

us through sickness and our kindest sympathies go with him in whatever work he may take up.

HARRY HORATIO FRADSHAM

"Hink" came to us from Devon. Like Barton he makes love by leaving notes in Mr. Bishop's room. His social life is half surrounded with mystery but it may be only the smoke from his industrial town. "Hink" is a good student and also an hockey player.

FREDERICK HUDSON HEWETT

"Poet" is another of that noble race that came from Smythe Street. He has made the football, basketball and track teams for three consecutive years, being captain of the track team in his senior year. He is very popular with both sexes and is to be congratulated on his section of the class prophecies. Next year will find him up the hill.

EARLE VINCENT ROWAN

Is the husky lad from Regent Street. He is hard to get started and just rolls like a huge mass of potential energy. He made the 1925 football and hockey teams. He is very popular and has a great love for radio and electrical work. He intends to take up electrical work in the U. S. A.

JOHN EDISON CORBETT

Joined us in "B" Class. After hitting our stride he became a good student. He is a willing worker and we hope he will become as famous as his worthy predecessor.

CYRIL SWANSTON BARNES

Blew in from Smythe. He is an ardent Radio fan and also spends his time trying to curl a lasso. Cyril is a quiet and thoughtful student. His future is undecided.

ANDREW WILLIAM DOUGLASS

"Spivis" breezed in from C. S. S. and was fortunate in making the football team in his first year. He also made the basketball and track teams and continued the three lines of sport until the last year when he dropped out of the track team; as captain of our football team in his senior year, he led us to victory once more and enabled us to hold down the Maritime Championship Football Title for the fourth consecutive year. Andy has also made a creditable showing as captain of our cadet corp. His future is undecided.
