Busts of Bank-Notes.

Old and mutilated bank-notes, when they come back to the United States Treasury, are chopped up and made into a pulp, and this is moulded into various shapes and forms. The latest design is a miniature bust of Mr. Cleveland. It takes ten thousand dollars' worth of bank-notes to make a bust of the President's wife, and each figure is labelled: "Made from mutilated United States bank-notes worth ten thousand dollars." These are disposed of for a small sum, and are having a good sale.
