Lieut Col., Maunsell accompanied by Miss Maun-

sel are in the city. Mr. and Mrs. L. A. Curry enjoyed a days outing recently, on the St. John river.

Mr. and Mrs. B. R. Macaulay and their son Donald are paying a visit to Montreal. The "At Home" held in the Carleton methodist church on Thursday evening was a most pleasant and successful affair. The entertainment was a most interesting one and was carried out very smoothly. The programme included the following: organ solo, Miss Beatty; song, Some Day, Miss M. Beatty; violin duett, Misses Retailick and Beatty; song, "Joys of

Mr. A. H. Hannington and Mr. A. C. Fair- How They Elude the Pursuit of Their weather who are passengers on the Parisian are ex-

pected to reach home tomorrow. Mr. H. B. Schofield is visiting friends in Moz-

Mr. and Mrs. Turnbull and Miss Gertrude Schofield, returned from their European trip this week. Miss Annie Driscoll was among those who re ceived an invitation to the marriage of Irving L Blinn and Miss Geneveive Clothilde Nannary San Francisco, on Tuesday evening, the fourth of June. Mrs. Blinns friends in this city will wish

Miss Fays entertainments have drawn crowded

first matinee she has ever given and is at the urgent | satest there, for the larger fish grounds in request of many leading iadies. There is one point following. The flounder is one of an numconnected with the exhibitions which nust be a source of great annoyance to Miss Fay and Mr. Pingree, as it is to the audience, and that is the persistent refusal of many who ask questions to a 1swer when their name is called. It they are afraid or ashamed to acknowledge the ques. ion they should certainly not ask it. One lady well known in society asked, the other night a out a sum of money she; nad lost, but when the question was called declined to answer. Next div she coolly wrote Miss Fay saying that w lile she had asked the question she did not care to answer to her name at the opera house but

preferred a private answer. The matinee will of course be very interesting.

Nevins and her daughter Mrs. Wortman, at her

home, Monctor, Miss Lottie Belyea has returned from Boston,

where she spent an enjoyable vacation. in North End. She was the guest of Mrs. Robert one coming to creep under ulva or sea

North Shore. Miss Louise Murray is visiting friends at San

The North end schools have suffered another loss by the marriage of Miss Beatty, who for some time was teacher on the staff at St. Peter's school. Mr. Edward McPartland the groom, was assisted by Mr. Joseph Mullaley, while the bride was lattended by her friend Miss McMillan. After the ceremony in Holy Trinity church, Mr. and Mrs. McPartland left by train for Boston.

ANNAPOLIS ROYAL.

JUNE 11 .- On Wednesday morning last Mr. J. Herbert Runciman and Miss Annie Dargie, two o our most popular young people here were united ir marriage at the Methodisf church. The church was most artistically decorated by friends of the oride, which showed the high esteem in which she was held. Three very handsome flower arches were erected. From the centre arch was snspended a dainty bell composed of lillies of the valley. The left arch was entirely of white flowers with the bride's initial at the top. The right arch was finished with the groom's initial at the top. The chancel rail was entwined with vines and flowers At the back were banked handsome potted plants. At half past ten the groom entered supported by Mr. Frank Dargie brother of the bride, a moment. later the bride entered leaning on the arm of her father Mr. Chas. Dargie, and accompanied by Miss Runciman sister of the groom. The bride looked charming in a beautiful gown of white ivory silk and lace, with veil and orange blossoms; she carried an elegant bouquet of bridal roses. The bridesmaid was dressed in gaslight green silk with large leghorn hat with green trimmings. Her bouquet was pink roses. The ceremony was performed by the Rev. James Strothard assisted by the Rev. R S. Whidden. The wedding march was most effectively rendered by Mr. R. Hardwiche; after the ceremony the happy couple and about thirty guests repaired to the home of the bride at Lequille, where a very dainty luncheon was served, after which they left by the Monticello for St. John tollowed by the good wishes of a host o friends. The bride was the recipient of many elegant gifts including a check from the grooms father. After a short tour through the maritime provinces. Mr. and Mrs. Runciman will be "at

home" to their friends on the 17th. Mr. Wisley of the Militia department Halifax

Georges church last Sunday.

Mr. and Mrs. J. Roy Campbell, of Ft. John. are staying at the Sydney. The Misses Draper passed through town last night

on their way to Lewisburg. Miss Annie Cameron, of St. John, is spending the summer at the Sydney. CHERRY RIPE.

EDMUNDSTON.

June 8 .- One of the most enjoyable outings that can be had, at this season of the year, is a fishing trip to Lake Temiscouata; and a party bent on pleasure set out from here on Monday last and spent the week at that beautiful place. The party onsiste l of Mr. F. M. Richards, and family, ac.

companied by Miss Alice M. Block, of Fredericton, Rev. Mr. Hopkins and Mr. A. Lawson, and each and all succeeded in enjoying themselve to the utmost: enough fish were lured from the lake and the Toladi river to keep the table well supplied during the stay, and a good number of no small weight were brought home. Mr. Richards has secured for the summer, a house structed on a very pretty cove the summer, a house situated on a very pretty cove about a mile above Cloutier's and so there were about a mile above Cloutier's and so there were none of the drawbacks incident to living at hotels. Mr. Thomas Crockett, the general manager of the Temiscouata railway kindly gave orders that the train should stop in front of the house long enough to allow the party to disembark with their supplies and on-fits. This is the first excursion of the kind this year but it is likely that very few weeks of the season will the party that out there being a greater or less number of occupants of the house to enjoy the sport. One himg that makes a stay at "Gladys Cove" more enjoyable than at other places is the almost entire absence of then at other places, is the almost entire absence of mosquitoes and other summer pests. The air is clear and bracing and the scenery enchanting.

SAGACIOUS SMALL FISH.

Large Varacious Companions. Almost all fishes are prey for others larger than themselves, says the N. Y. Sun Various fishes have various methods of evading pursuit. On the first sign of danger all small fishes seek shallow water, and if they are away from the shore they daughter of William Nannary, which took place in seek the surface. At the surface they are comparatively safe, for there are many fishes that do not like to come quite to the top, and their pursuit ends just below it. houses all this week and the matinee this atternoon If the smaller fish can work in along the will without doubt be a great success. It is the edge of the shore in shallow water it is ber of rather good-sized fishes that are of very light draught, and which can get pretty well inshore when pursued. The usual method of the flounder, however, is to bury itself in the sand and sometimes when very closely pursued it springs out of its bed, making the water opaque with the sediment it stirs up, and swims swiftly away, perhaps in a zigzag course, to bury itself again twenty or thirty feet off. It is a familiar fact that in their eagerness to escape pursuit from larger fishes the rear fishes in a shoal of small fishes will often | ran from 50 to 60 pounds and racers 30 to crowd those ahead of them high and dry | 35 pounds. out of water. Often on ocean beaches smaller fishes, such as herring, butterfish, Mrs. Char es Nevins is visiting her son Mr. C. and menhaden, are driven up in such numbers that they lie on the sand in windrows.

There are many fishes that bury themselves in the mud or sand or that hide under rocks and in crevices. It is common Mrs. Morrison, of Fredericton, spent a few days enough for a small fish when he sees a big lettuce or any other marine plant; and Miss Annie Purdy has her cousin, Miss Purdy | there are many fishes that change color so that they can scarcely be distinguished Mrs. David McLellan and family have gone to from their surroundings. Some fish pretend to be dead; they lie on the bottom motionless, and so escape observation or being eaten by fish that prefer live food. The striped bass, for instance, which much prefers live food, might nose over a killie that appeared to be dead, and leave it, but if in the exuberance of its spirits the killie should too suddenly come to life the bass would go back and eat it.

Introducing a Cycle.

For some few weeks back there has appeared in our columns an advertisment in the cycle line, of the firm of E. C. Hill & Co., Toronto, who are introducing their goods this season into New Brunswick and Nova Scotia, with the intent of securing a large share of the trade in 1896. The firm consists of E. C. Hill and Harry H. Love. Mr. Hill has been in the cycle trade for some years and is the pioneer in the cycle trade at present, he having been in the business in Kingston, Ontario, during the time of C. Robinson who sold out to H. P. Davies. Mr. Hill has been for years a prominent member of the Canadian wheelman's asso., and had the honor of holding the presidency of same tor some time. He is interested in amateur sports of all kinds, and takes an active part in lawn bowling, curling and cycling. There is no one in the trade, more acquainted with the requirements of cyclists, and it has been a long noted fact in Ontario, that he never

handles trashy goods. Mr Love, generally styles by the cyclists "Harry" is one of the most popular young men in Toronto, and is somewhat of a racer | and were locked up. in a quiet amateur way, baving won a number of races under the colors of the Toronto Bicycle club, of which club he

,now holds the captaincy for 1895. They are doing one of the cleanest and nicest trades in the cycle line, and as they are carrying out McHills old ideas of having reliable goods even in the cheaper lines,

Caused by Inflammatory Swelling

A Perfect Cure by Hood's Sarsa-

parilla. "It affords me much pleasure to recommend Hood's Sarsaparilla. My son was afflicted with great pain in the joints, accompanied with swelling so bad that he could not get up stairs to bed without crawling on hands and knees. I was very anxious about him, and having read

so much about Hood's Sarsaparilla, I determined to try it, and got a half-dozen bottles, four of which entirely cured him." Mrs. G. A. LAKE, Oshawa, Ontario.

N. B. Be sure to get Hood's Sarsaparilla. Hood's Pills act easily, yet promptly and efficiently, on the liver and bowels. 25c.

we predict their obtaining a quick and prominent hold in these provinces. In the "King of Scorchers" their best cycle, they have the worlds Standard machine one of the only two special grade wheels

Cyclists throughout Canada, as at the national show in England, are loud in the praises of the Centaur Cycle co., new bear ings. In addition to being oil retaining, they can be more accurately adjusted than any other bearing, and having a locked adjustment, all trouble, worry and annoy ance from improper adjustment, or bear ings getting loose, is avoided. It is the only wheel extant in which the bearings are independent of the trames, forks and axles. All other bearings have to be adjusted after the wheels are put into the torks, which is troublesome and inaccurate. In the X. O. S. the wheels can be removed and replaced a thousand times it re quired and no adjustment is necessary. In addition to this the oil does not escape and run all over the machine and the owners clothes, leaving the bearing dry and making frequent oiling a neccessity. In the K. O. S. oiling about three times a season is all that is required, as owing to the oil both the bearings always run in o.l, and the bearing being the most dust proof made, cleaning the bearings once a year is all that is required. For 1895 this firm are not appointing any agents, but will sell any where in their catalogue direct to the purchaser at agent's prices for the purposes of creating a demand for, and introducing their line of wheels for 1896 Any purchasers of their goods can depend upon being treated liberally and fairly, and upon getting durable, satisfactory goods whether they purchaser the cheaper line or their K. O. S. We might mention by the by, that the Centaur Cycle company makers of the three oldest firms in the world, and are the pioneers of light weights in addition to the improved bearings, having made a 27 pound roadster in 1891, when other roadsters

Wby Some People Drink,

I think poison from the detective oxidation of the blood, together with imperfect elimination of waste products, is a very active factor in inebriety says a recent writer. In all rational treatment efforts to remove these possible causes should precede all other means of treatment. The continual inhaltation of impure and defective air is always tollowed by accumulation of poisons which, in many ways unknown cause reflex nerve disturbances and reactions. The heart contracts more frequently, respiration is accelerated and elaboration of nutrive material is altered in all the cells of the body. Fatigue, depression and lowered vitality follow. Alcohol at this time is a grateful narcotic, which not only conceals the real condition but brings increased degeneration with new bacteria formations and diminished resistance to disease. The brain and nervous system suffers as much as any other part of the body, although this is not recognized.

Woman Can Hold Her Tongue.

"My doctor is a real joker," said a Lewiston lady. "I didn't know that my talking bothered him when he was writing prescriptions until yesterday. He never mentioned it, and I always asked him all sorts of questions while he was writing them out. Yesterday he examined me and sat down to write something. I kept talking. Suddenly he looked up and said: 'How has your system been? Hold out your tongue.' I put out that member and he began to write. He wrote and I held out my tongue, and when be got through he said: 'That will do.' 'But,' said I, 'You haven't looked at it.' 'No,' said he, I didn't care to. I only wanted to keep it still while I wrote the prescription."

How They Agreed.

At a certain assize beld recently in the south of England, the jury could not agree,

After a long and animated discussion, a division was taken, when ten were found to be lor conviction and two for acquittal. Another long and acrimonious debate followed, and eventually a big burly farmer, who was leading a majority, went over to the diminutive individual who, with a companion, formed the minority, and, assuming | up housekeeping and came home to die. At least his most aggressive attitude, said: "Now, then, are you two going to give in?"

"No !" definantly replied the small man. "Very well," was the answer; "then us ten will!" And they did!

Theory and Practice.

pated women is going to have a lecture on steadily and rapidly to an entire recovery, gaining the social equality of the sex. You must | both strength and flesh." be sure and come.

Mrs. Cobwigger-Certainly, my dear. I shall bring Miss Smith with me, as she believes in social equality. Mrs. Dorcas -- Not for the world. You

know she isn't in oar set. Found It At Last.

The proverbial needle in a haystack has been found by a cow in Dakota. The cleverness of the animal's performance of the hitherto thought impossible feat is perhaps marred because of the fact that she was not hunting for it. The unfortunate animal found the needle with her tongue while munching feed, but a veterinury surgeon removed it without serious in-

THOS, DEAN. 13 and 14 City Market. S A. SNELL.

TO INTRODUCE in Nova Scotia, New Brunswick and P. E. I. read carefully the following offer.

There are TWO and only two SPECIAL GRADE Cycles

The CENTAUR, "KING OF SCORCHERS," is one of these.

We desire to introduce his bicycle through New Brunswick, Nova Scotia and P. E. I. a view to open up a large trade for 1896

We therefore offer our wheels for 1895 direct to the riders at agents prices. At these prices we will place up to 100 wheels, but not more.

This K. O. S. is the only English Cycle which has not been driven out of the United States by home competition; and

already for 1895 more than 2000 more have been sold than for 1894. They sell at \$135 00 in the United States while the home goods sell at \$100.00. This proves their merit.

> The CENTAUR CO. introduced | light wheels in 1894 and have since always retained this lead. Their light weight wheels being far more durable than any other make. Total repairs under guarantee on 236 wheels for 1894 only \$48.50, including snaps.

> WHERE ONCE INTRODUCED IT TAKES THE LEAD. In addition to durability the K.O.S. has patent bearings, being most dust proof, oil retaining and having a locke I adjustment. The GREATEST and MOST USEFUL IMPROVEMENT for 1895. Oil does not leak out, all over wheel. Dry bearings one side an impossibility. Oiling once a month (usual quantities) sufficient. Adjustment of bearings done before wheel goes into frame and is locked. Loose nuts cannot cause binding of bearings. Wheel can be removed from frame 100 times a day without adjustment being affected. Saves TIME, ANNOYANCE and EXPENSE. Has also all latest ordinary improvements.

We have also the Crawford Speed King, 24 lbs, at \$85.00 and the Fairy King, 25 lbs at \$65 oo. Excellent value durable and easy riding. Our offer applies to to these wheels

E. C. HILL & Co.,

After the Doctors Had Given Her Up. Last week we gave the history of a business man broken down from what he supposed was Nervous prostration, overwork, cured by No. 10, Dyspepsia being his real ailment. Now we give the case of one of the many care-worn women. Her story is best told in the words of her niece, "Auntie was truly a wreck-completely run down, could neither raise hand or foot, the slightest exertion was an effort. By the advice of her Doctor's she gave the Doctors effered no hope, intimating that nothing could be done for her. It's true, her Stomach was disturbed, but it was generally supposed she was suffering from Nervous Prostration, until a triend urged the use of HUMPHREY'S SPECIFIC NO. 10. The effect was almost miraculous; Auntie be-Mrs. Dorcas-Our league of emanci- gan to gain at once; the improvement continued

There is little doubt that nine-tenths of all the suftering attributed to Nervous Prostration is due to Dyspepsia, Indigestion and Stomach Troubles, 10 is the true digestive tonic, a revelation to many-no physic-no nasty doses-just a small bottle of pleasant pellets-fits your vest pocket. Sold by druggists or sent on receipt of price, 25c., or 5 for \$1.00. HUMPAREYS' MEDICINE COM-PANY, corner WILLIAM AND JOHN STS., New York.
