LADIES' COLLEGE NOTES.

SACKVILLE, Jan. 17.—In the second week of last December, the students of the ladies' college went to their homes, with the full determination that nothing would induce them to return, for at least, three or four days after the second term had begun—the vacation would be all too short even with that addition. Strange to say these same students seem to have forgotten all about their resolutions, for they have come back with the greatest possible speed, and are full of eagerness to renew their work. Never in the history of our college has a term opened more propitiously. There are already one hundred students boarding at the "White House," and at least, ten more are expected. During the holidays it was feared that the gripe might prevent some from returning, but as all, with one or two exceptions, have already come back, that fear has been dispelled. The music department is full to overflowing—no teacher has a moment to spare. The faculty is even considering the advisability of engaging a new assistant in the conservatory. The staff remains unchanged. Miss Haggarty, who, owing to illness, was compelled to leave last term, has returned, and has again taken up her work in the studio. All things considered, it may safely be prophesied that 1894 will see the ladies' college in the enjoyment of a degree of prosperity, which, a few years ago, even her most sanguine admirers had not dared to dream of.

During the Christmas holidays Miss Lachs made her first appearance in Moncton. The opera house was crowded and she completely captivated the audience by her singing. All her selections received enthusiastic accolades and, although singing there on only one occasion, she has, nevertheless, made for herself many staunch admirers. Last week a snow storm, far surpassing any which has fallen in Sackville for a number of years, made most excellent snow-shoeing. Needless to say that all fortunate enough to possess snow-shoes, have been reveling in the huge drifts. Monday evening Mrs. Jordan gave a snow-shoeing party for the benefit of the Ladies' college teachers. Being a beautiful moon-light night a very delightful tramp was enjoyed by all. The rink is sadly missed by most of the students. When any mention is made of the happy hours spent under its rickety old roof, many an ardent wisher that some magnanimous person would take the matter in hand and rebuild. There is a small protected opening rink, but as this is usually jealously protected by several feet of snow, it is of little practical use. No doubt last weeks storm was very enjoyable, but it prevented the young ladies from attending the Academy at Home. All day long little groups had collected in the rooms and corridors for the purpose of discussing the arrangements of the evening. The progress of the storm was anxiously watched, but not even the most unenthusiastic dreamed of its preventing them from going. Only an old student who has been a witness on similar occasions can imagine the consternation, when at the tea table, Dr. Jordan announced that owing to the storm, the reception at the Academy had been postponed. All the elaborate preparations were for naught, and accordingly, it has been rumored that several members of the S. S. S. have removed their names from the roll of that admirable and useful society. However, instead of this, instead of being a thing of the past, we have it still to look forward to, and that should compensate for all our disappointment at first felt.

The Ecclesiastic is also sharing in the general prosperity. Already there are ninety nine enrolled and there will probably be some more additions before many weeks have passed. The first meeting showed no deterioration from the high standard invariably upheld by that society. There is a rumor that a public meeting will be held this term. Those who have ever had the pleasure of attending one of these entertainments will, no doubt, be pleased to hear of this. The officers for the ensuing term are: President, Miss Alma Gibson; Vice-president, Miss Gertrude Spicer; Secretary and Treasurer, Miss Nina Reid; Librarians, Miss Maude Weddell and Miss Alice Dickinson; Pianist, Miss Lillian Johnson.

Six plans for the Owens art gallery have been sent in by four different architects. Three of them are one story buildings with the school room at the sides, while the remaining three are two stories, the gallery being above and the school room below. Two plans, each having one storey, have attracted particular attention, one of these has pillars in front, the other a stone and brick front and brick back. Both are very beautiful and it is difficult to make any selection. The chief objection to the pillars is their expense. This objection, however, will be easily overcome if some generous person, looking for a sure investment, will place a few thousand dollars in the hands of the building committee. It is a mistake to suppose that money thus expended is a waste further profit to the giver. On the contrary, nothing he could possibly do would be productive of more solid satisfaction, and it is to be hoped that several persons will try the experiment.

SUMMERSIDE, P. E. I.

[Progress is for sale in Summerside by Messrs T. J. & M. L. Walsh.]
Jan. 16.—The Loan of a Sweetheart, was the first play put on the boards by the dramatic club. It was given in Mrs. John Lefurgy's drawing room. The parts were taken by all the performers. The tea held recently in Market hall by the ladies of the Methodist church was in every way very successful. They realized over two hundred dollars, which goes towards the building fund of their new church.
Mr. and Mrs. Richard Hunt, entertained the members of the Rainbow club on Tuesday evening in their usual hospitable manner. Progressive whist and dancing were indulged in.
Mr. A. A. Lefurgy left here New Year's day for Boston, where he will resume his studies at Harvard university. He was accompanied by his sister, Miss Dot, who will attend the Emerson school of oratory during the winter months.

How They Catch Crows.

In order to catch crows after the gypsy fashion in India, it is necessary to have a captive crow always on hand. This crow must be laid upon its back and its wings pegged to the earth with forked sticks. Immediately a free crow will attack it, and its claws will hold it tight. Crow No. 2 must then be taken and pegged down also. Other crows will come and two more will soon be caught. They must also be laid out with the pegs, and then the four captives will take four other crows. This plan is followed until the hunter has taken all the crows he desires.

CAUGHT BY A THUMB MARK.

It Was the Only Evidence—Then the Assassin Gave Himself Away.

Cases in which a man has been convicted of crime on purely circumstantial evidence are of frequent occurrence, but in the majority of instances it would not be difficult to point to at least one weak link in the chain of guilt. Though numbers of innocent persons have in this way suffered punishment, here is a striking case in which a prisoner was found guilty on testimony that left no room for even the shadow of a doubt.

BUCTOUCHE.

Jan. 15.—A number of the ladies and gentlemen of the Methodist church, gathered at the residence of Mr. and Mrs. Myles Wheaton on Monday where Mr. and Mrs. McLaughlin had been previously invited. An address which was read by Miss Maggie Foley and an envelope containing a sum of money were presented to Mrs. McLaughlin. The address was as follows:

Dear Mrs. McLaughlin:—We embrace the opportunity of meeting you here this evening, to express our appreciation of your services, as organizer of our church, and to tender you our warmest thanks for the deep interest you have always taken in our church work during your sojourn amongst us. We regret the time is drawing near when the harmonious relations that have always existed between us, must sever and feel that we can hardly expect the good fortune of again having the part taken and work done by you as happily performed. As a small token of our good wishes we ask you to accept the contents of this envelope an amount contributed to have purchased a Christmas present. We regret rather late for this, would now ask you to use it as you may think best. Wishing you and yours a very happy and prosperous New Year.
