

CLASS NOTES

"A 2" welcomed three out-of-town visitors on Monday, March 5th. Three members of the St. John basketball team, who had stayed over the week-end, joined the class for the day, and studied arithmetic, French and algebra with a will. We hope they carried a good report of our school to the "Foggy" City."

On Saturday, February 18th, the girls of "A" Class held a very successful food sale in aid of the basketball team in Mr. C. W. Hall's bookstore. The girls of all the classes brought bread, cake and candy, and the sum of \$35.00 was realized.

During Miss Clarke's late absence, Mrs. Creed supplied her place and gave the classes some interesting talks on the lives of Canadian and American poets, with selections from their works.

On Friday, March 2nd, "A" Class were dismissed early in both sessions, in order to hear Dr. Grey's speeches on "The European Situation," and "The Relations of Men and Women," which were much appreciated.

"C 2" reports that the members of that class each buy a copy of the "Chanticleer" instead of a few buying, reading and selling copies again. We should be glad to have all the school follow the example of this praiseworthy class.

The girls of "B" and "C" Classes raised \$12.00 for the hockey team at a food sale held on March 3rd.

We are glad to see that some of the pupils are using the library again—but they should remember that it is a place for reading and not for conversation.

The classes were small on the afternoon of March 8th on account of the opening of the Legislative Assembly. "A" consisted of nine girls, and "A 2" of two boys. Of course most of the absentees were more interested in the arrival of Miss Canada than in New Brunswick's new governor.

Dare Devil Dick With the Glass Eyebrow

Dick was so fast he couldn't keep up with himself, so he bought a motorcycle. Then he joined a circus, and people came and cheered the dare devil as he rode the perpendicular walls of death—as perpendicular as the walls of
