"ASTRA'S" TALKS WITH GIRLS.

[Correspondents seeking information in this department should address their queries to "Astra," Progress, St. John.]

BARBARA, Fredericton.—Don't do anything at all, what could you possibly do beyond receiving the young man's attentions in a perfectly natural and easy manner? If he comes as a lover you may be very sure he will find means to let you know of his intentions, and if he only feels friendship for you how humiliating your position would be it you had shown by your manner that you thought he meant something more. Believe me, a lover—like an editor—can stand a great deal of letting alone, and above all things he should never be hurried. Let him do all the courting; he does not require the slightest assistance, and he is not apt to be at all grateful for it when it is forced upon him.

If I remember aright, I promised "Hilda" of St. John, that I would hunt up some recipes for freckles as soon as I had time. I had a few minutes spare time the other day, so I thought of "Hilda," and here is the result of my labors:

To a quart of buttermilk, add two thirds of a cup of corn meal, and a teaspoonful of salt; bathe the face every night, and allow the lotion to dry in. This, at least, possesses the merit of being perfectly harmless.

A very highly recommended lotion, said to be infallible, is made of five grains of corrosive sublimate, two ounces of alcohol, and four ounces of water; the faces to be wiped two or three times a day with a cloth moistened with the lotion. Do not apply at night, instead use vaseline cold cream, which will soothe the skin and prevent ill effects from the lotion.

A third recipe is powdered saltpetre applied like ordinary powder, first moistening the face with soft water.

SUBSCRIBER, St. John.—Do not go to the party alone with your gentleman friend! It would be the worst taste in the world.

THE RICH have found that the worry and bustle of business, society and high living, have brought on nervousness, headache, irritability, moroseness and dyspepsia.

THE YOUNG, who have any nervous tendencies, find that they are made strong and braced up by any department of work, and that Paine's Celery Compound gives great elasticity to overtaxed nerves.

UNSYMPATHETIC lady (to tramp)—Why are you tramping about in this way? Why don't you go to work?

CANADA TO THE FRONT.

Not Behind the Rest of the World in the Importance of Discoveries for the Benefit of Mankind.

The civilized world has recently been deeply agitated over the announcement that Dr. Koch, an eminent German physician, had discovered a lymph for the cure of consumption.

She Must Have Been the Tallest. "Do I understand you to say," said the attorney for the State, looking hard at the principal witness, "that upon hearing a noise in the hall, you rose quickly, lighted a candle, and went to the head of the stairs; that a burglar was at the foot of the stairs and you did not see him? Are you blind?"

FOUR CLASSES of Men and Women. Four classes of men and women agree unanimously that Paine's Celery Compound is what they require when afflicted with any of the troubles now so prevalent in this and other lands.

THE OLD, when weakened with the wear and tear of infirmities and the overwork of a long life, find that Paine's Celery Compound can strengthen and build them up, and free them from the feelings of their infirmities, and adds years of peace and joy to their lives.

THE RICH have found that the worry and bustle of business, society and high living, have brought on nervousness, headache, irritability, moroseness and dyspepsia.

THE POOR have found that when overworked, tired, used up, sleepless and nervous, that Paine's Celery Compound will renew their strength and vigor, give them appetite, sound sleep and rest, and can make them as firm as a rock.

THE YOUNG, who have any nervous tendencies, find that they are made strong and braced up by any department of work, and that Paine's Celery Compound gives great elasticity to overtaxed nerves.
