things which no man in his right senses would have done. As an illustration,-A wedding had been arranged for 8 p.m. Nine o'clock came, but no parson. Shortly after, some one sallied out in quest. First to his boarding house, then from one house to another, while at eleven past they found him on the Bridge Road. Expostulating with him for his neglect or forgetfulness, he coolly said, "As it is so late he had better wait until to-morrow." After awhile he consented and married the couple just as the clock struck twelve. I could give you many other instances. Eleven years ago he fell from bis roof and severely injured his skull and spinal chord. Dr. attended him several times a day for three weeks, when on account of unfavorable symptoms he had a consultation. He was not able to get to church from November to Easter. Dr. ---- looked through his notes the other day and he thinks he is certainly insane.

Since the above was written it is stated that Judge Palmer has granted an order for the arrest of Mr. Stevens, who will be held to bail on the charge of alienating the affections of Mrs. Nase, depriving her husband of her society, &c., &c., &c.

Feb. 1.-In the present state of public opinion concerning the organ question which seems to be 'not any more just now thank you," I am doub and whether I dare mention the subject, but yet I can not see why the latest acquisition to Moucton's collection of fine organs should not be entitled to honorable mention as well as the others, so I will take the risk, and abide by the consequences.

The newest organ is the property of the congregation of St. John's presbyterian church and they have every reason to feel proud of their purchase. It. was built by Messrs. S. W. Warren and Son of Toronto, aud cost iucluding the hydaulic motor for blowing and expenses of setting us, \$2,700. It also possesses the advantage for patriotic minds of being entirely of Canadian manufacture, and in the opinion of competent judges it compares favorably with the best instruments turned out by American manufacturers

The public were given an opportunity of hearing the organ on Friday evening, when a recital was given, at which Prof. Hutchings and Miss Jean McDougall delighted the large audiance with their • musical skill. The church was so full, that chairs and benches had to be placed in the aisles to accommodule the later comers. The recital was a success in every respect, the performers fully sustaining their high reputation as musicians. Prof. Hutch-ings is a talented organist, and Miss McDougall has a voice of rare sweetness and volume. Her solo, "Jesus Lover of my Soul" was perhaps the gem of the evening, and though sung as an encore, she was obliged to respond to a second encore, before the Miss Ada Milliken left town last week to attend
