What SCHOFIELD & CO. say: We have much pleasure in stating that the Caligraph purchased from you has been in constant use in our office for several years, and is still in good order. We consider it invaluable as a time-saver.
Rev. C. G. McCULLY writes: A point of special value in the Caligraph, resulting from the absence of shifting keys, is the readiness with which original composition may be executed. From my experience, and that of many personal friends using the Caligraph, composition soon comes to be executed with greater readiness than with the pen. So great do I deem its utility that I would purchase a machine every year rather than be without it.
