JAN. 18 .- The organ recital in the Central methodist church, on Friday evening was the event of last week, which was otherwise a quiet one in society circles. The announcement that Mrs. Harrison will sing never fails to draw a large andience in Moneton, but when the attractions of Prof. Ryder, of Boston, and Mr. Cadwallader, organist of the Marysville methodist church, were added to the proposed bill of fare a rare musical treat was anticipated, and the expectation was more than realized; for the recital was pronounced one of the best musical entertainments ever held in Moncton. The church was filled almost to overflowing and the audience was fully as enthusiastic as it was large. Mrs. Marrison was in excellent voice and her solos were received with rounds of applause, especially the one in which Mr D. Stewart accompanied her with a cornet obligato. The chorus by the choir, led by Mr. J. H. Wetmore, was well received, but the gem of the entertainment was "A Tempest at Sea," by Prof. Ryder, which held the audience spell-bound by its exquisite melody and wonderful execution. The organ is a very fine one and the congregation of the so excellent an instrument. I believe Mr. Cadwalladar has been spoken of as the possible organist, but a choice has not yet been definitely made. The ladies of St. George's church have originiated

a new device for providing entertainment for those in search of amusement of a mild nature, and at the same time turning an honest penny, for the church sist of music, readings, coffee, and cake, conversavarious useful, and ornamental, articles at the close. A very successful one was held on Wednesday evening, and I believe they are to be continued opinions by his ability as an auctioneer, and almost succeded in convincing his hearers, that he had mistaken his vocation in life, and should be wielding the auctioneer's hammer, which in his hands would prove mightier than the word.
