Earncliffe Gardens,

CONTAINING TRIED AND APPROVED LINES OF

Plum Peach, Pear and Apple Stock for Spring Planting.

PLUMS—3,000 young trees of best commercial varieties, chiefly on native stocks; 2,000 1 1/2 years old. Three years ago I planted a number of new varieties of Plums, obtained from 1 leading Orchardist in New York. Last year they began to fruit and this year gave me a full crop. I have selected four valuable varieties, the first ripening August 12th, the last October 19th. This fruit preserved in glass I have a number of the trees for sale, along with Moore's Arele and Lombard. I planted thirty bushels of Plums last autumn to secure native stocks. PEACHES—1,000 trees. The first and only Peach Nursery in the province. Stocks built up with choice varieties, tested on ground. GRAPES—Vines in early varieties only. PEARS—Trees three years old, some grown, leading kinds. APPLES—A specialty made: Gravensteins, Ribston Pippin and Russets. THE ABOVE STOCK IS GOOD. ALSO EXCELLENT SITUATION FOR BUILDING.

N. B.—A visit to the Gardens or correspondence solicited

Stower's

ORIGINAL

Lime Juice Cordial.

Dr. E. D. KING, M. D., Medical Officer of Health, (Hfracombe), writes: "Stower's Lime Juice Cordial is an honest production from natural fruit. As a drink it is delicious—in the sick chamber it is of great value, nothing of its class in the market comes near it. I have formed this opinion from analysis, and from a practical experience of its good qualities."
