## The Steed of the Age!

### It is Fashionable.

The Duke of Fife who has been learning to ride a bicycle, in a secluded street of Brighton, with a man servant on one side and a page boy on the other side of his wheel, seems to have set the example to other notable persons to do likewise. for the Duke of Portland, master of the horse and late colonel of the Honorable London Artillery company and Mlle. Yvette Gilbert, the lively French singer, whose songs have delighted large audiences in London and on the continent, are now following the Duke of Fife's example and Lady Colin Campbell has just patented an improvement in bicycling wallets.
