JULY 8 .- The death of Mr. George W. Schleyer, the well-known photographer of this city, caused by a painful accident which occurred the day preceding his death, was a great shock to our citizens. Mr. Schleyer has been a familiar figure on the streets of Fredericton, having been born and brought up here and was engaged in the photographing business on Queen street for a number of years. He was a young man highly respected by all who knew him, was an earnest worker in the Methodist church and Sunday school, where he will be very much missed, in fact there was no good work going on in the city in which he was not interested. His remains were interred in the Methodist cemetery above town, the funeral being one of the largest seen here for a long time. The sympathy of the city is extended to his

MONCTON.

JULY 8 .- Nobody has done very much this week so far, except talk over the events of last, and agree that the entire celebration would have been a much greater success if the weather had cleared up one day sooner. This, of course, was a a self evident fact, but as things turned out so very much better than anyone expected, I think we had great cause for gratitude-phenomena, to be observed and noted, how much more ready fallen human nature is to growl about the one drawback than the ten advantages. Telle est la vie, I suppose; but all things considered dominion day in Moncton was a great success. The morning parade was most creditable to the firemen, Charlottetown, Halifax, St. John, Fredericton, Truro and St. Marys, as well as Moncton, being represented. The hose carts and engines were most tastefully decorated, No. 3 hose cart winning the prize.

The afternoon sports at the Athletic grounds drew a large crowd, and must have resulted in a correspondingly large amount of shekels for the firemen. The sports themselves were good, at least so said the firemen, and the few other people who were fortunate enough to witness them, the great majority of the spectators paid their quarters and saw—a very large crowd of all sorts and conditions of men and women, who had crowded inside the fence, and sowred disjunctioned even to allow the performers and seemed disinclined even to allow the performers themselves the requisite room to run; and the firemen who had entire charge of the grounds for the day, having secured the people's money, took no pains whatever to give them the worth of it. and spirited citizens who attempted to interfere only got snubbed for their pains.

The illuminations in the evening were of a rather mixed nature, owing to an unexpected change of route in the torchlight procession. People imagined it would be the same as that taken by the morning parade, and made their arrangements accordingly, with the approximation result, that the procordingly, with the annoying result, that the procession passed down several perfectly dark streets, while some which were brilliantly illuminated, were

left in peaceful obscurity.

The strawberry festival held in the W. C. T. U. rooms by the ladies of St. George's church, in aid of the organ fund, was wonderfully successful in view of the great disadvantages under which they labored. I believe they banked over \$65 after paying all expenses. They served a most dainty dinner for the small sum of 35 cents, and each saucer of strawberries was lubricated with genuine cream. I am prepared to vouch for this fact before a jury of my peers, as I believe it was the first a jury of my peers, as I believe it was the first instance on record of anything richer than "sky blue" making its appearance in public at a strawberry festival. The tea was fully up to the highest berry festival. The tea was fully up to the highest water mark, of the expectations aroused by the dinner, and the tables presided over by more charming matrons and pretty girls than any other town of the size of Moncton could produce, indeed, I heard the remark made that there was not a plain looking woman in the room, and that there were more pretty girls to the square foot in Moncton than in any other town in the maritime provinces. A meeting is to be held tonight to discuss the possibility of holding a mam-

moth bazaar in aid of the same object in September, but as nearly everybody is out of town and as quite everybody has a rooted objection to working hard in the hot weather, and as even a small bazaar means an enormous amount of work for somebody, I think the chances are largely in favor of its being post-

poned till spring.

A few more people have folded their tents for the summer and silently stolen away, not to return till Mrs. R. W. Hewson left town on Thursday to spend the rest of the summer in Dorchester with her parents, Mr. and Mrs. George Chandler of "Mapleparents, Mr. and Mrs. deelge chanded hurst," an entire change of air and scene being con-sidered necessary in order to enable Miss Kathleen

Hewson to struggle out of the grasp of her relentless -whooping cough. Speaking of whooping cough-it is something no family of any note is without just now; like the far-famed Wizard Oil, you find it everywhere; and the very air resounds with whoops that are sufficient in depth and volume to cause the far-famed "Dungarvon Whooper" to retire from the competition

I am sorry to say that the time is drawing near when we shall lose Rev. G. M. Mr. and Mrs. Campbell have made many friends during their stay in Moncton amongst all denominations, and their departure will be deeply regretted not only in their own congregation, but regretted, not only in their own congregation, but very generally.

Mrs. Osgoode is also in Moncton, and will make her home in future with Mr. and Mrs. C. D. Thomson. I am sorry to say that we have lost another of our roung men. This time it is Mr. Fred Crandall, our talented young cornet player, who has gone to seek his fortune in New York. The wife of ex-councillor J. N. Fage died very suddenly on Tuesday of last week, leaving an infant of eleven days. She was buried on Thursday, fol-

lowed by a large concourse of people. The members of the band and the baptist congregation, are anticipating a grand time on Friday, when they go off on their excursion to the very picturesque little town of Pugwash. The episcopalians and presbyterians intend having one about the 28th inst., at the same place. Pugwash, I am informed, is an Indian name, ignifying deep waters, and that the townspeople

talked at one time of applying to parliament for power to have the name changed to something more attractive. Now that it is linked on to the rest of the Dominion by rail, it would be as well to give it another name, for it is one of the best and prettiest watering places on the Northumberland Straits.

What threatened on Friday morning to be other very serious fire in the establishment of Mr James Moffat, was got under control before much damage was done, not, however, before the principal stock was removed on the first and second floors,

causing much loss and inconvenience to the proprietor. Master Osborne Moffat in drawing off Japan in the basement, accidentally upset the lamp, which quickly ignited the inflammable material. He was quite badly burned on one foot and leg. [Progress is for sale in Digby at the bookstore of Mrs. Belle Morse.] JULY 8 .- Dominion day was a successful holiday

here, the weather delightful. Early in the morning the sightseers poured into the town from all the country around. The firemen's parade took place at nine o'clock; it was marshalled by Major Dailey, who looked well equipped and rode his handsome steed with graceful ease. The Monticello brought a large crowd of passengers. The boat and canoe races were a great success, indeed all the amusements provided were good. Refreshment rooms were opened at the business end of Water street by the Methodist and Baptist congregations, and the Digby bandsmen. In the evening the latter gave a first-class concert in the baptist hall, which was largely attended, and proved a success financially. On Thursday, Mrs. A. D. Bonnell entertained some young folks at her pretty home, dancing being

the order of the evening. On Saturday afternoon Mrs. John Viets entertained her lady friends from four to six. It was called a "rose tea," and justly so, as the home and tempting little tables arranged for the guests were decorated with lovely pink roses, freshly gathered from a climbing tree which grows luxuriantly on the side of her honse. HALIFAX, N.S., May 28th, 1891. MESSRS. HUESTIS & Co. 116 Granville Street, Halifax, N.S. GENTLEMEN,-In reply to your enquiry about the

"Smith-Premier," I must say that the more I use it, the better I like it. It has all the strong points of the "Remington;" all the good points of the "Caligraph," and many advantages not found in any other machine that I am acquainted with. I cannot enumerate all the things I like about the machine, but every one who uses it will appreciate the easy touch, the mechanical perfection, and the ease with which the writing may be inspected and errors on any part of the page corrected. On the whole I am convinced that the "Premier" well merits the name that has been given it.
Yours truly,
