ST. J. H. S., 37—R. C. S., 31,—F. H. S. 21

On Saturday, June 7, High School entered a track team in the Interscholastic Track Meet held at Rothesay. Macauley of R. C. S. held the greatest number of points (14). The dashes were all won by F. H. S. men. This is the first time in ten years F. H. S. has had a team in the meet.

Sporting Review, 1923-'24

F. H. S. has been very successful in athletics this year. In the fall we won the Interscholastic Rugby Championship of the Maritime Provinces. In hockey she has won the New Brunswick Championship and the Maritime title is to be divided at the first of next season. She was not so fortunate in basketball, winning the City title but taking only third place in the league. In baseball she has won all her games; it is unfortunate that there is no organized baseball league. The track team are journeying to St. John, but the result of their merit is still unknown at the time of writing.

During the year, chiefly through the influence of F. H. S. Interscholastic sport has come under the control of the Canadian Amateur Athletic Association. This has been a stride in the right direction. An age limit is set which prevents students taking courses in athletics only; and students playing on senior teams are debarred from the school teams. Best of all we can proudly and truly boast that we have maintained that long-established record for honour and clean, good sportsmanship that is the very essence of the spirit of the school; that we have always won and, when necessary, lost like gentlemen and sportsmen. A new building with all modern equipment is being given to those who follow us and it should only serve to increase the high standard of the school in every way. A rich and noble heritage has been handed down to us and, untarnished we hope, do we now pass it on to the generations who come after us, be theirs to reverence it and to ever uphold and foster the spirit that engendered it.

A summary of the year's events in athletics follows:

RUGBY FOOTBALL
