SEPT. 24 .- After so much delightful weather, we are in fear and trembling lest it may not hold out until exhibition week. Yes, the much talked of exhibition opens on the 29th, and by all accounts it is to be a capital show. Halifax will be en fete; the town will be full of strangers, so to speak, and among the other attractions may we hope there will be something worth seeing at the Academy. Uncle Tom's Cabin, we are told is on the way. But a good many people think it is time that that most stale of all old chestnuts was buried down under the sea, where it could never be exhumed again. Yet even there, I think manager Clarke would

Yet even there, I think manager Clarke would have a dive for it. Wednesday of last week, a delightfully fine day, was one of society's red letter days. Major and Mrs. Reader gave a large picnic at the Dingle. The guests crossed the Arm at three o'clock in boats, and spent a delightful afternoon roaming through the romantic walks and dells of that charming spot. In the evening at McNab's Island, the officers of the R. E. gave an entertainment, which consisted of the R. The officers of the Halifax garrison artillery give their ball at the Halifax hotel on Friday. The invitations issued have been very numerous, and par-ticularly by the fair sex its advent is awaited with much impatience. Everything is to be on a very large scale,—the supper, the decorations, the ball room and drawing rooms, so that those who re-ceived a card are among the fortunate.

Come summer, come autumn, Cupid, that mis-chevious god, is never idle; he has lately been particularly busy in our midst, the upshot of which is that the wedding bells are kept merrily chiming.
