SOCIAL AND PERSONAL.

[CONTINUED FROM FIFTH PAGE.]

At six o'clock last evening at the residence of the Mr. and Mrs. Andrew P. Wendell, Daniel street, occurred the marriage of their eldest daughter, Miss Grace Curis Wendell and Herbert Parker Paterson, the well known young stock broker. Relatives and friends to the number of about forty were present to witness the auspicious event, which was most hap-pily celebrated by Rev. Henry Ross. The attrac-tive bride appeared in a rare and elegant silver gray silk, en tra n, beautifully trimmed in old Honiton lace, and crystal beadings; square neck and elbow bouquet of bride's roses with white satin ribbon.

Miss Ruth Marvin, of Newcastle, as bridesmaid, was robed in dove-colored silk, en train, and carried a bouquet of La France roses. Chauncey B. Hoyt was groomsman. As the party entered the drawing room Miss Grace Henderson rendered with usual skill and expression the "Bridal Chorus" from Lohengrin The conclusion of the service was followed by a profuse flow of congratul tions and good wishes

from all present, and these by an elegant wedding lunch of salids, ices, creams, cake, fruit, et cetera, provided by Caterer Green and his assistants, the bride curting the richly adorned bridal loaf. Included among the guests present were Wm. H. Paterson, jr., and Ira Paterson, brothers of the groom; Hon. Stephen Osgood and family of Georgetown, Mass.; Mr. and Mrs. Charles E. Osgood, and Mr. and Mrs. A. N. Parry of Amesbury, Mass.; and Gardener wendell of Boston. The general festivities of the beauty of the height ties following the happy marriage found the height of consummation when Mr. and Mrs. Paterson appeared to take the carriage waiting to convey them to the depot on their bridal trip eastward. The entire company massed together, and with the showering of wedding good lucks fairly overwhelmed the young couple with their prophecies. May every one of them be amply realized, "so say we all of us." As the bride descended the stairs she unloosed the ribbons from her bouquet, while attached to one of the rosebuds was a silver heart. The cluster of flowers was caught by Miss Charlotte Osgood, of Georgetown, Mass., a cousin of the bride. This is prophetic of

FEB. 3 .-- Quite a large crowd assembled in the Masonic hall on Monday night in response to the invitation issued by the firemen. The ball was very successful in every way and the firemen richly deserve the praises bestowed upon them by their guests of the evening. The orchestra, under the leadership of of Mr. T. The introduction of the hose into the decorations showed that some one among the committee possesses ingenuity and a large amount of artistic appreciation. The

dresses of the ladies were, in nearly all cases, neat and pretty; in some cases really beautiful. Miss Janie Wilbur, Woodstock, was unanimously voted Mr. George Baskin spent Sunday here.

A Man Met by Travellers.

A well known travelling salesman for a St. John firm is quite a character in his way, and his way is one that does not impress the average man very favorably. His great specialty, however, is asking questions, and he has few equals. If someone should happen to leave the room, the salesman interrogates his neighbor something after this fashion: "Who's that fellow?" "what's his name?" "Who's he work for?" "how long has he been with them?" when does he go?" "Pears to be a very decent fellow," "where does he go next?" "does he work on commission or get a salary?" "How much does he get?" "Is he married?" "Humph!" In talking to a fellow-traveller about his customers it runs something like this: "When did you get in?" "How are things?" 'How long will you be here?" "Where are you going?" "Humph!" "Who do you sell there?" "He's good." "Do you sell Jones?" "He's not in it." With that he moves away to encounter some

Fortune Telling by the Finger Nails.

Fortune telling by means of the finger nails, onychomancy, as it was called, was common in ancient times. The practice was to rub the nails with oil and soot or wax and to hold up the nails thus prepared against the sun, and upon the transparent thorny substance were supposed to appear figures on characters, which gave the answer required. In more recent times people have been found predicting by means of the nails of the hand and telling the dispositions of persons with certain descriptions of the nails.

A person of broad nails is of gentle nature, timid and bashful. Those whose sides are given to luxury. A white mark on the nail bespeaks mistortune. A Curious Spanish Custom. The slumbers of the infant king of Spain, and indeed the entire palace, are watched throughout the night by a body of men, who, for 400 years, have enjoyed the exclusive privilege of guarding their royal master or mistress from sunset to sunrise. They are bound by tradition to be natives of the town of Espinosa, and to have served with honor in the army. It is they who lock the palace gates with much ceremony and solemnity at midnight, and who open them again at 7 o'clock in the morning. Their fidelity to the person of the sovereign is as traditional as their strange and ancient privilege .- Golden Days.

With returning strength came activity of mind and body. Before the fifth bottle was taken
