

all, the game put our team in good spirits and they added 11 more goals to their record. R. C. S. were unable to score, but showed their old fighting spirit throughout the game.

F. H. S., 18—ST. JOHN H. S., 0.

The ice was all that could be asked for and the St. John boys determined that they would make things interesting for F. H. S. But lack of practice soon was clearly seen in their team. Try as they would they were unable to hold down the score and the game ended 18 to 0 in F. H. S. favor.

R. C. S. vs. F. H. S.

The Rothesay and F. H. S. hockey teams crossed sticks at Fredericton in the first game of the season between the old rivals, February 20th. There was never any doubt as to the outcome and the High School team at once began to pile up the score. Rothesay worked hard to score, but Hickey was there and handled all shots easily. When the smoke cleared, Rothesay found themselves on the wrong end of a 7 to 0 score.

THE HOCKEY TRIP

On the morning of February 13th the F. H. S. hockey team left Fredericton to play two of its "away-from-home" games. It was the usual happy bunch who left here, and the usual happy bunch which made the travelling interesting and pleasant for any fortunates who happened to be on the same train. The team arrived in St. John along with several speed skaters, who were going to the St. John races, and had we not known that Miss Halifax was on the same train, we would have thought that the crowd at the station was there to accord us a welcome. After a hearty dinner at Bonds, we started on the last lap of our journey to Sussex, and arrived about two hours before the game started. After the game we were guests at a banquet at which we all had a wonderful time. It was a typical Sussex banquet, and except for a few rulers, books and elastic bands, belonging to someone else, nothing was removed. We left the hall at about midnight, some going their own way, some going far out of their own way, and others going to the hotel. In the "wee sma' hours," when we were all at the hotel, the chief bouncer looke dover his premises, which was sufficient to make us make ourselves scarce.

In the morning we all went to school and helped the teachers begin the day right. Some of our members found their way to the "cake" room and cleaned up what was not eaten the night before. We left the school about 9.30 a.m., and were surprised to find several stragglers on the way to their hotels (?) jail.
