Football is just now the great interest and in spite of the unpleasant day there was quite a gathering of spectators at the Polo Ground on Saturday afternoon, to see the first game of the season; this was between the army and navy, and was played to decide whether a United Service team should be entered to play for the trophy, or one from each branch of the service. Nothing was decided on Saturday, and a second game was played on Monday, with the result that a joint team composed of both army and navy is entered for the trophy series. As army and navy is entered for the trophy series. As things are now arranged the United Service will play the Wanderers to-day, and Dalhousie on Wednesday next, and the greatest possible interest will be taken in the games. On the two following Saturdays the same teams will play, as the ships are to leave here on the last day of October and the United Service games must be finished before that date. The two first weeks of November will see the Wanderers and Dalhousia nitted against one another, by derers and Dalhousie pitted against one another, by which time there will doubtless be excitement enough and to spare on the merits of the respective

The harvest festival held at the Garrison chapel on Sunday evening last was one of the prettiest ever seen here. The arrangment of fruit was especially noteworthy and effective, and the effect of the decorations particularly good. I hear that among the ladies of the garrison taking an interest in the festival the Hon. Mrs. Montgomery Moore and the Hon. Misses Colborne were prominent.

Thursday evening is appointed for the harvest festival for St. Paul's church and among the ladies and gentlemen assisting the choir are Mrs. Hagarty, Mrs. Taylor, Mr. Dodwell and Mr. George Burgoyne. The music of this service will be especially

The weather on Tuesday was not very fine for the grand attack on the town by the navy, and its detence by the regulars and the militia. But in spite of the showery weather the manœuvres were witnessed by a good many people, who turned out to see the ships come in under a supposed heavy fire from the torts in the harbour. The show was over at an early hour in the afternoon, though some of the soldiers posted at a distance did not get home until after dark, very weary and very muddy, but covered with martial glory, as the navy were under-stood to have been repulsed with great loss. For the lookers on there was really not much to see, the lookers on there was really not much to see, except the smoke from the big guns at the forts, and the ships firing. The prettiest part of the affair was perhaps the entrance of two torpedo boats into the harbor after dark, with the search light playing upon them. The squally day kept many people at home who would otherwise have gone out on the water to see the ships come up, so that the whole scene was not as animated as past days of the same sort. * * *

Several dinners have been given this week, one of the largest by Mr. and Mrs. T. E. Kenny at Thorndale. Next week there will be a large dinner at Bellevue House, where General and Mrs. Montgomery Moore thoroughly understand the art of dinner-giving.

By the way I am told that the Lady Aberdeen society on which there has been so much journalistic comment, decided at its last meeting that much good could be done by sending good reading matter to out of the way places in the home provinces. This branch of work deserves as much encouragement as the sending of literature to the far North West, and will be appreciated in the proper quarters.

The Grau Opera Company opened to an enormous house on Monday evening, and should do well dur-ing their three weeks' season of the attendance is an earnest of things to come. Miss Edith Mason's singing is much improved since her last appearance in Halifax. For the production of "Dorothy" every possible attraction had been got together, not the least of which was the appearance of a pack of local fox hounds (or shall we say wild-cat hounds") on the stage.

CHARLOTTETOWN, P. E. I.

PROGRESS is for sale in Charlottetown by S. Grey, Bazaar Co., and Carter's Bookstore.] There is not an overflowing quantity of news this week from a society standpoint. The continuous wet weather was quite enough to put a "damper" in more than one sense of the word, on gaities of any kind; but there has been one or two very small social affairs, the first one being an "at home" on last Thursday aftereoon, at Mrs. Hensley's; fifteen or twenty guests were present, and the two hours of triendly chat, over an afternoon tea, were very pleas-

On the same evening, Mrs. L. H. Davis, entertained a few guests. There was music and cards, followed by supper, and a very enjoyable evening went quickly by. On Friday last, the news of the death of William Stair, was received with much regret. The deceased

was a general favorite, and endeared himself to all who had the good fortune to know him, by his genial manners, and geniune good heartedness. He was a member of the "Examiner" staff, but apart from that was best known in his connection with the Y. M. C. A., and as a teacher in gymnasium. He was also an active member of the "Harbor Light."

The members of Mr. Percy Pope's Amateur Dramatic club are very busy practising for the theatricals advertised to be held on the 25th and 26th of November. But it is thought that the date will have to be changed until late in the season, as the preparation of "The Russian Honeymoon" is going to take longer than was at first thought for, and the actors are so many of them engaged in the work actors are so many of them engaged in the work, that they think they will have to postpone the opening of the new hall, until late in the season.

An attack of Rheumatism is usually preceded by Pain in the Joints and Muscles, with more or less "Malaise," and with this warning the actual attack may be ushered in with most severe pain which may attack any joint, but most usually the knee, ankle, elbow or wrist. The afflicted part is extremely painful, tender, swollen and hot, and there may be fever, with profuse sweating. The pain is intensified by the least movement, and has a tendency to migrate from one joint to another.

WHAT TO DO—Go to bed at once, between good woolen blankets, and wear a flannel bedgown, dine on light, nutritious diet, abstain from Meat and Stimulants, wrap the painful joints in flannel wet with "SCIATICINE" LINIMENT, and cover with cotton wool, and take "SCIATICINE" MIX-TURE internally and you will get immediate relief. Then avoid exposure to cold and damp and wear flannel next the skin always. Continue taking Sciaticine for two weeks after the pain has gone, to prevent recurrence of the attack—and if you feel "used up," take HANINGTON'S QUININE WINE AND IRON to tone up the system and Improve the Blood as Rheumatism is apt to recur when the system is weak. These medicines can be had of any reliable druggist in Canada.
