One of the pleasantest and best managed dances ever given in Halifax was Captain Adams' dance last week at the Masonic hall. It was admirably arranged and most successful in every way, a very great deal having been done to make the room look pretty, and the best of music was provided.

Very pretty frocks were worn by most of the ladies, and dancing was very energetic. Captain Adams deserves the greatest of credit for his enterprise, and his many friends much regret his departure; he leaves for England to day, and will not probably return,

A couple of large teas took up the atternoons of Thursday and Friday of last week. Mrs. Abbot gave an at home on Thursday, and Mrs. Simon Holmes on the day following. On Wednesday there was a tea at Bellevue House.

General Montgomery Moore, the Misses Colborne, and Captain Colborne, A. D. C, have gone to Quebec for the carnival, but !there has not been as large a contingent going there from Halifax as was expected, as it is a time of year when it is hard for a good many people to leave home. Among others from here were Captain Boileau, R. A., and Mr. and Mrs. J. T. Twining.

The skating carnival here comes off on the proper day, Shrove Tuesday, and it is to be a very good one. The Columbian band, of which Mr. Manfred Sawyer is the prime mover, bids fair to rival the German band which he conducted two years ago. There is not to be a minuet, but a very novel and pretty set of lancers, the Pierrot and Pierrette, which will be danced by eight of really the best skaters in the rink. Nothing has been heard at this date about a supper after the carnival, but there is pretty certain to be one got up at the last moment.

Among the passengers for England last Saturday were Major and Mrs. Bor, Miss Kenny, Major Banning and Captain Hartley, the latter three going on a short visit to the other side, and the former for good. Major Bor was an old inhabitant of this station, and Mrs. Bor, nee Miss Morrow, will be missed by concert committees for some time to come.

Prince Victor Duleep Singh, now the Maharajah, is spending the winter with his sisters in Torquay, I regret to hear for the benefit of his health which is

Lady Macdonald of Earnscliffe is spending the winter on the Riviera.

Mr. G. Francklyn, eldest son of Mr. George Francklyn, leaves next week for South America, and has a small farewell dance for his Halitax friends on Thursday of this week.

The only large affair of this week is the rink party on Wednesday evening, given by Surgeon-Colonel Archer and the officers of the army medical staff. This party is rather later in beginning than usual, as it has been found that people do not gather much before nine, no matter at what time they are

Surgeon-Captain and Mrs. Moir have taken a house in South street and will move in this week. Mrs. L. E. Baker, of Yarmouth, has been making a visit to Halifax.

I hear that the battery of Royal artillery stationed here is likely to be ordered to the West Indies in the spring, which means another change in this ever shifting population.

The Murphy Gold Cure institute seems to have come here to stay, as on February the first it will be removed to the house in College street, at one time occupied by the church hospital.

The short season of opera bids fair to be a great success. So far the houses have been excellent. Miss Rosa will prove the popular favorite here, both for her singing and acting, the latter being especially graceful, natural and powerful.

One of the events of the week was the marriage of Miss Lewis to Mr. Silverstone on Tuesday evening at the masonic hall. The ceremony was performed according to the Jewish ritual, a very novel and interesting sight to many of the guests, among whom were some of the best known Halifax people. Atter the ceremony a very excellent dinner was served, and the remainder of the evening was taken up by dancing. There were about a hundred guests present, and during the evening telegrams of congratulation were received from New York and other

The very sudden death of Mrs. Norman Ritchie cast a gloom over a large portion of society last week. Mrs. Ritchie was a prominent member of St. Paul's church, and will be much missed in that congregation where she took a great share in all charitable work. The rector, Rev. Dyson Hague, preached a memorial sermon on Sunday evening, and expressed the sympathy telt by the congregation for the husband and young children of the deceased.

Next week Lent will be upon us, and things will be very quiet for the middleaged portion of society. The young people will continue to attend church in the morning, and mitigate the dulness of the past in the afternoon and evenings by the allowable means of tobogganing and sleighing parties, and rink parties, the latter having been a Lenten institution

As to the denial of which one hears so much, the giving up of five o'clock tea and the renunciation of novel reading it seems to the profane that the latter especially works both ways. The mother of a family who is accustomed to rest from her cares by enjoying a frivolous book, finds the want of that relaxation tell upon her nerves, and in several houses which we all know the first effect of Lent is a general rise in temper, caused by the want of the small luxuries to which the family are accustomed.

To those ladies who devote their afternoons to sewing for the poor nothing but praise is due, but the most of us would be the better for reading an old fashioned poet on "How to keep a True Lent.

Halifax has a distinguished visitor this week in Monsignor Stephen Issa, Archdeacon of Chaldea, and chaplain to His Holiness the Pope, who is at present the guest of the Rev. William Murphy. Monsignor Issa has been one of the most distinguished missionaries in Palestine, Assyria, and Kurdistan; he leaves on Saturday to continue his

I hear that it is likely that Professor Johnson will resign his chair at Dalhousie, a rumor which it is to be hoped will prove untrue.

Mr. and Mrs. F. J. Phelan returned on Tuesday from their wedding tour.

The concert at the Church of England institute on Tuesday evening was postponed on account of among the performers being Miss Slayter, whose singing we hear far too seldom, Mrs. A. G. Troop, whose charming voice is a great acquisition to

CONSUMPTION

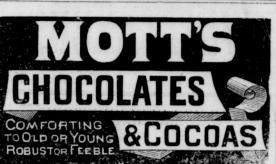

E beneficial effects of the continued use of ROBINSON'S PHOSPHORIZED EMUL. SION in the first stages of Pulmonary Consumption can scarcely be estimated.

The dry hacking cough followed by spitting of blood, and expectoration of thick, yellow phlegm is specify checked; the distressing night sweats that draw so heavily on the vital forces are subdued; the brilliant eye, the pale cheek, with its hectic flush, assume a healthful appearance! refreshing sleep is obtained; the appetite is improved and the functions of nutrition resume their normal condition. It supplies the blood with red corpuscles and materials necessary for the formation of Healthy tissues. By its fat producing properties it tends to restrict the waste of the nitrogenized tissues. The body becomes rourished. Emacitation and weakness give place to rapid increase of weight and vigor. The tendency to the formation of fresh tubercular deposits is arrested; those already formed are rapidly pushed forward to "cretification," and the contraction of the pulmonary cavities is gradually promoted. In the second stage, where one lung only is affected, favorable results are almost as certain, while in the most advanced stages, the patient finds relief, the disease becomes favorably modified and its fatal termination postpared.

ease becomes favorably modified, and its fatal termination postponed.

Always ask for "Robinson's Phosphorised Emulsion," and be sure you get it. For sale by all Druggists and General Dealers in the Dominion. The wholesale drug houses in the Maritime Provinces and Montreal supply the trade.
