## A CAPE BRETON MIRACLE covered their former strength, but it makes citizens placed themselves on the side of me happy to know that if five boxes will the hall named by the orator.

#### A CASE THAT FAIRLY OUTRIVALS THE WONDERFUL HAMILTON CURE.

#### Who Must Soon Go."-An Interesting Story as Investigated by a Reporter.

#### (Halifax Herald, December 16th.)

A few months ago all Canada was astounded by a remarkable cure reported from the city of Hamilton, Ont., and vouched for by the press and many of the leading residents of that city. In the Hamilton case the man (a Mr. Marshall) had been pronounced incurable, and after rigid examination by halt a score of physied and when my limbs become a little stronger I shall be a healthier man than cians, the Royal Templars of Temperance paid him the \$1,000 members of that order ever. No doubt exists in my mind of comare entitled to when pronounced totally plete cure as the worst symptoms have enincapacitated from labor. The remarkable narrative of Mr. Marshall's cure and the remedy to which he owed his recovery the reporter, "I am to work mending nets were given wide publicity by the press throughout the Dominion, and naturally it brought a ray of hope to others who were similarly suffering. Among the homes to which it thus brought hope was that of Mr. Joseph Jerrett, of North West Arm, C. B., and Mr. Jerritt's recovery may be regarded as even more marvellous than that of Mr. Marshall, and many others whose cures have recently been recorded. One son to feel grateful for it as I do. thing, however, is certain, and that is that never before in the history of Cape Breton has medicine wrought such an almost miraculous cure. In the year 1879 Mr. Jerritt received a fall from a truck wagon, wonderful things that had come within the wheel of which passed over the small of his back. Those with him succeeded in their observation. They one and all gave restoring him to consciousness and took the credit to the treatment with Dr. Williams' Pink Pills, and are naturally enthuhim to his home which was near by. For siastic in speaking of them. six months he was unable to perform any The proprietors of Dr. Williams' Pink work and even after a lapse of a year was troubled with severe pains and weakness | Pills state that they are not a patent mediof the limbs. He was able, however, to cine, but a scientific preparation the result do light work about the farm, and about a verse of careful study on the part of an eminent graduate of McGill and Edinburgh Charleston, S. C. While on this trip Mr. universities, and they had for many years Jerritt was engaged in furling a sail, when been used in his private practice before behe overreached himself, and felt something | ing offered for sale throughout the country. start, as though something had burst in his They are offered to the public as a neverleft side. He became almost helpless, and failing blood builder and nerve restorer, on the arrival of the vessel at Charleston, curing all diseases such as paralysis. rheuhe was taken to the hospital for medical matism, sciatica, palpitation of the heart, treatment. Here he remained for over headache, pale and sallow complexion, mustwo months under the most skilful physi- cular weakness, etc. These Pills are also cians. His side became strong again, a specific for the troubles peculiar to febut his limbs grew weak and frequently males, such as suppressions, bearing down the pains were intense. Mr. Jerritt then pains, chronic constipation and all forms returned home, he continued to grow of weakness, building up the blood and worse and the pains never left him. restoring the glow of health to pale and After his return home he made an attempt sallow cheeks. In the case of men they to work but had to give it up, and gradu- effect a radical care in all cases arising depth is not too great. They place on an ally became worse and worse until at last from mental worry, overwork, or excesses incline a series of boxes constructed of he was entirely helpless and was looked upon of any nature by his triends as one who not only could not recover, but whose time on earth was short. It was in this condition, depressed in mind, helpless, and continually suffering intense pain, that at last a ray of hope came to him. One day he read in the Halitax Herald of Mr. Marshall's remarkable cure. Symptoms in this case were those of his own, and despite the fact that he had already expended hundreds of dollars in patent medicines and medical treatment, without receiving any benefit, he determined to try the remedy that had restored Mr. Marshall to health, The result is that he is again restored to health and strength. Hearing from various sources of Mr. Jerritt's remarkable recovery the local reporter determined to investigate the matter, and gives his story as told to him. "In my early days," said Mr. Jerritt, "I was one of the strongest young men in our village. Until I received the fall in 1879 I did not know anything about sickness, and after that time I did not know a perfectly well day. I tried to fight the trouble off and to work, and partially succeeded up to the time I received the strain on board the ship while bound for Charleston. Since then my limbs have continued to grow worse until I was compelled to give up work altogether, and send for a doctor. I may add that all kinds of medicine was tried but none did me any permanent good. The physicians of our place said my disease was locomotor ataxy, and although several of them treated me, none gave much hope of recovery; in fact the impression became general that "poor Joe must soon go." After the failure of doctor's treatment I again resorted to patent medicines of which I believe I have taken \$500 worth. Still my disease grew worse and finally I was unable to even move from my bed. I was advised to again go to the hospital in Halitax, and after spending two months there I returned home only to find myself even worse than before. My legs became so weak that I could not stand alone having to use two chairs to steady myself with; I could not bear my weight on them. For five weeks I was between life and death. My left leg swelled to an enormous size and the duc tors pronounced it dropsy. My feet and legs have been cold for over five years until the last three months. It was impossible for me to sleep with the pain which would continually be in my legs and body. Mustard drafts were applied, but no sooner would they be taken off than the pain would return. About one year ago I lost all feeling from my legs; they would feel like ice and to move them caused the greatest agony. I prayed that God would take me from this world and give me relief from the torment which I was hourly in. Thus I lived; not lived, but existed, a suffering being without one day's relief from the most excruciating pangs from the disease." How the face of the hitherto sufferer brightened as he began to tell of the release, as it were, from death, and continuing he said :-- "But from the blackest day of my sickness a glimmer of hope shone when my little girl who brought home my paper, read the advertisement of Dr. William's Pink Pills, and I got her to read to me the cure effected in the case of John Marshall, of Hamilton. As soon as she read the statements contained therein, I saw at once that his case was similar to mine, and I told my wife that I believed

Lisbonne counted them. There were enable me to stand with just a little assistance more will continue and com- nineteen! With an elegant gesture he plete the cure. Dead legs for a said:

year are not easily made perfectly "I salute you, heroes! I admire you, strong again, but," here Mr. Jerritt and in the name of our great cause I thank Hopeless, Helpless, and Given Up as "One threw both legs high into the air, "this is you; but you perceive that we twenty are something myself or my friends never not enough to clear the hall of parliahoped to see. All my neighbors gave me | ment."

Then turning to the others, he said up for dead, but thank God my strength is "Get out, chatterers! I believe you returning and after three months I feel like will keep still for a while. Go home to of Indigestion or Dyspepsia or money rea new man. You need not fear to state my case plainly, as I am well known in your wives. Since there is nothing to be Cape Breton, and all the people hereabout know how far gone I was. Scores of the neighbors call to see me and are surprised he limped away. There were murmurs of indignation

to find that I am improving daily. My ap-petite has returned; my strength is renew-among the crowd, but no one mentioned Versailles again.

#### MINING IN CHINA.

tirely disappeared and 1 seem invigorated How the Chinese Burrow for Silver Ore, and by the medicine. "You see," he said to the Difficulties They Encounter.

In a paper on Chinese work in the silver as I feel too well to remain idle. Every mines of Mongolia, recently read before person who saw me last July, and sees me the American Institute of Mining Enginnow can bear testimony to the truth of the eers, much interesting information is given story I am telling you. My weight since as to the modes and means employed by I began taking the Pills has increased from the Celestials in burrowing for silver ore. 125 pounds to 146 pounds and I am heav-ier now than I have been for five years. I curious and primitive. After explaining hope what I have told you will induce other that it is only the most promising surface sufferers to try this wonderful medicine, indications that tempt the Chinese miners and I am sure they will have as good rea- to set to work, and that the minimum of trouble is taken in seeking for the material After the interview with Mr. Jerritt, the or in clearing the workings of refuse, the author says that no drilling is reporter called on a number of his neighbors, all of whom endorsed his statements, done, nor is powder used, all the work being performed by hammer and and they considered his cure one the most chisel. The hammers are of cast-iron, weighing 6 lb. to 8 lb., with handles 6 in. long, and the chisels are of iron, tipped with steel. sharpened at the forge and tem-

pered. The hammer-heads are worn in a short time to cup-faced depressions, which the miners seem to think reduce the danger of missing the chisel-head. All the work is single-handed. The miner always sits while at work, with his lamp hanging from a twig wedged across the drift in a convenient position. The waste that has to be taken to the surface is carried up in small, shallow baskets on the shoulders of boys. Poor ore is always taken up in this way, and sorted near the mouth of the workings, while the best ore is taken to the headmen in small lots as fast as it is extracted. Most frequently rich ore must be taken from the vein only in the presence of the inspector.

That which gives the miners most trouble and ultimately stops their work is water. They can handle a good deal of water after their own fashion when the planks, and made water-tight with a putty

The way to procure insults is to submit to them. A man meets with no more respect than he exacts .- Hazlitt.

At this season of the year the effects of catarrh and cold in the head are most likely to be felt, and danger to life and health will result if not promptly treated. For this purpose there is no remedy equals Nasal Balm. It is prompt in giving relief and never fails to cure. Beware of imitations and substitutes. Sold by all dealers, 50 cents a bottle.

The man is ungrateful who denies that he has received a benefit, who pretends that he has not received it, and who does not return it .- Cicero.

# Are You "In the Swim?"

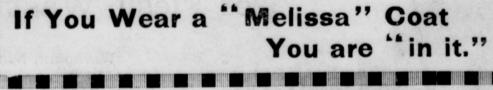

It is said: "You may as well be out of the world as out of the fashion."

In the West End of London, Eng., the fashionable quarter, it is not now considered "the proper thing" to wear RUBBER waterproofs.

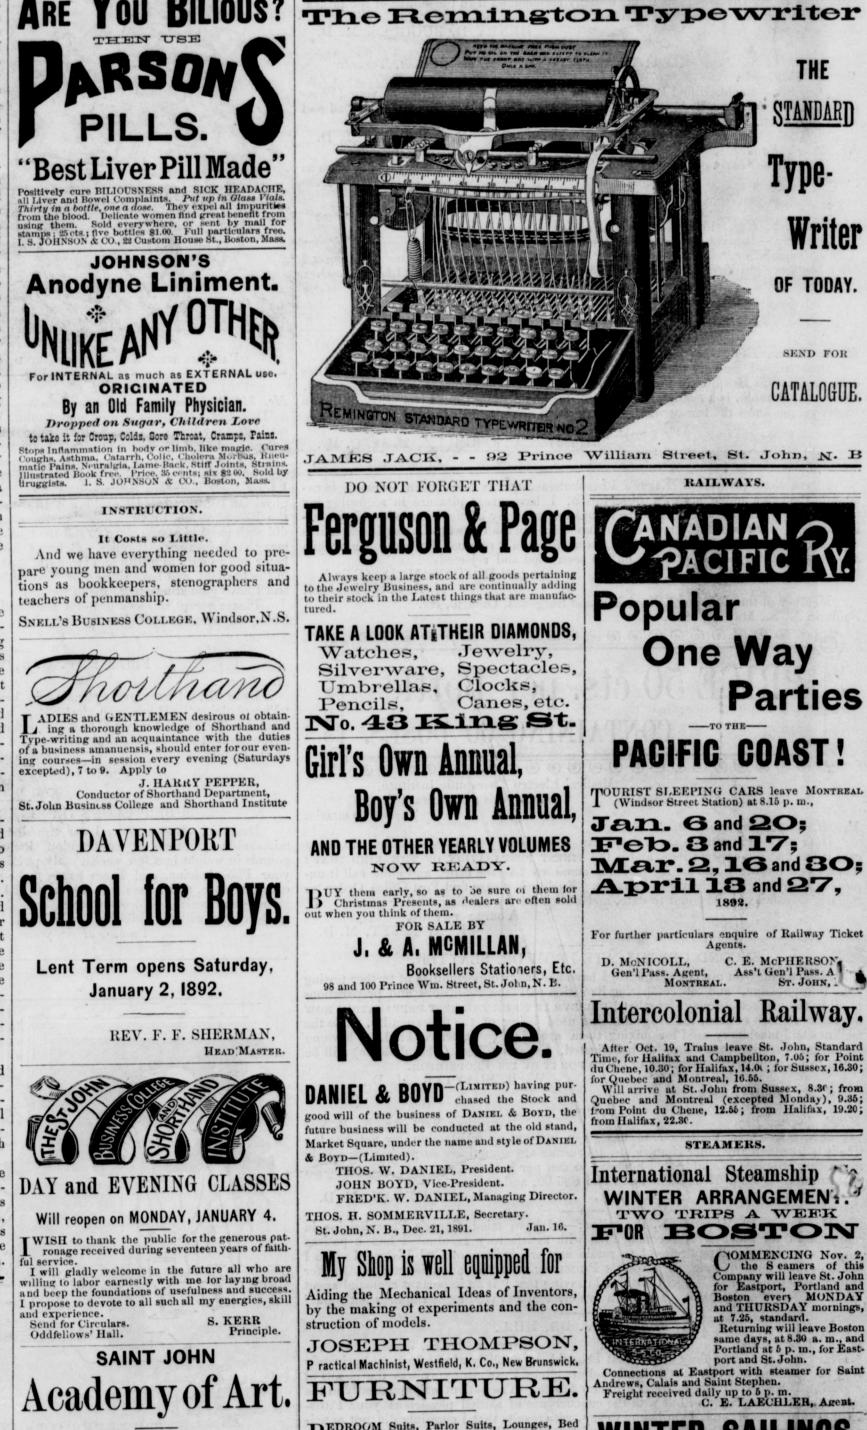

Among the "smart" set it is looked upon as "bad form," and as much out of place for a Man to wear a RUBBER waterproof as for a Woman to wear a bustle.

When a new article suddenly springs into favor and is almost universally adopted, you may be sure it must possess extraordinary merit. "MELISSA" COATS seem to meet every requirement of Health, Comfort and Fashion, and gratify every taste. They are produced in an infinite variety of textures, patterns and styles. To any intelligent person the mere mention of the many advantages of "MELISSA" RAINPROOF GARMENTS over the old Rubber article is sufficient.

No dampness, no chills, no odor, no pulling apart at the seams. A Rainproof and Overcoat combined, with all the advantages of both.

A tull range of MELISSA Goods, Men's, Youth's and Boys' now in Stock. Manchester, Robertson & Allison.

#### QUIETING A MOB.

#### An Incident in the French Revolution that Proved a Great Deal.

The world will never know how much of that men begin to "back out" when they summer months. are asked to fortify an assertion with a signature, or to "stand up and be counted. Even revolutionists do not always have the courage of heroes. An amusing story of a collapse is told by the author of "Les Memoires de Paris.'

On the evening of August 7, 1884, there was a meeting of disaffected persons to discuss the action of the French legislature, then in session. The meeting became more and more noisy. After some comparatively temperate speeches by the exdeputies Marat and Laisant, the anarchists took the floor, and one of them proposed that those present should go in a body to Versailles, invade the hall of Parliament, and turn out the Opportunistes, who, according to the speaker, were nothing but Orleanists in disguise

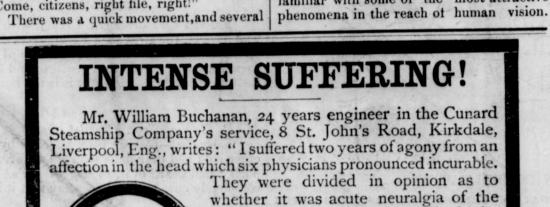

Then Lisbonne, leaning on the stick which he was obliged to use, one of his legs having been nearly paralyzed by a wound received in battle, mounted the platform and cried, "Citizens, you wish to go to Versailles?

"Yes! yes!" they shouted, fiercely. "Very well! I am ready to go. You know me, and where I live. I am Lisbonne. You know my record. I am not content to talk, I act also. In May there were in Paris two hundred thousand persons who shouted 'Vive la Commune;' only ten thousand of these did any fighting. It must not be like that now!"

" No! no!" roared the mob. nine hundred of you who cry, 'We will go to Versailles!' Do you mean it?"

"Yes, to Versailles!" thundered the anarchists.

"We go soon then. But you can understand, since you all know me, that I Versailles come to this side of the hall? Come, citizens, right file, right!"

These are set in caution the public against imitations. steps about three feet apart, and extend to These Pills are never sold in any form ex- a point where the water will run out to cept in boxes, the wrapper around which bears the trade mark "Dr. Williams' Pink Pills for Pale People." They are sold by all druggists or will be sent post paid upon gallons, takes the water from box on which he stands, and receipt of price, 50 cents a box-by ad-dressing the Dr. Williams' Medicine Co., empties it into the one above him, and so on until it reaches the surface. Bailing goes on rapidly with intermissions for rest, and when in full work water enough runs out to fill a 3-inch pipe. This is the hardest work in the mine, and is done by bailers, who are deemed inferior to the miners. In spite of the low wages, it is a serious expense, and unless the deep workthe boldness of the press has been inspired | ings are particularly rich they are often by the editorial "we." It is too common abondoned during the rainy season, to be an experience in all the relations of life bailed out and worked again during the

#### Are the Red Sunsets Returning?

There have been reports recently of the appearance of brilliant red sunsets resembing those that ornamented the evening skies for many months after the tremendous eruption of the volcano of Krakatoa, in the East Indies, in 1883. The fine dust thrown into the higher regions of the atmosphere on that occasion was distributed by aerial currents all over the earth, and had the effect of producing strangely beautitul sunrise and sunset effects, the phenomenon assuming, in our latitudes, the appearance of a fiery glare like the reflection of a distant conflagration.

There has certainly been no general return of such skyey spectacles this year, and yet reports from various sources seem to indicate that some increase in the redness of the sunset colors may have taken place. It so, the explanation remains to be found. When the splendid sunsets that followed the Krakatoa eruption began to make their appearance in this country and Europe, it was at first suggested that they might be the result of an encounter between the earth and a cloud of cosmical dust. There was, perhaps, nothing essentially impossible in that idea, but it was quickly abandoned when the evidence began to accumulate that the strange dust came from Krakatoa.

It now a new series of red sunsets should "Good!" went on Lisbonne; "here are make their appearance, without being preceded by any extraordinary volcanic explosion, it is probable that the cosmical dust theory and other perhaps equally in-teresting theories would again be put forth to account for it.

But the first thing to be done is to make wish to know you also. I will take down your names and addresses. Will all those der than usual; and anybody who chooses certain that the sunsets are really any redwho will go with me to-morrow morning to to look can help to settle that question, while at the same time making his eyes familiar with some of the most attractive

I would be a well man again if I only could succeed in obtaining some of this medicine. I sent to our drug store but found none there; I then decided to send to Brockville, Ont., for the Pills, but my neighbors only laughed at me, saying that they were just like all other patent medicines, no good. This was in August; I forwarded the money and in a few days received wo boxes of Pills, deciding to give them a fair trial. After taking them a short time the pains left me, and today 1 am not troubled with an ache or pain. True, my limbs have not yet entirely re-

head or rheumatic affection of the brain, but all agreed that I could never recover. In my paroxysms of pain it needed two and sometimes three men to hold me down in bed. When at death's door, ST. JACOBS OIL was applied to my head. It acted like magic. It saved my life. I am well and hearty, and have had no return of the trouble." "ALL RICHT! ST. JACOBS OIL DID IT."
