

this town should be proud of a school that bears so fair and honourable a name. But this is no reason why we should not aim at improvement, and at bettering our school until it is as near perfect as it is possible for a school of this sort to be.

* * * * *

High School should have a good hockey team. We have Hickson (captain) and Steene of last year's regulars. Moreover we have a wealth of new material and two of last year's spares—and a good coach. The schedule has, at the time of writing, not yet been arranged. High will probably play, as last year with St. John, Rothesay and Sussex.

In basketball we have an exceptionally light and fast team. We have an excellent coach and big times are expected of the team. The school does not support basketball as it should, but we are hoping for larger crowds this year. At the moment of writing, it has not been decided whether Moncton High will be in the league section with us or not. If so, on account of the increased expense, the local High will have to form a section with P. N. S. and play off with the southern section winners.

Ladies' Department

A GIRLS' HOCKEY TEAM

Wake up, you sleepy girls! Why not have a hockey team for girls only. Other schools have; why not ours? We have plenty of good material in F. H. S. Let us, the 1924 class, be the means of forming a girls' hockey team.

The U. N. B. Freshettes are thinking of having a girls' hockey team. If so, and if we have a team, we can bring about match games.

Several of our noble class-mates, the boys especially, have said that we will get no support. Give them a chance to prove that statement. If we are once able to play, the citizens of Fredericton would turn out, if for no reason than curiosity. A girls' hockey team would be something of a novelty in Fredericton. It is true that several years ago the city of Fredericton had a girls' hockey team, and that they got support. I'm sure we would too.

Wake up girls! let's show 'em and make old F. H. S. proud of us as it is of the boys.

A GIRLS' BASKETBALL TEAM

F. H. S. Boy—"Say, Helen, where's your basketball team? Thought you had a dandy one last year."

F. H. S. Girl—"Well so we did, but there's no place to practice this year, and we haven't a coach. Besides it's too much bother."

F. H. S. Boy—"What about the armouries, that's where we practice."
