There never was, and never will be, a universal panacea, in one remedy, for all ills to which flesh is There never was, and never will be, a universal heir—the very nature of many curatives being such that were the germs of other and differently seated diseases rooted in the system of the patientwhat would relieve one ill, would in return aggravate the other. We have, however, in Quinine Wine, when obtainable in a sound unadulterated state, a remedy for many and grievous ills. By its gradual and judicious use, the frailest systems are led into convalescence and strength, by the influence which Quinine exerts on natures own restoratives. It relieves the drooping spirits of those with whom a chronic state of morbid despondency and lack of interest in life is a disease, and, by tranquilizing the nerves, disposes to sound and refreshing sleep—imparts vigor to the action of the blood, which, being stimulated, courses throughout the veins, strengthening the healthy animal functions of the system, ening the healthy animal functions of the system, thereby making activity a necessary result, strengthening the trame, and giving life to the digestive organs, which naturally demand increased substance—result improved appetite. Northrop & Lyman, of Toronto, have given to the public their superior Quinine Wine at the usual rate, and, gaged by the opinions of scientists, this wine approaches nearest perfection of any in the market.
