She tried three of the best doctors in the city, but obtained no relief, also every remedy that friends would recommend with the same results and continued to grow worse all the time. She was recommended by a friend to try K. D. C. and sent for a sample package. Before taking all of the sample she had symptoms of dyspepsia were gone, and though she has since taken only one sample package, the symptoms have not returned. She has also gained considerably in weight, and her friends are surprised at the change in her appearance. If any person in Toronto suffering from the same disease would like to read on me, I could tell them more fully what K. D. C. has done for my daughter."

Nov. 13.—Mock parliament opened on Friday evening. The benches on both sides of the house were well filled. Major Vance occupied the position of speaker and read the speech from the throne. The main business of the session was the debate on the address. It was moved by Mr. W. S. Saunders in a neat speech, and seconded by Mr. Myles. Messrs. Ketchum, Gallagher, Baird, Lindsay and Carvill discussed freely the shortcomings of the address—taking as their stand its extreme brevity. This to an uninterested observer would present itself as a charm, "briefly being the son of wit" and be a precedent that some members of the parliament could wisely adopt as a model. Messrs. Jones, Appleby, Watts and Prince also spoke on the address. Mr. Samuel Watts, leader of the opposition, was not present, and Mr. T. Carleton Ketchum filled his position. Mr. Wendell Jones, leader of the Government, filled his position in a dignified and statesmanlike manner. THINGS OF VALUE.

"Now is the winter of our discontent," The merchant sadly cries, For when the gladsome summer-time was here He didn't advertise.

There never was, and never will be, a universal panacea, in one remedy, for all ills to which flesh is liable. The most successful and the most critical, that were the germs of other and differently seated diseases rooted in the system of the patient—what would relieve one, in turn would aggravate another. We have, however, Quinine Wine, when obtainable in a sound unadulterated state, a remedy for many and grievous ills. It is gradual and judicious use, the truest systems are led into convalescence and strength, by the influence which Quinine exerts on Nature's own restoratives. It relieves the drooping state of those with whom a chronic state of morbid despondency and lack of interest in life is a disease, and, by tranquilizing the nerves, disposes to sound and refreshing sleep—insures vigor to the action of the blood, which, being stimulated, courses throughout the veins, strengthening the frame, and giving life to the digestive organs, which naturally demand increased sustenance—result, improved appetite, Nostroph & Lyman of Toronto, have given to the public their superior Quinine Wine in the most critical, and by the opinion of scientists, this wine approaches nearest perfection of any in the market. All druggists sell it.

The proprietors claim it will cure any case of cholera or summer complaint.

Mr. W. Thayer, Wright, P. Q., had Dyspepsia for 20 years. Tried many remedies and doctors, but got no relief. For Nine Years—Mr. Samuel Bryan, Theford, writes: "For nine years I suffered with ulcerated sores on my leg; I expended over \$100 to physicians, and tried every preparation I heard of or saw recommended for such diseases, but could get no relief. I at last was recommended to give Dr. THOMAS' ELECTRIC OIL a trial, which has resulted, after using eight bottles (using internally and externally), in a complete cure.
