The beautiful day and the excellent playing of the Leicestershire band drew a large number of people to the Wanderers' ground on Saturday to see the cricket match between the Wanderers and the Garrison. The former were successful and showed some very pretty playing. Cricket is not fashion-able, for many reasons, but no doubt the forthcom-ing cricket tournament will be the means of reviving this, at present, somewhat dead sport. One can remember the excitement these huge grounds of fashionables that used to turn up at the old Garrison ashionables that used to turn up at the old Garrison grounds on Liverpool road on a cricket afternoon. It must be about fifteen or sixteen years ago since the great tournament, when the Philadelphia and Ottawa teams came here. For more than a week Ottawa teams came here. For more than a week the cricket ground was the centre of attraction for young and old, fashionable and unfashionable. And many were the good bits of piay, and many were the close matches. I can well remember the interest when the Philadelphia team played a game of baseball after one of the matches and the aston-ishment and wonder of the Halifaxians at their coldine. The forth Rifles and the S7th were in this fieldings. The 60th Rifles and the 87th were in this station then, and in the former especially were many good players. Let us hope that the approaching tournament will be as successful. During this present warm weather, the fortunate

people who own yachts have been extremely fortun-ate, for it is the one sport and amusement that fits in during such weather. Yachting men are very selfish and not at all considerate to the female sex. They only take other men out in their yachts, but They only take other men out in their yachts, but leave the ladies at home, because they are such a bother. As a rule this is too true, the average woman in a yacht is like a fish out of water, if one can use a nautical term. She does not know what to do with herself, where to sit, or what is more im-portant, how to efface herself when occasion re-quires. Therefore men do not like yachting parties ires. Therefore men do not like yachting parties when ladies are present.

There have been numerous deep-sea fishing parties There have been numerous deep-sea using parties during the last week, and a very pleasant way it is of spending an afternoon, if the sun is not too hot and if the fish will bite; some heavy catches were made. What steam launches there are have been in great demand, and there have been numerous parties and many. What more pleasant that a in great demand, and there have been authors a parties, and many. What more pleasant that a trip out to sea, or round the point and up the arm or up the basin to Bedford. I have often wondered that more people do not go to such places as Herring Cove and Ketch Harbor to spend the day. Herring Cove and Ketch Harbor to spend the day. The former in particular offers many advantages for picnic parties, and capital sea bathing can be enjoyed at Ketch Harbor. The two American yachts, one a steam and the other a schooner sailing have attracted much notice, the steam yacht, to look at, makes one very envious and re-minds us of the adage, that it is not so much what we have not, as what other people have that makes

us discontented. Both Mrs. M. A. Curry and Mrs. Kirkpatrick have been receiving this week. Mrs. Curry's first day was on Monday and very pretty and tasteful was her house. She wore a very beautiful and be-coming dress of grey and pink, with shoes and stockings to match. She looked extremely smart and stylish. St. John girls undoubtedly, dress much better than their sisters of Halifax and are more complete in every detail. Halifax girls are apt to be very incomplete and seldom carry out a dress as be very incomplete and seldom carry out a dress as it ought to be carried out and often fail in some very even though small detail. ## AMHERST.

[PROGRESS is for sale at Amherst, by George Douglas and H. A. Hillcoat.] JULY 13 .- The most pleasant and best located

picnic so far this season was that which went t Cape Tormentine on Friday, under the auspices o the baptist church and A. M. band, a combination that never fails to furnish sufficient attractions please the most critical pleasure seekers. The Cape is generally considered a very pretty spot in summer, but when visited with such congenial company on a day that seemed made to order, it was perfectly charming, especially as there was just briedly characteristic energy and a pleasure that could be fully enjoyed by the inexperienced without fearing the terrible grasp of Neptune. I haven't the slightest intention of advertising our band, but it is certainly indispensable on such occasions, not solely on account of individual charms, although they are generally thought "rather fetching," but it is when marching out, arrayed in their very becoming blue and gold that their attractions become irresistable, particularly on fete days as proved by the immense crowd that participated in the above event, the net proceeds of which amounted to up-

event, the net proceeds of which amounted to up-wards of \$200. The picnic which takes place tomorrow at the ex-perimental farm, Nappan, is very pleasantly antici-pated. Col. Blair is such a renowned host that all who are invited to spend the day on his beautiful domains feel they will be amply rewarded for all over-exertion they may undergo. The first garden party of the season was given by Mrs. Lamy on Saturday afternoon at her beautiful residence on Victoria street. Their grounds are among the prettiest in town, and as it was the first

among the pretiest in town, and as it was the first festive occasion since moving into the new home, it was greatly enjoyed by the many guests present. The day was all that could be desired, consequently some very elegant summer toilets were worn. Particularly noticeable were those of Mrs. A.J. Dickey, Mrs. W. D. Douglas and Mrs. C. O. Tupper The hostess was very handsomely dressed in a gown of black satin of exquisite fit, and was assisted in re-ceiving her guests by her charming daughters, the Misses Tighe. The sterner sex was rather slimly represented, but made up in quality what it lacked in quantity. Tea was served in a very unique and elishable manner from a picturesque log cabin o purely primitive design, if not proportion Mrs. R. C. Fuller gave a delightful party on Tuesday evening to the young Misses whom I feel

as the in saying enjoyed themselves very satisfactorily as dancing was one of the amusements and at present is considered the leading entertainment with rtain set. Mrs. W. D. Main who has been visiting her

aughter in Truro for the past three weeks returned ome on Saturday.

Mrs. Norman-Lee, the wife of the popular gar-rison chaplain, leaves this week for England and will spend a year with her triends, she goes first of Il to Clifton, near Bristol. Dr. Tobin left on Monday for England and will

spend at least two months in visiting the different hospitals of London, Paris and Berlin.

On Monday night the Frawley company had a bumper house, under the patronage of the general and the governor. Everyone was glad to see this most excellent company back again, if only for a a short two weeks. The house looked very nice, as only a Halifax house can. Many theatre parties have been made for this and next week, and last night a very recherche and select few had a merry

little supper. The one excitement that Halifax people are looking lorward to is the first dance at Admiralty house, invitations for which are just out, it is to take place on the 26th

on the 26th. Tonight a farewell dinner will be given at the Ar-tillery mess for Mrs. Ryan, who leaves for England next week. This is rather a new departure to give a dinner to a lady. But although new it is an ex-tremely pleasant one and much more of a compli-ment than the common or garden party, and one that an darkt Mrs. Prese will appreciate that no doubt Mrs. Ryan will appreciate. by Dr. Walsh, of Londonderry, in the presence of an immense crowd of people. It was somewhat of a disappointment that Archbishop O'Brien, who was announced to lay the stone, was unavoidably detained in Halifax. The ceremony was most im-pressive and beautiful, and Dr. Walsh was assisted throughout by Rev. J. Mihan, of Amherst, and Rev. P. Egan. The church is to be built of stone and when finished will be the finest in Springhill. The members of the Wellmgton L. O. L., No. 74, must feel pleased over the result of their picnic and celebration on Tuesday. Twelve cars of excursion-ists arrived from Pictou and Westville during the forenoon, and members and delegates from the various Orange lodges throughout the Province kept arriving until 3 p. m., when the grand pro-cession formed and paraded the principal streets, each lodge bearing its own banner.
