HOPEWELL.

JAN. 22.—Miss Primrose spent a few days lately with her friend, Miss Mabel Robertson.

Miss Robertson has been the guest of Miss Sara Walker, New Glasgow.

Miss Murray has been visiting the Misses McLean at Scotia house.

Rev. J. B. McLean and Mr. Harry McLean are spending a few days at home.

Professor A. Fraser of Halifax, and Mr. A. MacKay, spent a day at the "Hopewell House" as did also Mr. Murray, A. W. Thompson, F. H. Hill, Rev. A. Falconer, Pictou, and Mr. Wallace, Toronto.

Rev. A. V. Morash, Galdens, is the guest of Mr. and Mrs. J. McDonald.

Miss Cary Falconer, Sherbrooke, who is studying music with Miss Jean Harber-Olding, pupil of St. Mary's Rosetti, returns to Windsor at the close of the close of the term.

The last two lectures of the series to be given this winter were greatly appreciated. The first on "The Growth of Languages" was highly instructive.

Rev. Charles MacKinnon lately arrived from Scotland, showing himself to be a careful observing student in science.

"A run into South America" was graphically described by Rev. Alex. Falconer. As this gentleman is well and favorably known as a lecturer I need not go into details.

The New Year was ushered in with snow flakes and song. The ladies gave a concert and service introducing into a talent which was greatly appreciated.

Miss Odling in a pretty pink gown trimmed with brown velvet and deep cream lace sang charmingly "The Better Land," responding to a hearty encore.

Miss Falconer, a pupil of the German Artiste Herr Hare Doering, gave an exquisite recital—perfect harmony with the music played throughout the piece, gracefully attired in a plain blue silk tulle, with cream lace.

Miss Fraser looked well in a black silk with lace and natural flowers and ferns, sang "Morning Land," very sweetly assisted by Miss Falconer.

Miss B. Bain and McDonald sang a duet, their voices blending beautifully. Several instrumental pieces, violin and organ, were perfectly executed, while we were treated to a real surprise in the wonderful whistling soloist, whose imitation of the mocking bird was grand.

For a brief while the room seemed filled with feathered songsters. Every conceivable corner held a bird. They stood by with their merry chirping. Then suddenly each bird responded, each throat filled with melody, and the song burst forth, weird, unaltered in the very midst of the music.

The gentleman, whose name I do not know, is a coming light in the musical world and if I mistake not, is already in great demand. Much credit is due to Mr. J. W. Fraser for the admirable way in which he conducted the affair.

Miss McLennan, Pictou, was the guest of her brother, Mr. J. C. McLennan and Mrs. McLennan recently.

LIKE GOLD WATER TO A THIRSTY SOUL.

REV. ISAAC BAIR, J., Templeton, Cal., well known in Canada: "I have tried K. D. C. and also the Pills, and find them just the thing—vastly better than what the doctor ordered. The very first dose of K. D. C. helped me and now that miserable headache is all gone, also that oppressed feeling that I have suffered from for months. I never mean to be without K. D. C. again; no medicine I have ever taken worked like it; it is like cold water to a thirsty soul. This is the second time I have tried K. D. C. and there is no failure or disappointment."

THINGS OF VALUE. "Oh where are the friends of my youth?" In a moment reflective, I cried; Through the door I peeped a head, and the office boy said: "There's a gent wants to see you outside." With emotion he grasped my hand tight; You pardon these tears—I've not seen you in a year or more.

There never was, and never will be a universal panacea, in one remedy, for all ills that flesh is heir to—the very nature of many curatives being such that they were the germs of other and differently seated diseases rooted in the system of the patient—what would relieve one ill in turn would aggravate the other. We have, however, in Quinine Wine, which obtains in a sound undiluted state, a safe and reliable relief in all cases of malarial, intermittent and remittent fevers. By its gradual and judicious use, the febrile system is led into convalescence and strength, by the influence which Quinine exerts on Nature's own restorative. It relieves the drooping spirits with those with whom a chronic state of morbid despondency and lack of vitality is a disease, and, by tranquilizing the nerves, disposes to sound and refreshing sleep—imparts vigor to the action of the blood, which, being stimulated, courses throughout the veins, strengthening the healthy animal functions of the system, thereby making activity, energy and vigor, the normal state of the frame and giving life to the digestive organs, which naturally demand increased sustenance—result, improved appetite, Northrup & Co. Toronto, have given to the public their superior Quinine Wine at the usual rate, and, gaged by the opinion of scientists, it has become the standard of perfection of any in the market. All druggists sell.
