The season of dances is for the present over, and
The season of dances is for the present overy and
the season of athletic sports has set in, with promises

of football next mouth. The Wanderers' annual sports have never had so small a number of spectators as on Saturday last. Why, it would be impossible to say. The sports themselves were very good, rather above the average, but whether they were elsewhere or staying at home to rest after the fatigues of the past week, they certainly did not show up to any extent at the

Wanderers' grounds.

This week the King's Liverpool regiment holds its sports at the grounds of the Crescents, on Jubilee Road. The attendance will doubtless be far larger than at the Wanderer's sports, since it is a matter of invitation, and all society has received cards. In years gone by regimental sports were often held in the barrack square at Wellington Barracks, but I believe the hard, stony ground was answerable for a good many accidents, so that now some grounds are always engaged for the annual show of the regiment stationed here.

The sports of the R. A. and R. E. come next on the list, and with October we are to begin the foot ball season. The men of the Liverpool regiment play foot ball very well, I hear, but go in more for Association than for Rugby.

The summer visitor is beginning to leave for winter quarters, so unusually chilly is the season here. Mr. and Mrs. Carroll, of Baltimore, who have been so well known socially during their stay here, leave next week for their home. The Misses Donell have already left. The Misses Nicholson, of St. John, do not leave for some short time.

The Masonic body is certainly not an idle one, or a slumbering one at present. Instead of resting after the success of their mammoth bazaar, they are taking an interest in one which is taking place, this week, at Windsor.

Socially also, they are not dull, judging from the very pleasant "at home" which took place at the Masonic Hall, on Tuesday evening, at which there were about a hundred and fifty people present.

Entertainments, theatrical and musical are crowding on us at present, the Walther concert which takes place on Friday, of this week, opening the ball. Mr. Carl Walther has secured the assistance of Mr. and Mrs. Bernard Walther, Mrs. Kennedy Campbell, Mrs. Nugent, Mrs. Boz and Captain Fleet of H. M . S."Tartar."

Mr. Carl Walthers goes back soon to England, but Mr. and Mrs. Bernard Walther will remain in this country and take pupils, both being very capable teachers. They intend, I believe, to settle in

Next on the list comes Arthur Rehan with his company of players, at the Academy of Music, where they will produce plays refreshingly new to Halifax; and after them, the Grau Opera Company, appear in comic opera for three weeks. No one, at this rate, can complain of not being well catered for in the way of amusement. The only thing to be marvelled at, is where a good many people who attend night after night, get the money to do so.

The Orpheus club has gone through its business meetings and will commence practices next week on the winter programme. The new blood in this organization should mean something if report speaks truly, and the first concert will be awaited with interest. Only four concerts are to take place this season, the sebscription of which is to be seven dol-lars. Dr.Slayter has retired from the presidency of the club, and his place will be taken by Mr. G. * * *

Owing to an oversight of mine on the train arrangements, my notes of last week's gaiety were very scanty. One thing which struck me about the various dances was the number of very good dresses worn at them, not as has been too often the case in former years, by the summer visitors and the belles of military and naval circles, but by the Halifax laides themsolves.

Not only were the gowns well made, but they were in most cases rich and beautiful material, and the improvement since last summer in that way most

Millinery show days have been the chief frivolity of the week, and some of the hats bought by the leaders of Society have been wonderful indeed, and the chief topic of conversation at teas just now where men are not abundant are winter garments which really seem needed already.

H. M. S. Blake went into the dry dock on Monday last, where she will be painted and made smart for the winter. People walk up to see her a great deal, in the dearth of afternoon amusement, and a really wonderful sight she presents.

Wednesday was the last yacht club day for the season, most probably, the Youla and the Wyn having already been laid up for the winter. There was a very good entry, however, consisting of the Valkyrie, Irene, Etienne, Hildred, Daphne, Mentor and Meda.

By the way, Lord Dunraven, the owner of the R. A. and R. E. boats' name sake, that Valkyrie of international interest, was at one time very well known in Nova Scotia, where he went in for moose hunting very thoroughly, and not, if report speaks truly, with the greatest respect for the game laws. I hear he is likely to visit this province if all goes well with his yacht in her race with the Vigilant.

Captain and Mrs. Fleet are among late arrivals, the latter being among the guests at the Clare

Mr. and Mrs. Frank Roberts have gone to England on a short trip.

Mr. Joseph Kenny son of T. E. Kenny, M. P. goes shortly to Harvard university, where he will go through a post graduate course in the law

Mr. William Cunard arrived from England last week and was for a few days the guest of Mr. and Mrs. George Francklyn, at Emscott. Mr. Cunard and Mr. F. ancklyn lett for the Chicago exhibition on Monday. Among others on the list of departures this week for the Fair, are Mrs. Michael Dwyer, Mrs. C. J. P. Clarkson, Mr. and Mrs. J. W. Allison, Miss Prescott and the Misses Allison.

Major Hodgson, R. A., left last week for Boston to meet Mrs. Hodgson and Mrs. Drayson, who are coming from England via New York.

Mrs. and Miss Courtenay have changed their plans for this winter, which they will spend in the Southern States and not in England. The bishop on their departure will take up his abode at Hillside hall, Bishopsthorpe having been let

to Major and Mrs. Hodgson. There is some talk of going on with the entertainment proposed and abandoned last spring, which was to have been for the benefit of the Sailor's Home. Various ladies are taking an interest in getting it up, but it does not seem an idea likely to work well here as it is not particularly interesting in any way. The Masque of Months is I believe the name of the proposed entertainment, and, has been most successful in other parts of Canada, which oddly enough does not mean success in Hali-fax. Time will tell, however, and a very energetic body of ladies have the affair in hand.

Dear Sirs,—for several years past I have suffered everything but Death with Dyspersia and Palpitation of the Heart. I tried the best doctors in Boston spending over One Hundred Dollars for medicines without getting the slightest relief, but on the courtrary was worse than when I employed them, and had given up all hope of ever getting better, and felt that death would be a great relief. I came to St. John about three months ago, and a lady triend seeing my intense suffering, told me to get at once Hanington's Quinine Wine and Iron, and Tonic Dinner Pills, as she had been troubled in the same way, and Hanington's Pills, as she had ben troubled in the same way, and Hanington's Quinine Wine and Iron taken with the Tonic Dinner Pills, had perfectly cured her. I thought it would be like all the other medicines I had taken—of no benefit to me; and I was careless about getting them, but she insisted, and I tried them. To my great astonishment after using them for a few days, I commenced getting better, and now I feel like a new person, well and strong, free from Indigestion or Palpitation of the Heart, and able to do my daily work as well as anyone, and I have great pleasure in recommending your medicines to the afflicted.

Yours truly,
