Clifford Blackman A Boston Boy's Eyesight Saved—Perhaps His Life

By Hood's Sarsaparilla—Blood Poisoned by Canker. Read the following from a grateful mother: "My little boy had Scourful Fever when 4 years old, and it left him very weak and with blood poisoned with canker. His eyes became so inflamed that his sufferings were intense, and for seven weeks he could not open his eyes. I took him twice during that time to the Eye and Ear Infirmary on Charles street, but their remedies failed to do him the faintest shadow of good. I commenced giving him Hood's Sarsaparilla and it soon cured him. I have never doubted that it saved his sight, even if it was very late. You may use this testimonial in any way you choose. I am always ready to sound the praise of Hood's Sarsaparilla because of the wonderful good it did my son. BERNIE F. BLACKMAN, 2888 Washington St., Boston, Mass. NEWCASTLE.

[Progress is for sale in Newcastle by Mex Atkins.] The moonlight excursion, under the auspices of the Boys' Brass Band, on Friday evening, was a grand success. The attendance was very large, there being over two hundred people present. The music, consisting of orchestra and Brass Band, was very fine. Everybody enjoyed the beautiful moonlight sail and the selections by the band. There was a display of fireworks during the evening, as the boat steamed up and down the river. Large crowds at Chatham, Douglastown and Nelson were greatly disappointed as the steamer did not call at any of those places. The excursion was considered the most pleasant of the season. The boys intend holding a picnic at Millerton on the 20th of September. All who attend may expect a good time.
