

DISEASED LUNGS

CURED BY TAKING
AYER'S Cherry Pectoral.

"I contracted a severe cold, which settled on my lungs, and I did what is often done in such cases, neglected it. I then consulted a doctor, who found on examining me, that the upper part of the left lung was badly affected. The medicines he gave me did not seem to do any good, and I determined to try Ayer's Cherry Pectoral. After taking a few doses my trouble was relieved, and before I had finished the bottle I was cured."
