ARISTOTLE.

APRIL 6 .- The many friends of Mr. and Mrs. Samuel Calkin heard with deep regret of the loss of their comfortable and pleasant home by fire at Coverdale, a few days ago.

Mrs. Camp accompanied by the children has gone to visit her relatives at Fairville.

Rev. Mr. Carvil Steeves occupied the pulpit in the baptist church Sunday evening. I have heard a rumor of a driving party going out

to Salem some of these days, to visit some of the large sugar camps and returning by moonlight.

HE IDENTIFIED THE TROUSERS. A Woodboat Man Who Was Not Half So Green as He Seemed to Be.

When a woodboat from somewhere or another arrived at Indiantown the other day, and one of the crew declared his intention of going to the city to buy a pair of trousers. He stated, moreover, that he would go to the store of a certain dealer on King street. Another of the crew began to protest that if he went to that place he would, judging from past experience, get taken in in some way. To this the jocund plougher of the deep returned a scornful laugh.

"Let me alone for that" he replied." If he fools me you can send me adrift on the fore-skysail hatch with the main-topgallant marlinspike for an anchor.

The mariner sought the store and was met with smiles and bows by the obliging proprietor. He made known his wants and was shown a pair of trousers which seemed to be just what was wanted. They were good stuff, but he objected to the price. A dollar was thrown off, and he agreed to take them. He would carry them with him he said.

"There is no need of that. We will be happy to send them," was the reply. He still presisted that he would rather carry them, but the storekeeper was so anxious to save trouble by sending them that he yielded and handed out a \$5 bill. This necessitated the making of change, and while the seller was away for that purpose, the buyer continued to handle his purchase as it satisfied with his bargain. The change

was returned and the jolly tar went back to his woodboat.

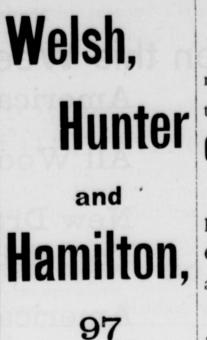

In due time a boy from the store arrived at the boat with a parcel. The jolly tar bade him wait a moment until he examined the contents. As soon as he did so he exclaimed

"These are not the trousers I bought. They look like them, but mine were a better pair."

The boy protested that they were the pair Mr .--- had sent, and so the jolly tar hied himself back to the store.

"Look here," he said to the smiling proprietor. "These are not the trousers I bought. They look like them, but mine were a better pair.

The proprietor still smiled while he as-

A RARE POEM.

It Was Written by a Poet Who Has Since Won Fame.

In the house of gentleman in this city, says the Kokomo, Ind., Dispatch we saw a poem written on the fly-leaf of an old book. Noticing the initials "E. A. P." at the bottom, it struck us that possibly we had run across a bonanza.

The owner of the book said that he did not know who was the author of the poem. His grandfather, who gave him the book, kept an inn in Chesterfield, near Richmond. Va. One night a young man who showed plainly the marks of dissipation, rapped at the door, asked it he could stay all night and was shown to a room.

That was the last they saw of him. his customer that there could not be When they went next morning to call him any mistake. It was only the pair he had to breakfast he had gone, but had left the looked at, etc. The jolly tar cast his eye book, on the fly-leaf of which he had written these verses :

small volumes in his pocket to study in spare moments in the fields.

He loved "The Collection of Songs," poring over them verse by verse when he was driving his cart at labor. He lingered over the ballads in his cold room at night; by day while whistling at the plow he invented new forms and was inspired by fresh ideas, "gathering round him the memories and traditions of his country till they became a mantle and a crown."

It was among the furrows of his father's fields that he was inspired with the constantly quoted wish-

sure of it." "Impossible, you did not look at that

pair," was the reply. "Let me see them," said the jolly tar.

They were brought, and then the jolly tar did a curious thing. Opening both hands wide he asked the seller to satisfy himself that they were empty. Then he took the trousers, put an arm

down one of the legs and withdrew it with a plug of black-jack tobacco in his hand. "There," said he. "I put that in the

leg of the trousers I bought, and here it is to identify them."

When he went back to Indiantown, he carried the trousers he had purchased.

Their Accounts Did Not Agree.

It must be generally admitted that the members of the recent delegation to Fredericton fully deserve their pay and that their expense bills are light enough. The only puzzling thing about the matter is that there is a difference in the individual accounts. Alds. Blizard and Kelly, to be sure, were there twice and it will be readily understood why their bills are the largest, but as the former is for \$13.75 and the latter for \$14, the question arises what Ald. Kelly bought with the odd 25 cents. In the same way Alds. Chesley and Mr. McKelvie charge an even \$8 each,

while the recorder appears to have spent 20 cents more for something. One can get two cigars for 20 cents, but the recorder is not much of a man for cigars, as a rule. The account of Ald. Baskin, who is a bright and shining light in

temperance organizations is scheduled at the ridiculously small sum of \$6.30. It is quite evident that he has determined to retire from the council with a reputation for economy in the expenditure of public monevs.

The above is the famous "Poe" poem that gave Riley his first notoriety. It was carefully studied by Ralph Waldo Emerson and other prominent authorities, and pronounced by them to be undoubtedly genuine. Rıley's strong gift of imitation has al-ways been regarded by himself as against his liability to turn out strictly original work, and for that reason he avoids a too close study of any particular writer.

Boyhood of Robert Burns.

Robert Burns was born January 25, 1759, in a cottage about two miles from Ayr, Scotland.

He was the eldest son of a small farmer, William Burness by name. Robert's father worked hard and wished to bring up his children in the fear of God, but had to fight all his days against poverty. Mr. Carlyle says : "Robert was fortunate in his father ; he was a thoughtful, intense nature, valued knowledge, possessed some and openminded for more, friendly and fearless-a man seldom found in any rank of society. Had he been ever so little richer the issue would have been very different, but the whole family were so poor that the children could not even go to a cheap school, and Burns remained a hard-worked plow boy.

The family moved from one unfortunate farm to another. From Alloway, where he was taught to read, he went to Mount Oliphant and then to Lochlea, where he learned the rudiments of geometry. The poet still remained poor. When Robert was 13 years old he threshed the corn with his own hands, and at 15 was the principal laborer. The family kept no servant, and for a number of years butcher's meat was a thing unknown in the house.

Robert once wrote : "This kind of life, Mrs.G.L.Taylor and Miss Louise Otty are staying on that instance. In this connection, a at the Vendome until the doctor's return from Fredthe cheerless gloom of a hermit and the friend of immigrants in general suggest unceasing toil of a galley slave, brought me to my sixteenth year." His naturally that the English, Scotch and Irish, Ald. Blizard Is the Man.

Mr. Rushton married Miss Catharine Smith, of Colne, nineteen years ago. They have had seven children, of whom three are living-Joseph Augustine, Winifred Muriel and William Cyril.

Soon after his assumption of his present position Mr. Rushton preached a characteristic sermon in the cathedral of SS. Peter and Paul, making a strong plea for the classes he had been delegated to assist.

Beans for Horses.

There is no better for horses than beans. They contain more nourishment than oats; and in Spain, Italy and in some parts of Austria horses are fed on beans regularly, as we feed our stock on corn. The use of beans for horses and cattle produces a beautiful, soft, sleek coat,

Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

"I derived very much benefit from Hood's Sarsapa: Ila, which I took for general debility. It built me right up, and gave me an excellent appetite." ED. JENKINS, Mt. Savage, Md.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. BEGOLE, Editor Enterprise, Belleville, Mich.
