A LEAP IN THE DARK

Is very often attended with disastrous consequences. The shrewd advertiser does not leap in the dark. He knows where his game is before he tries to shoot it. If he patronizes the "ST. ANDREWS BEACON," he does not expect to reach people in Labrador, but he does expect to reach people in St. Andrews, St. Stephen, St. George, Dear Island, Campbellton, Grand Manan and other places in Charlotte County. And he will. They all take it. HOTEL PROPRIETORS and TRANSPORTATION COMPANIES will find the "BEACON" an excellent medium through which to reach the summer traveller.

THAT very few merchants give more than ordinary attention in buying their Prints and Sateens can readily be seen by taking a look through many of the Dry Good houses in the City. Note designs and colorings and what a sameness there is. We think we are one of the exceptions, however, and only ask an inspection of our display to convince you that we lead in the vast variety of patterns. What we have to present is the result of giving a deal of time in making our selections, so as to be able to offer lines that cannot be had from others, and to do this means the buying of

PRINTED SATEENS, CAMBRICS AND LAWS

in very large quantities. Buyers will at once see where the advantage is, as it gives us a stock to show them superior in every way. These remarks apply of course to Imported Goods only, as no dealer pretends to show an exclusive range of Canadian prints.

We will open next week another lot (165 pcs.) of our well known quality of Washing Drillette, at 12½ cts.—Sateen patterns. Sample Books of above to any address.
