE following choice piece of vituperation is copied from a late number of Mackenzie's Messenger:

"Long experience and careful observation enables me to say that the real difficulty in America (Canada included) in the way of purer legislation and a more upright rule, more even than through ignorance and prejudice, lies in the blackness of the human heart, in the corruption of human nature, in the infernal selfishness of constituent, legislator, and executive manager. My fondest hopes of a purer system were destroyed when I saw the working of American institutions from behind the curtain.

"Mr Brown, in office, might prove another Hincks; but it is clear to me that all the dirty, shabby rascals; all the sycophants, pimps, cheats, thimble riggers, land jobbers, knaves, sham loyalists, hypocrites, railway jobbers, and all grades of swindlers, are terribly afraid of him. They evidently fear he'd prove far too honest for their purpose. To a man they oppose him; consummate rogues united in nothing else, are warmly opposed to the idea of giving George the reins. The more I see of this the more anxious I am to give him a chance to right the vessel of state if he can."

NEWFOUNDLAND COAST.

THE Halifax Chronicle furnishes the following disastrous intelligence from the above quarter:

"The French Packet from St. Pierre to Sydney, C. B., reports a heavy gale previous to the 1st instant, on the banks of Newfoundland, attended with immense loss of life and property to the French fishermen. Besides the damage and loss of vessels, we understand that no less than 300 men perished during the storm. The above disasters will account for the very heavy orders received by our merchants for chain cables during the past week, amounting we learn, to upwards of three thousand fathoms."

LOCAL.

MELANCHOLY ACCIDENT.—On Saturday last an Inquest was held on the body of Mr JOHN PARKER, who was unfortunately drowned while crossing the Bay du Vin river. He had gone down on the Friday previous for the benefit of his health, and in crossing the river in a canoe, with four other persons, on Monday night, the fatal accident occurred. The lives of the other four were for some time in imminent danger, but were providentially saved. Verdict—Accidental death by drowning.

The Steamer Lady Head made her appearance according to announcement, on her return trip from Pictou, at 8 o'clock on Wednesday morning last. She had but few passengers.—She left for Quebec after a delay of about two hours. We understand that it was anticipated that the Governor General would take passage in her next trip.

The body of WILLIAM ALLAN, a young man belonging to Chatham, who was lost over board from a schooner while on her passage to Newcastle, last fall, was picked up on Wednesday morning last. An Inquest was held on the body before Allan A. Davidson, Esq., when a verdict in accordance with the circumstance was returned.

SWEEDISH AND NORWEGIAN VICE CONSUL.—It gives us much pleasure to announce that Robinson Crocker, Esq., of Chatham Head, has been appointed to the above office.

FLOUR.—Canada No. 1 superfine, was selling at Quebec, at the latest date, for 22s to 23s 9d. American superfine 21s 6d. to 22s; fine 18s. to 20s.

The Montreal Herald of June 5, furnishes the following account of the Flour market at that place.

"The tendency of the market is still downwards. Considerable sales were made on the afternoon of the 22nd, but during the present week the business has been trifling, and prices are 16 to 15 cents lower. All grades are in limited request; superfine is quoted at \$3 56c. to \$4; fancy \$4.05 to 4.15; and extra \$4.50."

ST. JOHN.—Mr Harding has tendered his resignation as Member of St. John and Speaker of the Assembly. An election is expected shortly.

SIR JOHN INGLIS.—This brave officer, the successful defender of Lucknow, being indisposed, has obtained leave to visit England.

The inhabitants of the Parish of Mau-gerville, in the County of Sunbury, have come to the sensible determination of taxing themselves for School purposes. They have authorized the Authorities to levy an assessment of £200.

There was no intelligence of the arrival of the Steamer at New York.

BOWSER'S HOTEL.

ARRIVALS DURING THE PAST WEEK.

JAMES CAIE, P. M.

Chatham, May 8, 1858.—1f

Life Association of Scotland.

FOUNDED 1838.

EMPOWERED BY ROYAL CHARTER AND ACT OF PARLIAMENT.

Subscribed Capital, £400,000 Sterling.

Annual Income, 125,000 do.

Chairman, Sir Jas. Forrest, Bart., of Comiston

The Life Association of Scotland which has now extended its operations to British North America, is specially Empowered by its Act of Parliament for Life Assurance in the Colonies, and is enabled to offer facilities and advantages to residents there.

While thus affording facilities superior to what most other offices can offer, the Association is not of recent origin or of limited business and resources. It is one of the most extensive and successful amongst British Assurance Offices, and policy holders in the British American Provinces have the benefit of the large annual business transacted in Great Britain and Ireland, and the ample and constantly accumulating funds now yielding an income of upwards of £125,000 sterling, per annum.

Last year the new transactions exceeded those of any other office in Europe.

The policy holders in no none of the risks of partnership, they are free from all responsibility, and the sums assured are guaranteed.

The whole Constitution, Regulations and System of business are framed in the most liberal and popular spirit.

The policies as now being issued are free from many of the restrictions commonly imposed on assured lives, and confer unusual and important privileges, far beyond what have hitherto been granted by Assurance Offices in North America; and after some years the policies become nearly absolute and indefeasible securities for sums assured—the assured being protected against accidental forfeiture, and against harsh proceedings on the part of the office in the event of omission to pay the premium.

A share of the profits of the business is allocated every year to all participating policy holders of five years standing, and is applied in reducing their next premiums. A large redemption of the premiums is thereby effected. The association has allocated profits at thirteen successive annual periods, and the annual return of profit to policy holders of the first series has now reached 35 per cent of the premiums—that is, the policy holders are required to pay only 13s per £1 of their premiums.

The rates of premium are moderate, and until the time of participation in the profits, a policy holder for £1,000 sterling or upwards, need pay only one half of the annual premium, the other half remaining unpaid at interest as long as the policy holder pleases.

The Association's business in North America is under the charge of a Board of Directors at Montreal for the Canadas; at Halifax for Nova Scotia; and at Saint John for New Brunswick.
