SEPT. 16 .- Even if things are a little slow in society circles, this summer, there does not seem to have been any dullness in the courts of Cupid, if one may judge by the number of weddings which either have come off, or will come off in the near future. Think of it! four weddings in August and three more to come off before the end of the month, not to mention engagements and rumors of engagements. I really begin to think my clever contemporary of Dorchester will be obliged to yield the palm to me in the matter of weddings at least, if not of engagements, it is generally a poor week with him when he has no new engagement to announce, but I begin to think I shall soon be able to announce a weekly wedding. And yet, I am glad to say, that we still possess an ample supply of eligible bachelors who are, so far as I know, "Sighing yet for none."

Only one of the brides elect whom I have mentioned-or rather have not mentioned-will leave Moncton, I am glad to say, the others we are going to keep with us, as a proof, if any were needed, that Moncton boys know how to appreciate true worth. Among the numerous testimonials received by us from time to time is one from Mr. Golding, of Fredericton, who says:

"I have been using John Edgecombe & Sons' Carriages and Sleighs for twenty years in the livery business and have patronized during that time other manufacturers in the provinces, but can say I never found any to give me as good satisfaction as those manufactured by John Edgecombe
