The Barrister's sleigh drive which was to have taken place on Saturday only came off in a limited degree. Some of the gentlemen who had arranged to dine at Bedford went out on the afternoon train and returned by one of the evening trains which was delayed by the snow until midnight. It is not often that we have too much snow for sleighing, but the only people who really could have enjoyed themselves last Saturday were the Red Cap Snow club; the members of which were out on a long tramp the first for this year.

This club has its annual dinner this week, greatly to the sorrow of a great many ladies who have not forgotten the capital ball given by the club two years ago.

The Bishop of Nova Scotia has returned from Montreal. Miss Isabel Binyon, of Yarmouth, is staying with Mrs. A. M. Doull, Victoria road.

Mr. Ralph Gilpin, eldest son of the Dean of Nova Scotia, and Mr. W. Jones, eldest son of the late C. Matthew Jones, who have been for the past ten years in British Columbia, have returned to Halifax on a short visit to relatives and friends.

Mrs. Binney has had a severe attack of bronchitis this week, but is recovering. Surgeon-Captain and Mrs. Fowler leave for England today, after having been for six years in Halifax. They will be much regretted by their many friends.

Surgeon-Captain Moir, who replaces Dr. Fowler in this garrison, arrived last week from England, accompanied by Mrs. Moir and children.

Major Bannings, King's regiment, goes to England next week on leave. Major Bor, R. E., and Mrs. Bor will be also passengers on the same boat.

The dates for the skating carnivals at Exhibition rink have been fixed. The first will be under the patronage of the private afternoon parties, and will take place on Feb. 5. Thanks to the Sailor's home concert, nearly every Halifax young lady, and a good many men, possesses a new and pretty fancy dress, so that the carnival really ought to be a very pretty one.

The newest idea however is that of the U. P. C. under whose patronage a carnival is to be held in the last week of February, which will last for two nights. Nothing like this has ever been done in Halifax, and it is to be hoped it will prove a grand success.

At the first sessional dinner at Government House on Thursday the following members of the Legislative Council and the House of Assembly received invitations. The attorney general, Hon. C. McNeill, Dr. McN. Parker, H. Black, and J. MacNeill, Messrs Chisholm, McDonald, Lawrence, Morrow, Webster, and MacGregor.

A good many small snow shoe parties have taken place during the past week, the heavy going having given place to good hard crust.

On Wednesday evening the first rink party took place for this year. The hosts were Colonel Hamilton and the officers of the King's regiment, the music being supplied by their own band.

These parties are most delightful both for skaters and spectators, and there are two or three more to come off before the end of the season.

Mrs. Seton has issued invitations for a large tea at her house in Tower Road, on Thursday afternoon. On the same evening Mrs. Seton has a euchre party for Dr. and Mrs. Fowler, who are leaving on Saturday.

On Tuesday evening, Mrs. Mountford gave the first of her lectures on Oriental Life, at Orpheus hall, under the patronage of General and the Hon. Mrs. Montgomery-Moore. The stage on Tuesday was admirably fitted up, to represent the interior of a farmhouse in Palestine; the lecturer was dressed as an Oriental woman, and was assisted by a number of well known ladies and gentlemen, also dressed in the fashion of the east. The lecture was most interesting and very successful. On Thursday evening, Mrs. Mountford's subject is Life in Jerusalem.

Mrs. Alexander, wife of Capt. Alexander, R. A., has returned from England where she has been spending a year with her mother, Lady Ross.

Miss H. Albro, who has been very ill with influenza, is recovering.

The death is announced of Captain G. Mackenzie of Dartmouth, a very well known and esteemed citizen.

Several small sleighing parties are taking place this week, and there is believed to be an evening drive of the sort so popular last year.

CONSUMPTION. THE beneficial effects of the continued use of ROBINSON'S PHOSPHORIZED EMULSION in the first stages of Pulmonary Consumption can scarcely be estimated. The dry hacking cough followed by spitting of blood, and expectoration of thick, yellow plegm is speedily checked; the distressing night sweats that draw so heavily on the vital forces are subdued; the brilliant eye, the pale cheek, with its hectic flush, assume a healthy appearance; refreshing sleep is obtained; the appetite is improved and the functions of nutrition resume their normal condition. It supplies the blood with red corpuscles and materials necessary for the formation of healthy tissues. By its fat producing properties it tends to restrict the waste of the nitrogenized tissues. The body becomes nourished. Emaciation and weakness give place to rapid increase of weight and vigor. The tendency to the formation of fresh tubercular deposits is arrested; those already formed are rapidly pushed forward to "crystallization," and the contraction of the pulmonary cavities is gradually promoted. In the second stage, where one lung only is affected, favorable results are almost as certain, while in the most advanced stages, the patient finds relief, the disease becomes favorably modified, and its fatal termination postponed. Always ask for "Robinson's Phosphorized Emulsion," and be sure you get it. For sale by all Druggists and General Dealers in the Dominion. The wholesale drug houses in the Maritime Provinces and Montreal supply the trade.

EVERY WEEK THERE ARE BRIGHT boys in towns and villages where we have no agencies, sending to secure the right to sell FRAGANCES. There are scores of small places where the people would be glad to take FRAGANCES every week, if any boy could be found who would deliver it, and collect the money. There is enjoyment in it for them, and money for the boys.
