Miss Genevieve Landry left Wednesday evening for Quebec, where she will make a visit of two months.

The death of Miss Lottie V. Golden, granddaughter of the late W. H. Jones, occurred at Torryburn last week and was heard with regret by many in St. John who knew Miss Golden.

For some time she had attended the Kerr business college and was known as a particularly bright and clever young lady and a universal favorite, her amiable qualities endearing her to all with whom she came in contact; she would have finished the short hand course in about two weeks. The funeral was very largely attended, the floral tributes were beautiful and were buried with her; the shorthand department of Kerr's business college sent a magnificent crown of pink and white roses. The young lady's relatives will have the sympathy of many friends.

Mrs. A. Robertson, who has been paying a very enjoyable visit to friends in Sussex, returned to the city last week.

Miss Nellie Robertson, of Annapolis Royal, is visiting friends in St. John.

The reunion of the congregation of St. Mary's church on Tuesday evening was a very agreeable affair; the Orpheus orchestra was present and discoursed sweet music at various intervals during the evening; recitations and songs made the evening pass very quickly and pleasantly, while the distribution of cake, coffee and ice cream had not a little to do with the general pleasure. An address was presented to the pastor, Rev. W. O. Raymond, to which he responded in an appropriate way.

E. C. Bowers, M. P. for Digby, and C. E. Kaulbach, M. P. for Lunenburg, who were this week in the city, left on Wednesday for Ottawa.

PLUMS—3,000 young trees of best commercial varieties, chiefly on native stocks; 2,000 two years old. Three years ago I planted a number of new varieties of Plums, obtained from leading Orchardists in New York. Last year they began to fruit and this year gave me a full crop. I have selected four valuable varieties, the first ripening August 12th, the last October 10th. This fruit preserved in glass. I have a number of the trees for sale, along with Moore's Arctic and Lombard. I planted thirty bushels of Plums last autumn to secure native stocks. PEACHES—1,000 trees. The first and only Peach Nursery in the province. Stocks budded with choice varieties, tested on ground. GRAPES—Vines in early varieties only. PEARS—Trees three years old, some grown, leading kinds. Priestley's BLACK DRESS FABRICS. "Are they not exquisite in their soft richness?" is the constant remark of ladies touching Priestley's famous black dress goods. And that is the truth, but it is not the whole description, for they have a character for refinement, for wearing and draping quality, which no other dress goods can lay claim to. The Priestley's appear to have gathered up all their excellences, and concentrated them in "Eudora," the latest black dress fabric they have given to the world. In every respect equal to the famous Henriettas, it surpasses them in extra width, and weight, and in dust-repelling quality. It is wrapped on "The Varnished Board" and Priestley's name is stamped on every five yards.
