visiting Mr. and Mrs. Proctor, returned to

her home on Saturday.

Miss Laura Knight left town last week to pay her annual visit to friends in Prince Edward Island.

Mr. Hawkins spent last Sunday in town. In spite of "falling leaf and fading tree," of wind and rain, and, worst of all, mud, still poor old Moncton seems to have a charm of its own for Mr. Hawkins sufficiently strong to draw him back again very often, and he can never come too often to please his many friends.

We have lost a great many valued members of our social circle lately; in fact, there has seemed to be a continued succession of farewells in the last tew weeks,

day, from a short visit to Boston. A selication is looked upon as the way vere cold prevented her from attending the ball on Friday evening, as one of the committee.

Miss P. H. C. Chandler is visiting in St. but of all those who have departed from our town, none will be more widely missed, Mes or more genuinely regretted, than Mr. A. W. Campbell, of the Bank of Montreal, who has been transferred to Halifax. Mr. Campbell left for his new sphere of action by the early morning train on Tuesday, for the last few days. followed by the best wishes of hosts of

### DORCHESTER DOTS.

DORCHESTER, Oct. 15, 1888. The much talked of leap year ball given by the ladies of Dorchester, took place on Friday the 12th inst., and was an unqualified success. About two hundred guests were present, chiefly from Westmorland and Cumberland counties. The committee consisted of Mrs. David Chapman, Mrs. D. L. Hannington, Mrs. J. E. Church, Mrs. A. E. Oulton, Miss F. S. Chandler, secretary, who deserve much credit for the successful results of their management. The floor managers were Messrs. W. W. Wells, A. W. Chapman and J. E. Church. The decorations consisting chiefly of flags, evergreens and autumn leaves, were most attractive. The committee had engaged the Vincent-Stevens orchestra from Halifax, and their music was excellent, especially their imitation of the mocking bird, played during supper. The following is a list of the invited guests:

The change is so days of high felt hats are over for a while. hat reigns supreme. The change is so gradual that people do not notice it much. A man coming out now with a very low hat would cut quite a figure, but in a few years it will be the fashion, and people will wear anything so long as it is the latest."

#### The Colonel and the Dog

Mr. Wm. E. Wood, who is stationed at St. John N. B., in connection with the M. C. railroad was in town a couple of days reception and returned at a late hour after this week. A few days ago, Mr. Wood was bitten through the hand, by a large Newfoundland dog that he was playing with. It was an accident and as Mr. wood thinks that he was more mad than the dog was: he expects to be all right in a few days .- Portland Telegram.

### THE SUMMER'S DONE.

Rip up the carpets, Nancy,
And pile 'em all away;
The boarders all has scooted,
And we'll close the place today.
Them curtains on the winders
They hain't no use to us:
We'll pack 'em in the linen room,
Where they won't get all muss.

The garden gate is wobbly—
That Smith gal give it wear;
Sumhow she cottoned to it,
For young Simpkins he popped there.
The spring-house door is kivered
With a lot of lovers' knots;
And dern me if the fences hain't
A shadin' trystin' spots.

The fam'ly Bible's crowded
With a lot of sickly ferns,
And ev'ry nook and corner
Seem to locate lovers' yearns,
All things is topsy-turvey, Nance,
Since them folks went away;
They've sorter left an air behind
We'll resurrect today.

They was a lively passel
Of clever gals and boys.
And dern me! I'm not the man
To envy them their joys.
They'll all come back next summer
Fur to make the old place gay.
Rip up the carpets, Nancy—
We must close the place today.

IN THE FRONT RANK.

-Time.

The St. John, N. B., "Progress" stunds in the front rank of Canadian weeklies. There is about it a good, healthy atmosphere which is inspiring. It looks steadily on the bright side of things, and its readers are the better of perusing it. Its news and sketches and social gossip are served up in a racy, piquant style, its editorials are short and sensible, and the printed page is a model of typographical excellence. It is a new comer, non-political and with apparently good staying powers .- Toronto Empire

A Home in the Country.

The residence built and occupied by Henry Titus, situated about one mile anda-half above the village of Rothesay, is offered for sale. The house is two stories in height and contains rooms enough for a large family, and stands upon a six-acre lot, more or less, and is admirably adapted for a summer residence, as well as all the the premises, and the place at present cuts about five tons of hay. The view of the Kennebeccasis and its islands is magnificent. The railroad runs within half a mile of the property, and a siding might be placed in the vicinity for the accommodation of passengers.

This valuable property will be sold at a great bargain, as the owner of it now resides at a distance and wishes to get it off his hands. House can be examined any time. Apply for further information to E. S. Carter, office of Progress, Canterbury street.—Advt.

### Good Blood Hangs on Good Digestion.

MANY die because they are not nourished by the food they eat, eating yet starving. Bad blood shows itself in pimples, eruptions or sores, blotches, sallow skin, langour and a feeling of uselessness. Whatever renders the blood impure tends to originate consumption. There can be no heartiness of spirits, no soundness of mind with thin or diseased blood. Something must be done when the system is in such a state. A cure is required and one that works quickly and effectually is the cure that is most required, for making new healthy blood, for sick headaches, wakeful and restless nights, that tired feeling, poor appetite, mental dejection and kidney trouble nothing has been discovered that is equal to BOVININE. Dr. J. STINSON HAR-RISON, of Washington, D. C., says:

"I have been engaged in the regular practice of medicine for more than 30 years, and in all that time have found nothing that I regard as equal to **BOVININE** for making new blood and building up an overworked and run-down system."
