better number of guests present than might have been expected. The sports went off capitally, the officers' race being most amusing as regards the handicapping. There was more to chronicle in the way of wraps and macintoshes than in smart autumn gowns, and people as a rule looked chilly. Mrs. Hamilton presented the prizes for the different events, that for the officers' race being won by Mr. Osmond, H. M. S. Blake. There were twenty-four entries, the R. A. and R. S., the navy, and the church, all being represented as well as the King's regiment. \* \* \* Among the events of this week was a very pleasant supper on Sunday evening at the Claremont, given by the guests of that popular hostelry, among whom are Major and Mrs. Mellor Captain and Mrs.

Fleet, the Misses Nicholson and other well known people. In the list of invited guests were Sir John and Lady Hepkins, Mrs. and Miss Daly, Captain Elliott, Colonel Lee, Mr. Brush and others. The whole affair went off very well and was very cheerful.

The Crescent A. C. C.'s concert on Thursday evening has the attraction of two singers who are old favorites here, Mr. and Mrs. Blackmore (nee Miss Laine), and a totally new violinist, Herr Max Weil, of whom one hears very good reports. Under these circumstances a good house is pretty certain, and the Crescents should make the money their enterprise deserves.

The athletic sports of the Royal Artillery are fixed for Friday afternoon at the grounds of the Crescents. If the day is fine a very cheery afternoon ought to be spent, but no out of doors amusement can be settled upon with any accuracy just now.

The concert given by the Messrs. Walther last Friday was a great success, Mr. Carl Walther's playing of Spanish dance of Sarasate's being especially and markedly good, and Mr. Bernhard Walther doing also a great deal for the success of the concert. Neither Mrs. Campbell nor Mrs. Nugent were able to sing, and their places were taken by Mrs. Lear and Herr Doering very acceptably.

Mr. W. B. Almon Ritchie has returned from a short visit to England.

Mr. and Mrs. Arthur G. Troop have arrived and are at their house in Church street, after a honey moon spent in England and the South of France. Mrs. Troop's many friends in Halifax will be glad to welcome her as a resident. She will not be at home to her visitors, I understand, until next week. \* \* \*

A fresh lot of Halifax people went off to the Chicago Fair this week, and more are going next week. The heat and other reasons kept people away during the summer, but there is something very nearly approaching to a rush westward now. General and Mrs. Montgomery Moore returned last week, after a most enjoyable trip to Chicago and Toronto.

Mr. James Greenwood has returned from the North West, where he has been visiting his daughfrom Ottawa. \* \* \*

Today marks the commencement of the foot ball season, by the game between the Garrison and the Navy. For four or five weeks all Halifax, rich and poor, high and low, will be much excited over the merits and demerits of the respective teams. The Navy appear in competition for the first time, they and no formality. are able to do this because the Blake is to stay here later than usual, well on into November. The Navy have played many games here before, but never in the cup competition. Some of the best games ever seen in Halifax, have been the local clubs against the Navy. Ladies in Halifax are much interested in foot-ball, and some are great authorities on the subject, know all the rules and all the bits of play and can talk as learnedly in the game as any school-boy. Everyone turns out to these matches and suffers much by so doing. It would be an advisable thing, considering the large profit there must be, if better accommodations was provided for ladies, a place should be roped off, securely, where they would not be jostled or shoved by some excited enthusiast, and when it would not be so damp as the field generally is, I do not mean. that brussels carpets and lounges be provided, but ordinary ropes and boards.

It would be difficult, if not impossible, to make a forecast of this year's games. If, however, the garrison and navy combine to form one team, I think it will be impossible for either the Wanderers or Dalhousie College to hold their own against them. Both of these teams have lost some of their best men, and don't seem to have any particularly good ones coming on. The Wanderers intend working hard, Truro, spent Sunday with Mrs. Simon Fraser. and have taken a gymnasium, so that they may de-

That they will be appreciated, goes without saying, for the lonliness of the North West in winter, must be frightful,—only the other day there was a para-graph in the papers stating that two thirds of the female patients in a Lunatfc Asylum, somewhere in the longing the second science of four the lonling. the North-West, had become insane from the lonli-ness of their existence. A box of books and magaz-ines received from the far East, would, it seems to me, be a greatful break on the everlasting dullness of the frontier. As it is no trouble to those furnishing the books, and as it is a great pleasure to those receiving them, I must say I think it very hard that charitable ladies like Mrs. Montgomery-Moore, should be ridiculed, and almost abused, for doing such work. I can only hope that the organization

Messrs. Hanington Bros. Dear Sirs,—tor several years past I have suffered everything but DEATH with DYSPEPSIA and PALPITATION OF THE HEART. I tried the best doctors in Boston spending over ONE HUNDRED DOLLARS best doctors in Boston spending over ONE HUNDRED DOLLARS for medicines without getting the *slightest* relief, but on the contrary was *worse* than when I employed them, and had given up all hope of ever getting better, and telt that death would be a great relief. I came to St. John abcut three months ago, and a lady friend seeing my intense suffering, told me to get at once **Hanington's Quinine Wine and Iron**, and **Tonic Dinner Pills**, as she had been troubled in the same way, and HANINGTON'S QUININE WINE AND IRON taken with the TONIC DINNER PILLS, had perfectly cured her. I thought it would be like all the other medic-ines I had taken—of no benefit to me; and I was careless about getting them, but she insisted, and I tried them. To my great astonishment after using them for a few days, I commenced getting better, and now I feel like a new person, well and strong, free from Indigestion or Palpi-tation of the Heart, and able to do my dally work as well as anyone, and I have great [pleasure in recommending your medicines to the and I have great [pleasure in recommending your medicines to the afflicted.
